《大中华文库》终于出版了。我们为之高兴，为之鼓舞，但也倍感压力。

当此之际，我们愿将郁积在我们心底的话，向读者倾诉。

中华民族有着悠久的历史 and 灿烂的文化，系统、准确地将中华民族的文化经典翻译成外文，编辑出版，介绍给全世界，是几代中国人的愿望。早在几十年前，西方一位学者翻译《红楼梦》，书名译成《一个红楼上的梦》，将林黛玉译为“黑色的玉”。我们一方面对外国学者将中国的名著介绍到世界上去表示由衷的感谢，一方面为祖国的名著还不被完全认识，甚而受到曲解，而感到深深的遗憾。还有西方学者翻译《金瓶梅》，专门摘选其中自然主义描述最为突出的篇章加以译介。一时间，西方学者好像发现了奇迹，掀起了《金瓶梅》热，说中国是“性开放的源头”，公开地在报刊上鼓吹中国要“发扬开放之传统”。还有许多资深、友善的汉学家译介中国古代的哲学著作，在把中华民族文化介绍给全世界的工作方面作出了重大贡献，但或囿于理解有误，或缘于对中国文字认识的局限，质量上乘的并不多，常常是隔靴搔痒，说不到点子上。大哲学家黑格尔曾经说过：中国有最完

备的国史。但他认为中国古代没有真正意义上的哲学，还处在哲学史前状态。这么了不起的哲学家竟然作出这样大失水准的评论，何其不幸。正如任何哲学家都要受时间、地点、条件的制约一样，黑格尔也离不开这一规律。当时他也只能从上述水平的汉学家译过去的文字去分析、理解，所以，黑格尔先生对中国古代社会的认识水平是什么状态，也就不难想象了。

中国离不开世界，世界也缺少不了中国。中国文化摄取外域的新成分，丰富了自己，又以自己的新成就输送给别人，贡献于世界。从公元5世纪开始到公元15世纪，大约有一千年，中国走在世界的前列。在这一千多年的时间里，她的光辉照耀全世界。人类要前进，怎么能不全面认识中国，怎么能不认真研究中国的历史呢？

二

中华民族是伟大的，曾经辉煌过，蓝天、白云、阳光灿烂，和平而兴旺；也有过黑暗的、想起来就让人战栗的日子，但中华民族从来是充满理想，不断追求，不断学习，渴望和平与友谊的。

中国古代伟大的思想家孔子曾经说过：“三人行，必有我师焉。择其善者而从之，其不善者而改之。”孔子的话就是要人们向别人学习。这段话正是概括了整个中华民族与人交往的原则。人与人之间交往如此，在与周边的国家交往中也是如此。

秦始皇第一个统一了中国，可惜在位只有十几年，来不及作更多的事情。汉朝继秦而继续强大，便开始走出去，了

解自己周边的世界。公元前 138 年，汉武帝派张骞出使西域。他带着一万头牛羊，总值一万万钱的金帛货物，作为礼物，开始西行，最远到过“安息”（即波斯）。公元前 36 年，班超又率 36 人出使西域。36 个人按今天的话说，也只有一个排，显然是为了拜访未曾见过面的邻居，是去交朋友。到了西域，班超派遣甘英作为使者继续西行，往更远处的大秦国（即罗马）去访问，“乃抵条支而历安息，临西海以望大秦”（《后汉书·西域传》）。“条支”在“安息”以西，即今天的伊拉克、叙利亚一带，“西海”应是今天的地中海。也就是说甘英已经到达地中海边上，与罗马帝国隔海相望，“临大海欲渡”，却被人劝阻而未成行，这在历史上留下了遗憾。可以想见班超、甘英沟通友谊的无比勇气和强烈愿望。接下来是唐代的玄奘，历经千难万险，到“西天”印度取经，带回了南亚国家的古老文化。归国后，他把带回的佛教经典组织人翻译，到后来很多经典印度失传了，但中国却保存完好，以至于今天，没有玄奘的《大唐西域记》，印度人很难编写印度古代史。明代郑和“七下西洋”，把中华文化传到东南亚一带。鸦片战争以后，一代又一代先进的中国人，为了振兴中华，又前赴后继，向西方国家学习先进的科学思想和文明成果。这中间有我们的领导人朱德、周恩来、邓小平；有许许多多大科学家、文学家、艺术家，如郭沫若、李四光、钱学森、冼星海、徐悲鸿等。他们的追求、奋斗，他们的博大胸怀，兼收并蓄的精神，为人类社会增添了光彩。

中国文化的形成和发展过程，就是一个以众为师，以各国人民为师，不断学习和创造的过程。中华民族曾经向周边国家和民族学习过许多东西，假如没有这些学习，中华民族决不可能创造出昔日的辉煌。回顾历史，我们怎么能够不对

伟大的古埃及文明、古希腊文明、古印度文明满怀深深的感激?怎么能够不对伟大的欧洲文明、非洲文明、美洲文明、澳洲文明,以及中国周围的亚洲文明充满温情与敬意?

中华民族为人类社会曾作出过独特的贡献。在15世纪以前,中国的科学技术一直处于世界遥遥领先的地位。英国科学家李约瑟说:“中国在公元3世纪到13世纪之间,保持着一个西方所望尘莫及的科学知识水平。”美国耶鲁大学教授、《大国的兴衰》的作者保罗·肯尼迪坦言:“在近代以前时期的所有文明中,没有一个国家的文明比中国更发达,更先进。”

世界各国的有识之士千里迢迢来中国观光、学习。在这个过程中,中国唐朝的长安城渐渐发展成为国际大都市。西方的波斯、东罗马,东亚的高丽、新罗、百济、南天竺、北天竺,频繁前来。外国的王侯、留学生,在长安供职的外国官员,商贾、乐工和舞士,总有几十个国家,几万人之多。日本派出“遣唐使”更是一批接一批。传为美谈的日本人阿部仲麻吕(晁衡)在长安留学的故事,很能说明外国人与中国的交往。晁衡学成仕于唐朝,前后历时五十余年。晁衡与中国的知识分子结下了深厚的友情。他归国时,传说在海中遇难身亡。大诗人李白作诗哭悼:“日本晁卿辞帝都,征帆一片远蓬壶。明月不归沉碧海,白云愁色满苍梧。”晁衡遇险是误传,但由此可见中外学者之间在中国长安交往的情谊。

后来,不断有外国人到中国来探寻秘密,所见所闻,常常让他们目瞪口呆。《希腊纪事》(希腊人波桑尼阿著)记载公元2世纪时,希腊人在中国的见闻。书中写道:“赛里斯人用小米和青芦喂一种类似蜘蛛的昆虫,喂到第五年,虫肚子胀裂开,便从里面取出丝来。”从这段对中国古代养蚕技术的

描述，可见当时欧洲人与中国人的差距。公元9世纪中叶，阿拉伯人来到中国。一位阿拉伯作家在他所著的《中国印度闻见录》中记载了曾旅居中国的阿拉伯商人的见闻：

——一天，一个外商去拜见驻守广州的中国官吏。会见时，外商总盯着官吏的胸部，官吏很奇怪，便问：“你好像总盯着我的胸，这是怎么回事？”那位外商回答说：“透过你穿的丝绸衣服，我隐约看到你胸口上长着一个黑痣，这是什么丝绸，我感到十分惊奇。”官吏听后，失声大笑，伸出胳膊，说：“请你数数吧，看我穿了几件衣服？”那商人数过，竟然穿了五件之多，黑痣正是透过这五层丝绸衣服显现出来的。外商惊得目瞪口呆，官吏说：“我穿的丝绸还不算是最好的，总督穿的要更精美。”

——书中关于茶(他们叫干草叶子)的记载，可见阿拉伯国家当时还没有喝茶的习惯。书中记述：“中国国王本人的收入主要靠盐税和泡开水喝的一种干草税。在各个城市里，这种干草叶售价都很高，中国人称这种草叶叫‘茶’，这种干草叶比苜蓿的叶子还多，也略比它香，稍有苦味，用开水冲喝，治百病。”

——他们对中国的医疗条件十分羡慕，书中记载道：“中国人医疗条件很好，穷人可以从国库中得到药费。”还说：“城市里，很多地方立一石碑，高10肘，上面刻有各种疾病和药物，写明某种病用某种药医治。”

——关于当时中国的京城，书中作了生动的描述：中国的京城很大，人口众多，一条宽阔的长街把全城分为两半，大街右边的东区，住着皇帝、宰相、禁军及皇家的总管、奴婢。在这个区域，沿街开凿了小河，流水潺潺；路旁，葱茏的树木整然有序，一幢幢宅邸鳞次栉比。大街左边的西区，

住着庶民和商人。这里有货栈和商店，每当清晨，人们可以看到，皇室的总管、宫廷的仆役，或骑马或步行，到这里来采购。

此后的史籍对西人来华的记载，渐渐多了起来。13世纪意大利旅行家马可·波罗，尽管有人对他是否真的到过中国持怀疑态度，但他留下一部记述元代事件的《马可·波罗游记》却是确凿无疑的。这部游记中的一些关于当时中国的描述使得西方人认为是“天方夜谭”。总之，从中西文化交流史来说，这以前的时期还是一个想象和臆测的时代，相互之间充满了好奇与幻想。

从16世纪末开始，由于航海技术的发展，东西方航路的开通，随着一批批传教士来华，中国与西方开始了直接的交流。沟通中西的使命在意大利传教士利玛窦那里有了充分的体现。利玛窦于1582年来华，1610年病逝于北京，在华20余年。除了传教以外，做了两件具有历史象征意义的事，一是1594年前后在韶州用拉丁文翻译《四书》，并作了注释；二是与明代学者徐光启合作，用中文翻译了《几何原本》。

西方传教士对《四书》等中国经典的粗略翻译，以及杜赫德的《中华帝国志》等书对中国的介绍，在西方读者的眼前展现了一个异域文明，在当时及稍后一段时期引起了一场“中国热”，许多西方大思想家的眼光都曾注目中国文化。有的推崇中华文明，如莱布尼兹、伏尔泰、魁奈等，有的对中华文明持批评态度，如孟德斯鸠、黑格尔等。莱布尼兹认识到中国文化的某些思想与他的观念相近，如周易的卦象与他发明的二进制相契合，对中国文化给予了热情的礼赞；黑格尔则从他整个哲学体系的推演出发，认为中国没有真正意义上的哲学，还处在哲学史前的状态。但是，不论是推崇还

是批评，是吸纳还是排斥，中西文化的交流产生了巨大的影响。随着先进的中国科学技术的西传，特别是中国的造纸、火药、印刷术和指南针四大发明的问世，大大改变了世界的面貌。马克思说：“中国的火药把骑士阶层炸得粉碎，指南针打开了世界市场并建立了殖民地，而印刷术则变成了新教的工具，变成对精神发展创造必要前提的最强大的杠杆。”英国的哲学家培根说：中国的四大发明“改变了全世界的面貌和一切事物的状态”。

三

大千世界，潮起潮落。云散云聚，万象更新。中国古代产生了无数伟大科学家：祖冲之、李时珍、孙思邈、张衡、沈括、毕升……，产生了无数科技成果：《齐民要术》、《九章算术》、《伤寒杂病论》、《本草纲目》……，以及保存至今的世界奇迹：浑天仪、地动仪、都江堰、敦煌石窟、大运河、万里长城……。但从15世纪下半叶起，风水似乎从东方转到了西方，落后的欧洲只经过400年便成为世界瞩目的文明中心。英国的牛顿、波兰的哥白尼、德国的伦琴、法国的居里、德国的爱因斯坦、意大利的伽利略、俄国的门捷列夫、美国的费米和爱迪生……，光芒四射，令人敬仰。

中华民族开始思考了。潮起潮落究竟是什么原因？中国人发明的火药，传到欧洲，转眼之间反成为欧洲列强轰击中国大门的炮弹，又是因为什么？

鸦片战争终于催醒了中国人沉睡的迷梦，最先“睁眼看世界”的一代精英林则徐、魏源迈出了威武雄壮的一步。曾国藩、李鸿章搞起了洋务运动。中国的知识分子喊出“民主

与科学”的口号。中国是落后了，中国的志士仁人在苦苦探索。但落后中饱含着变革的动力，探索中孕育着崛起的希望。“向科学进军”，中华民族终于又迎来了科学的春天。

今天，世界毕竟来到了 21 世纪的门槛。分散隔绝的世界，逐渐变成联系为一体的世界。现在，全球一体化趋势日益明显，人类历史也就在愈来愈大的程度上成为全世界的历史。当今，任何一种文化的发展都离不开对其它优秀文化的汲取，都以其它优秀文化的发展为前提。在近现代，西方文化汲取中国文化，不仅是中国文化的传播，更是西方文化自身的创新和发展；正如中国文化对西方文化的汲取一样，既是西方文化在中国的传播，同时也是中国文化在近代的转型和发展。地球上所有的人类文化，都是我们共同的宝贵遗产。既然我们生活的各个大陆，在地球史上曾经是连成一气的“泛大陆”，或者说是一个完整的“地球村”，那么，我们同样可以在这个以知识和学习为特征的网络时代，走上相互学习、共同发展的大路，建设和开拓我们人类崭新的“地球村”。

西学仍在东渐，中学也将西传。各国人民的优秀文化正日益迅速地为中国文化所汲取，而无论西方和东方，也都需要从中国文化中汲取养分。正是基于这一认识，我们组织出版汉英对照版《大中华文库》，全面系统地翻译介绍中国传统文化典籍。我们试图通过《大中华文库》，向全世界展示，中华民族五千年的追求，五千年的梦想，正在新的历史时期重放光芒。中国人民就像火后的凤凰，万众一心，迎接新世纪文明的太阳。

PREFACE TO THE LIBRARY OF CHINESE CLASSICS

Yang Muzhi

The publication of the *Library of Chinese Classics* is a matter of great satisfaction to all of us who have been involved in the production of this monumental work. At the same time, we feel a weighty sense of responsibility, and take this opportunity to explain to our readers the motivation for undertaking this cross-century task.

I

The Chinese nation has a long history and a glorious culture, and it has been the aspiration of several generations of Chinese scholars to translate, edit and publish the whole corpus of the Chinese literary classics so that the nation's greatest cultural achievements can be introduced to people all over the world. There have been many translations of the Chinese classics done by foreign scholars. A few dozen years ago, a Western scholar translated the title of *A Dream of Red Mansions* into "A Dream of Red Chambers" and Lin Daiyu, the heroine in the novel, into "Black Jade." But while their endeavours have been laudable, the results of their labours have been less than satisfactory. Lack of knowledge of Chinese culture and an inadequate grasp of the Chinese written language have led the translators into many errors. As a consequence, not only are Chinese classical writings widely misunderstood in the rest of the world, in some cases their content has actually been distorted. At one time, there was a "*Jin Ping Mei* craze" among Western scholars, who thought that they had uncovered a miraculous phenomenon, and published theories claiming that China was the "fountainhead of eroticism," and that a Chinese "tradition of permissiveness" was about to be laid bare. This distorted view came about due to the translators of the *Jin Ping Mei* (*Plum in the Golden Vase*) putting one-sided stress on the

raw elements in that novel, to the neglect of its overall literary value. Meanwhile, there have been many distinguished and well-intentioned Sinologists who have attempted to make the culture of the Chinese nation more widely known by translating works of ancient Chinese philosophy. However, the quality of such work, in many cases, is unsatisfactory, often missing the point entirely. The great philosopher Hegel considered that ancient China had no philosophy in the real sense of the word, being stuck in philosophical "prehistory." For such an eminent authority to make such a colossal error of judgment is truly regrettable. But, of course, Hegel was just as subject to the constraints of time, space and other objective conditions as anyone else, and since he had to rely for his knowledge of Chinese philosophy on inadequate translations it is not difficult to imagine why he went so far off the mark.

China cannot be separated from the rest of the world; and the rest of the world cannot ignore China. Throughout its history, Chinese civilization has enriched itself by absorbing new elements from the outside world, and in turn has contributed to the progress of world civilization as a whole by transmitting to other peoples its own cultural achievements. From the 5th to the 15th centuries, China marched in the front ranks of world civilization. If mankind wishes to advance, how can it afford to ignore China? How can it afford not to make a thoroughgoing study of its history?

2

Despite the ups and downs in their fortunes, the Chinese people have always been idealistic, and have never ceased to forge ahead and learn from others, eager to strengthen ties of peace and friendship.

The great ancient Chinese philosopher Confucius once said, "Wherever three persons come together, one of them will surely be able to teach me something. I will pick out his good points and emulate them; his bad points I will reform." Confucius meant by this that we should always be ready to learn from others. This maxim encapsulates the principle the Chinese people have always followed in their dealings with other peoples, not only on an individual basis but also at the level of state-to-state relations.

After generations of internecine strife, China was unified by Emperor

Qin Shi Huang (the First Emperor of the Qin Dynasty) in 221 B.C. The Han Dynasty, which succeeded that of the short-lived Qin, waxed powerful, and for the first time brought China into contact with the outside world. In 138 B.C., Emperor Wu dispatched Zhang Qian to the western regions, i.e. Central Asia. Zhang, who traveled as far as what is now Iran, took with him as presents for the rulers he visited on the way 10,000 head of sheep and cattle, as well as gold and silks worth a fabulous amount. In 36 B.C., Ban Chao headed a 36-man legation to the western regions. These were missions of friendship to visit neighbours the Chinese people had never met before and to learn from them. Ban Chao sent Gan Ying to explore further toward the west. According to the "Western Regions Section" in the *Book of Later Han*, Gan Ying traveled across the territories of present-day Iraq and Syria, and reached the Mediterranean Sea, an expedition which brought him within the confines of the Roman Empire. Later, during the Tang Dynasty, the monk Xuan Zang made a journey fraught with danger to reach India and seek the knowledge of that land. Upon his return, he organized a team of scholars to translate the Buddhist scriptures, which he had brought back with him. As a result, many of these scriptural classics which were later lost in India have been preserved in China. In fact, it would have been difficult for the people of India to reconstruct their own ancient history if it had not been for Xuan Zang's *A Record of a Journey to the West in the Time of the Great Tang Dynasty*. In the Ming Dynasty, Zheng He transmitted Chinese culture to Southeast Asia during his seven voyages. Following the Opium Wars in the mid-19th century, progressive Chinese, generation after generation, went to study the advanced scientific thought and cultural achievements of the Western countries. Their aim was to revive the fortunes of their own country. Among them were people who were later to become leaders of China, including Zhu De, Zhou Enlai and Deng Xiaoping. In addition, there were people who were to become leading scientists, literary figures and artists, such as Guo Moruo, Li Siguang, Qian Xuesen, Xian Xinghai and Xu Beihong. Their spirit of ambition, their struggles and their breadth of vision were an inspiration not only to the Chinese people but to people all over the world.

Indeed, it is true that if the Chinese people had not learned many

things from the surrounding countries they would never have been able to produce the splendid achievements of former days. When we look back upon history, how can we not feel profoundly grateful for the legacies of the civilizations of ancient Egypt, Greece and India? How can we not feel fondness and respect for the cultures of Europe, Africa, America and Oceania?

The Chinese nation, in turn, has made unique contributions to the community of mankind. Prior to the 15th century, China led the world in science and technology. The British scientist Joseph Needham once said, "From the third century A.D. to the 13th century A.D. China was far ahead of the West in the level of its scientific knowledge." Paul Kennedy, of Yale University in the U.S., author of *The Rise and Fall of the Great Powers*, said, "Of all the civilizations of the pre-modern period, none was as well-developed or as progressive as that of China."

Foreigners who came to China were often astonished at what they saw and heard. The Greek geographer Pausanias in the second century A.D. gave the first account in the West of the technique of silk production in China: "The Chinese feed a spider-like insect with millet and reeds. After five years the insect's stomach splits open, and silk is extracted therefrom." From this extract, we can see that the Europeans at that time did not know the art of silk manufacture. In the middle of the 9th century A.D., an Arabian writer includes the following anecdote in his *Account of China and India*:

"One day, an Arabian merchant called upon the military governor of Guangzhou. Throughout the meeting, the visitor could not keep his eyes off the governor's chest. Noticing this, the latter asked the Arab merchant what he was staring at. The merchant replied, 'Through the silk robe you are wearing, I can faintly see a black mole on your chest. Your robe must be made out of very fine silk indeed!' The governor burst out laughing, and holding out his sleeve invited the merchant to count how many garments he was wearing. The merchant did so, and discovered that the governor was actually wearing five silk robes, one on top of the other, and they were made of such fine material that a tiny mole could be seen through them all! Moreover, the governor explained that the robes he was wearing were not made of the finest silk at all; silk of the highest

grade was reserved for the garments worn by the provincial governor."

The references to tea in this book (the author calls it "dried grass") reveal that the custom of drinking tea was unknown in the Arab countries at that time: "The king of China's revenue comes mainly from taxes on salt and the dry leaves of a kind of grass which is drunk after boiled water is poured on it. This dried grass is sold at a high price in every city in the country. The Chinese call it 'cha.' The bush is like alfalfa, except that it bears more leaves, which are also more fragrant than alfalfa. It has a slightly bitter taste, and when it is infused in boiling water it is said to have medicinal properties."

Foreign visitors showed especial admiration for Chinese medicine. One wrote, "China has very good medical conditions. Poor people are given money to buy medicines by the government."

In this period, when Chinese culture was in full bloom, scholars flocked from all over the world to China for sightseeing and for study. Chang'an, the capital of the Tang Dynasty was host to visitors from as far away as the Byzantine Empire, not to mention the neighboring countries of Asia. Chang'an, at that time the world's greatest metropolis, was packed with thousands of foreign dignitaries, students, diplomats, merchants, artisans and entertainers. Japan especially sent contingent after contingent of envoys to the Tang court. Worthy of note are the accounts of life in Chang'an written by Abeno Nakamaro, a Japanese scholar who studied in China and had close friendships with ministers of the Tang court and many Chinese scholars in a period of over 50 years. The description throws light on the exchanges between Chinese and foreigners in this period. When Abeno was supposedly lost at sea on his way back home, the leading poet of the time, Li Bai, wrote a eulogy for him.

The following centuries saw a steady increase in the accounts of China written by Western visitors. The Italian Marco Polo described conditions in China during the Yuan Dynasty in his *Travels*. However, until advances in the science of navigation led to the opening of east-west shipping routes at the beginning of the 16th century Sino-Western cultural exchanges were coloured by fantasy and conjecture. Concrete progress was made when a contingent of religious missionaries, men well versed in Western science and technology, made their way to China, ushering in an era of

direct contacts between China and the West. The experience of this era was embodied in the career of the Italian Jesuit Matteo Ricci. Arriving in China in 1582, Ricci died in Beijing in 1610. Apart from his missionary work, Ricci accomplished two historically symbolic tasks — one was the translation into Latin of the “Four Books,” together with annotations, in 1594; the other was the translation into Chinese of Euclid’s *Elements*.

The rough translations of the “Four Books” and other Chinese classical works by Western missionaries, and the publication of Père du Halde’s *Description Geographique, Historique, Chronologique, Politique, et Physique de l’Empire de la Chine* revealed an exotic culture to Western readers, and sparked a “China fever,” during which the eyes of many Western intellectuals were fixed on China. Some of these intellectuals, including Leibniz, held China in high esteem; others, such as Hegel, nursed a critical attitude toward Chinese culture. Leibniz considered that some aspects of Chinese thought were close to his own views, such as the philosophy of the *Book of Changes* and his own binary system. Hegel, on the other hand, as mentioned above, considered that China had developed no proper philosophy of its own. Nevertheless, no matter whether the reaction was one of admiration, criticism, acceptance or rejection, Sino-Western exchanges were of great significance. The transmission of advanced Chinese science and technology to the West, especially the Chinese inventions of paper-making, gunpowder, printing and the compass, greatly changed the face of the whole world. Karl Marx said, “Chinese gunpowder blew the feudal class of knights to smithereens; the compass opened up world markets and built colonies; and printing became an implement of Protestantism and the most powerful lever and necessary precondition for intellectual development and creation.” The English philosopher Roger Bacon said that China’s four great inventions had “changed the face of the whole world and the state of affairs of everything.”

3

Ancient China gave birth to a large number of eminent scientists, such as Zu Chongzhi, Li Shizhen, Sun Simiao, Zhang Heng, Shen Kuo and Bi

Sheng. They produced numerous treatises on scientific subjects, including *The Manual of Important Arts for the People's Welfare*, *Nine Chapters on the Mathematical Art*, *A Treatise on Febrile Diseases* and *Compendium of Materia Medica*. Their accomplishments included ones whose influence has been felt right down to modern times, such as the armillary sphere, seismograph, Dujiangyan water conservancy project, Dunhuang Grottoes, Grand Canal and Great Wall. But from the latter part of the 15th century, and for the next 400 years, Europe gradually became the cultural centre upon which the world's eyes were fixed. The world's most outstanding scientists then were England's Isaac Newton, Poland's Copernicus, France's Marie Curie, Germany's Rontgen and Einstein, Italy's Galileo, Russia's Mendeleev and America's Edison.

The Chinese people then began to think: What is the cause of the rise and fall of nations? Moreover, how did it happen that gunpowder, invented in China and transmitted to the West, in no time at all made Europe powerful enough to batter down the gates of China herself?

It took the Opium War to wake China from its reverie. The first generation to make the bold step of "turning our eyes once again to the rest of the world" was represented by Lin Zexu and Wei Yuan. Zeng Guofan and Li Hongzhang started the Westernization Movement, and later intellectuals raised the slogan of "Democracy and Science." Noble-minded patriots, realizing that China had fallen behind in the race for modernization, set out on a painful quest. But in backwardness lay the motivation for change, and the quest produced the embryo of a towering hope, and the Chinese people finally gathered under a banner proclaiming a "March Toward Science."

On the threshold of the 21st century, the world is moving in the direction of becoming an integrated entity. This trend is becoming clearer by the day. In fact, the history of the various peoples of the world is also becoming the history of mankind as a whole. Today, it is impossible for any nation's culture to develop without absorbing the excellent aspects of the cultures of other peoples. When Western culture absorbs aspects of Chinese culture, this is not just because it has come into contact with Chinese culture, but also because of the active creativity and development of Western culture itself; and vice versa. The various cultures of

the world's peoples are a precious heritage which we all share. Mankind no longer lives on different continents, but on one big continent, or in a "global village." And so, in this era characterized by an all-encompassing network of knowledge and information we should learn from each other and march in step along the highway of development to construct a brand-new "global village."

Western learning is still being transmitted to the East, and vice versa. China is accelerating its pace of absorption of the best parts of the cultures of other countries, and there is no doubt that both the West and the East need the nourishment of Chinese culture. Based on this recognition, we have edited and published the *Library of Chinese Classics* in a Chinese-English format as an introduction to the corpus of traditional Chinese culture in a comprehensive and systematic translation. Through this collection, our aim is to reveal to the world the aspirations and dreams of the Chinese people over the past 5,000 years and the splendour of the new historical era in China. Like a phoenix rising from the ashes, the Chinese people in unison are welcoming the cultural sunrise of the new century.

前言

《吕氏春秋》是秦始皇八年左右秦国丞相吕不韦召集门客撰写、自己主持编纂的一部著作。

就本书的编纂意图而言,《序意》篇中写道:“爰有大圜在上,大矩在下,汝能法之,为民父母。盖闻古之清世,是法天地。凡‘十二纪’者,所以纪治乱存亡也,所以知寿夭吉凶也。上揆之天,下验之地,中审之人,若此则是非可不可无所遁矣。”由此可见,吕不韦试图“究天人之变”,为即将出现的大一统局势提供方法论上的借鉴。

基于这一意图,《吕氏春秋》主要的着眼点就是如何摆正君主与臣民的关系。本书认为,治理天下的根本在于治身,也就是指君主自身的修养。《先己》篇中说:“欲取天下,天下不可取。可取,身将先取。凡事之本,必先治身。”又,“昔者先圣王,成其身而天下成,治其身而天下治。故善响者不于响于声,善影者不于影于形,为天下者不于天下于身。”书中许多篇章都阐述了同样的观点。例如《执一》篇中有:“为国之本在于为身,身为而家为,家为而国为,国为而天下为。”所以说,君主要治理好天下,首先要求诸自身,其次求诸他人。正如《论人》篇中所说:“主道约,君守近。太上反诸己,其次求诸人。”自身治理好了,天下也就治理好了。《执一》篇中说:“故圣人之事,广之则极宇宙、穷日月,约之则无出乎身者也。”

作为君主,应该如何治身?答案是要遵循“主道”,运用“道”来修身。也就是说,要取法天地之道,顺应天意与生命的本性行事,这样就能预见事态的发展,因势利导、把握时机、顺

承天意采取行动。要重视生命,因为生命是天地间最为重要的东西。生命不存在了,所有的权势、尊严、富贵就都不存在了。所以要节制嗜欲,颐养心性。要加强自身的道德修养。圣王的德行要如同天地一般无私、公正、烛照四极。自己的德行修养好了,人民就能从善如流,如《精通》篇中说:“圣人行德乎己,而四荒咸飭乎仁。”要行义。《上德》篇中说:“为天下及国,莫如以德,莫如行义。”《用民》篇中说:“凡用民,太上以义,其次以赏罚。”因为“义”,“小为之则小有福,大为之则大有福。”要根据时势制定合理的法度,并加强法制。要任用贤人,明确官吏各自的职守。《期贤》篇中说:“凡国不徒安,名不徒显,必得贤士。”圣明的君主要竭尽全力寻找贤人,并授予他们适合的职位,这样一来,君主就无需事必躬亲,自身就能安逸,国家就能得到妥善的治理。所以《士节》篇中说:“贤主劳于求人,而佚于治事。”要善于使用不属于自己所有的东西。《分职》篇中说:“先王用非其有,如己有之,通乎君道者也。”此外,君主还要树立远大的目标,作长远的打算,不放弃人为的努力,采取合适的策略,甚至在必要的时候运用诈术;还要赏罚分明,察纳雅言,摆脱偏见,为人民兴利除害。这样,“乐备君道,而百官已治矣,万民已利矣”(见《先己》)。

对于士大夫阶层,《吕氏春秋》为他们规定了一系列的行为规范。他们要恪守本分,忠于职守,奉行忠孝,为官廉洁,处事诚信,敢于直谏,坚持学习,谨言慎行,知恩图报。对于这一阶层来说,最重要的是以身行义。这表现在临难不苟免,临利不苟取。在关键时刻,要舍生取义——为国家、君主的利益或者知己者献出生命。《至忠》篇中所举的申公子培为救君主性命牺牲自己以及文挚为成全太子的孝心冒生命危险为齐王治病的事例都强力标举这一点。《吕氏春秋》一书中所提倡的就

是一种无私奉献的精神。

而对于普通百姓,要用“义”来训导他们,用利害驱使他们,通过赏罚达到让他们执行命令、为国家效力、服从君主驱遣的目的。虽然《吕氏春秋》的作者已经意识到赢得民心、顺应民意的重要,比如《顺民》篇中说:“先王先顺民心,故功名成”,但是在他们眼里,人民还是见识短浅、不足以图谋大事的群体。《乐成》篇中说:“禹之决江水也,民聚瓦砾。事已成,功已立,为万世利。禹之所见者远矣,而民莫之知,故民不可与虑化举始,而可以乐成功。”

总之,无论士大夫还是普通百姓,都要竭尽全力为国家效劳。君主对他们的奖赏和惩罚都是实现这一目的的手段。《吕氏春秋》的编纂旨意是非常明显的。

《吕氏春秋》的内容丰富、思想驳杂,涉及天文、地理、阴阳、五行、气候、音乐、教育、军事、养生、土壤学以及农业生产知识,并且记录了大量的历史资料。在每一“纪”的第一篇开头都讲太阳在各个月份运行到的位置以及清晨和黄昏时分天空正中出现的不同的星宿;接着讲每个月份对应的五行,主宰的天帝,天帝的辅佐之神,应时的动物,相应的音律、数字、滋味、气味,祭祀的种类、祭品,各时节动物的反应,天子居住的房间的位置,天子所乘坐的车、驾车的马、车上插的旗帜,天子的衣服及玉的颜色,天子所吃的食物以及祭祀的器皿的特征。而所有这些都是与阴阳五行的思想相配的。然后是讲每个月份采取的具体措施和颁布的不同政令。最后是讲如果采取不合时宜的政令将会带来的恶劣气候甚至自然灾害。这些篇章的结构严谨而且较为统一。《有始览》第一篇《有始》主要是讲述天文、地理知识。《吕氏春秋》中的《大乐》、《侈乐》、《适音》、《古乐》、《音律》、《音初》、《制乐》、《明理》等篇章都涉及音乐,

论及音乐的形成以及社会功用。《当染》、《劝学》、《尊师》、《诬徒》、《用众》等篇表明了学习的意义以及正确的教育方式和态度。《荡兵》、《振乱》、《论威》、《简选》、《决胜》、《召类》、《应同》等篇论述军事策略以及义兵的重要作用与意义。《本生》、《重己》、《贵生》、《情欲》等篇章讲述养生的重要。《上农》、《任地》、《辩土》、《审时》等篇章讲述了关于土地和农业生产方面的知识。

《吕氏春秋》一书由吕不韦的门客撰写。据说吕不韦曾经广泛结交士人并且给予他们相当优厚的待遇,以致他门下的食客多达三千人。这么多人共同执笔编纂,可以想见该书思想的驳杂。如上所述,《吕氏春秋》旨在为即将统一的封建王朝提供方法论上的借鉴,该书不可避免地带有鲜明的儒家思想的烙印。高诱序中写:“不韦乃集儒书,使著其所闻,为‘十二纪’、‘八览’、‘六论’、‘训解’各十余万言。”后来的学者多认为“儒书”是“儒士”之误。无论“儒书”还是“儒士”,都离不开儒家思想。书中举贤任能、建功立业、治国平天下的思想都充分体现了这一点。《吕氏春秋》又受到道家思想的深刻影响。有关养生的篇章受道家思想的影响自不待言,《下贤》、《君守》、《审分》、《有度》等篇直接论及“道”。《荡兵》、《振乱》、《论威》、《简选》、《决胜》、《召类》、《应同》篇均不同程度地体现了兵家思想。此外,墨、法、农、名、阴阳等家的思想在该书中均有体现。所以,《吕氏春秋》的思想并不是整齐划一的。因此,包括《汉书·艺文志》、《隋书·经籍志》、《旧唐书·经籍志》、《新唐书·艺文志》在内的许多目录都把它划归为“杂家”。

关于《吕氏春秋》的成书年代,向来有不同的说法。《序意》中记载秦始皇即位第八年的秋天,有人问吕不韦“十二纪”的情况。由此可以断定,“十二纪”应该在该年秋天前后就基

本完成了。尽管司马迁在《太史公自序》中说“不韦迁蜀，世传《吕览》”，而根据《史记·吕不韦传》的记载，“秦王十年十月，免相国吕不韦。……而出文信侯就国河南。”吕不韦就国河南是在秦始皇即位第十一年，随后又被迁往蜀地。从吕不韦被罢免相位，到秦王十二年死去，仅仅两年时间。事实上，吕不韦在秦王十年被罢免以后，或者在此之前，就应该意识到了事态的发展将会不妙。在这样的情况下，他应该是宏图大志丧尽，更加无意于著书立说了。《史记·吕不韦传》和高诱序中都提到《吕氏春秋》编纂完成之后，吕不韦曾经悬书咸阳城门，有能修改一字者赏千金。假如“八览”、“六论”是在迁蜀以后写成，吕不韦哪里还有机会、有心情将书悬挂咸阳城门之上呢？由此可见，不应该根据太史公的一句话就断定“八览”、“六论”成书于迁蜀之后。司马迁只是提到该书的流传情况，并没有明确指出这就是成书的时间。所以笔者认为“八览”与“六论”的完成时间也应当在秦王十年吕不韦被罢免之前。至于该书编纂完毕经过了一段时间，于吕不韦迁蜀以后在社会上广为流传开来，那完全是有可能的。

《吕氏春秋》成书后在流传的过程中可能部分篇章有所散佚，有些篇章的结构可能出现错乱，而且后人还对它进行过删减修改。首先，许多古籍中记载的《吕氏春秋》的片段不见于今天所流传的版本中，可以证明散佚的事实。其次，书中有些篇章的结构以及上下文之间的关系松散、甚至前后矛盾。例如，《应同》篇的主旨是阐述“类同相召，气同则合，声比则应”，讲同类的事物互相应和，而最后一段却讲“用兵”，显然与前文不符。又如，《召类》篇中主要也是讲“类固相召，气同相合，声比则应”，而最后一段也同样讲“用兵”，与前文主旨矛盾。再如，《谕大》和《务大》篇中的内容基本重复。还有，《制乐》篇中

所讲述的内容根本与音乐无关。类似的情况,书中还有不少。所以,《吕氏春秋》成书后,无疑经过了后人的篡改。在这方面,我们可以找到历史的证据。司马迁在《吕不韦传》中写道:“吕不韦乃使其客人人著所闻,集论以为‘八览’、‘六论’、‘十二纪’,二十余万言。”而到了东汉,高诱在序中写道:“诱正《孟子章句》,作《淮南》、《孝经》解毕迄。家有此书,寻绎案省,大出诸子之右。既有脱误,小儒又以私意改定,犹虑传义失其本真。少能详之,故复依先师旧训,辍乃为之解焉,以述古儒之旨,凡十七万三千五十四言。”高诱的话证实了删减篡改之事确凿。而且,司马迁当时见到的《吕氏春秋》长达二十多万字,而高诱看到的却只有十七万三千字了。可见,《吕氏春秋》在汉代散佚的文字就有三万之多。

《吕氏春秋》在海外有一定的影响,20世纪20年代曾经被德国汉学家 Richard Wilhelm 翻译成德文,近年来有美国加州大学伯克利分校的学者 Jeffrey Riegel 和汉学家 John Knoblock 共同完成的英语译本。

本书的翻译主要参考了世界书局《诸子集成》的高诱注、毕沅校本,许维遹的《吕氏春秋集释》以及陈奇猷先生的《吕氏春秋校释》等版本。本书中文部分由社科院毛双民先生审读,英文部分由外文专家梁良兴先生、S. J. Main 先生和 Adrian Parsons 先生审读。以上专家学者均提出宝贵意见,在此深表谢忱。由于时间仓促,水平有限,错漏之处在所难免,敬请专家和读者不吝赐教。

INTRODUCTION

The Spring and Autumn of Lü Buwei is a collection of writings written by the guests of Lü Buwei, the prime minister of the state of Qin, and edited by Lü Buwei himself around the eighth year after Qin Shi Huang was enthroned.

As to Lü Buwei's original intention to edit this collection, it is said in "The Postscript of the Twelve Records", "Heaven is above and Earth is below. If you know how to follow their principles, you can become parent of the people. I have heard that sovereigns of all the millennia of ancient times had followed the principles of both Heaven and Earth. These twelve records are aimed at recording the significant events in history, such as order, disorder, survival or perdition of the states, and explaining the reason for occurrences in human life, such as longevity, mortality, fortunes or mishaps. We are doing that by observing the will of Heaven above, examining occurrences on Earth and inspecting human affairs in between, so all mistakes in judging, true or false, right or wrong, will be avoided this way." From this point of view, Lü Buwei was trying to research into the changes of both Heaven and mundane affairs to provide some references on the methodology of governing the people for the feudal regime that was going to unify China.

Owing to this purpose, this collection is focused on how to correct the relationship between the sovereign and the subjects. According to this collection, for a sovereign, the

most important thing in governing the world is to cultivate his own mind. It is said in "On Cultivating One's Own Mind First", "The world cannot be put in order even though you are committed to that goal. And if you really want to put the world in order, the thing you should start with is to cultivate your mind." And this article also says, "Sage sovereigns of ancient times were all committed to cultivating their minds. They were able to govern the world since they were able to cultivate their own minds, and when their minds were well cultivated, the world could be put in order as well. Therefore, whoever is good at making sounds will concentrate on improving the sound source instead of improving the resonance; whoever is good at making images will concentrate on designing the substantial figures instead of paying too much attention to the shadows; whoever is good at governing the world will concentrate on cultivating his mind instead of paying too much attention to the world." Many articles in this collection hold the same argument. For another example, it is said in "On Sticking to the Principle of First Importance", "The crucial factor in governing a state lay in cultivating the mind of the sovereign. If your mind is well cultivated, you can put the whole family in order; if the family is well organized, you can put the whole state in order; if the state is well organized, you can put the whole world in order." Accordingly, if a sovereign wants to put the world in order, he should resort to himself first instead of resorting to others. For instance, it is said in "The Right Way of Judging Others", "The way for a sovereign to govern his state is very simple and the integrity of a sovereign is very close. It is

always of prime importance for him to resort to himself and then he can resort to others." If he can cultivate his own mind well, he will be able to put the world in order. So, it is said in "On Sticking to the Principle of First Importance", "Hence, in a broad sense, the activities of the sages can affect everywhere in the world, including all the places illuminated by the sun and the moon; in a narrow sense, all their achievements come down to cultivating their own minds."

How should a sovereign cultivate his mind? The answer is that he should comply with the principles of a sovereign to cultivate his mind all according to Tao. That means that he should follow the Tao of Heaven and Earth and act in accordance with the will of Heaven and the inborn nature of life. Thus he can foresee the development of a situation, make good use of the circumstances and grasp the opportunities to take action according to the will of Heaven. He should pay attention to his life because life is the most important thing in the world. If one loses his own life, he will lose everything, including his power, prestige and wealth. So, the sovereign should restrain his lusts and wishes and remain even-tempered. He should improve his virtues. The virtues of a sage sovereign should be as disinterested as Heaven and Earth and able to illuminate everywhere including the Four Poles. If the virtues of the sovereign are well cultivated, the common people will follow him and become virtuous. For instance, it is said in "On Communicating with Inspirations", "Sages are committed to enhance their virtues. As a result, people all over the world will mimic them and

behave benevolently." He should practise the principle of righteousness. It is said in "On Upholding Virtue", "Regarding governing the world or one state, nothing could be better than following benevolent policies and practising the principle of righteousness." For another example, it is said in "On Manipulating the People", "The best way to manipulate the people is to resort to the principle of righteousness. The second best is to resort to awards and punishments." The principle of righteousness is such a thing as if it is observed to a small extent, it will lead to small good fortunes, and if it is observed to a large extent, it will lead to great good fortunes. The sovereign should make suitable regulations according to the situation and resort to the law to govern his state. He should use sensible people and clarify the duties of court officials respectively. It is said in "On Longing for Sensible People", "The safety of a state cannot be secured for no good reason, and the high reputation of a sovereign cannot be obtained for no good reason either. It depends on whether or not he can win over the sensible intellectuals." A sage sovereign should do anything to look for sensible people and appoint them to suitable positions. Thus he will no longer need to handle all government affairs in person, so he can enjoy his time leisurely, and the state can be put in good order. So, it is said in "On Intellectuals' Moral Integrity", "Sage sovereigns will spend time and energy looking for sensible people, so that they can lead leisurely and comfortable lives." He should be clever at using things not belonging to him. It is said in "On Clarifying Duties", "Sovereigns of ancient times could use things not belonging to

themselves as if they were using their own possessions, because they knew the right way to maintain the throne." Moreover, a sovereign should set up great goals, make long-term designs, never stop exerting himself, take right tactics and even use tricks if necessary. In addition, he should also reward and punish his subjects reasonably, get rid of bias, provide benefits for his people and remove the disadvantages threatening them in the meantime. Therefore, if he sticks to principles advocated in Tao, all court officials will be administered perfectly and tens of thousands of people will be benefited from it. (see "On Cultivating One's Own Mind First")

As for court officials and intellectuals, *The Spring and Autumn of Lü Buwei* prescribes various criteria for them to guide their behaviors. They should stick to their duties, adhere to their responsibilities, practise the principles of loyalty and filial piety earnestly, remain uncorrupted, behave honestly, not hesitate to expostulate with the sovereign directly, keep on studying hard, be cautious with their words and deeds and be ready to pay the debts of gratitude. For these people, the most important thing is to practise the principle of righteousness. Practising the principle of righteousness means not bypassing the difficulties when one encounters troubles or not taking advantages indecorously when one encounters some material benefits. And it also means to devote one's own life for the sake of the state, the sovereign or those who have known and treated him well when he was in need. The stories of Shen Zipei devoting his life to rescuing his sovereign and Wen Zhi taking the risk of

losing his life to help the crown prince of the state of Qi in practising filial piety to cure the king of Qi as quoted in "On Perfect Loyalty" both advocate this argument. Self-sacrifice is admired and advocated by this collection.

As for the common people, they should be edified with the principle of righteousness and manipulated with advantages and disadvantages. They should be made to carry out orders, serve the state wholeheartedly and obey the sovereign by dispensing awards and punishments. Even though the writers of this collection might have realized the importance of winning over the common people and conforming to their will as stated, for instance, in "On Conforming to the Will of the People" that "when sovereigns of ancient times were in power, they always conformed to the will of their people, so they accomplished great achievements and gained high reputation"; nonetheless, from their point of view, the common people are near-sighted and cannot make great designs. It is said in "On Enjoying Success", "When Yu was dredging the Yangtze River to prevent flooding, the common people were attempting to pile up rubbles to block the water. After Yu had finished his task and accomplished great achievement, his offspring all benefited from it. Yu was very provident. However, the common people did not realize that. Hence, you cannot share the planning and design of great actions with the common people, but can share the happiness with them after great achievement is accomplished."

In a word, everyone—high-ranking court official, intellectual or the common people—should serve the state

wholeheartedly. And both the awards and punishments dispensed by the sovereign should all be aimed at realizing this goal. This purpose of compilation of *The Spring and Autumn of Lü Buwei* is very apparent.

The contents of *The Spring and Autumn of Lü Buwei* are very complicated and contain various thoughts. This collection covers the fields of astronomy, geography, the thought of Yin-Yang, the principles of the Five Main Elements, climate, music, education, military affairs, regimen, agrology and agriculture, and it also keeps a huge amount of historical materials. The first articles of "the Twelve Records" all explain the position of the sun and various stars appearing right in the middle of the sky both at dawn and at twilight during each month. And then it comes to the corresponding element, the deity in charge, the assistant of the deity, the representative animals, the relevant note, pitch, number, savor, smell, sacrifice and offering, the reaction of the animals, the room where the Son of Heaven stays, the colors of the cart taken by him and of the horses used to pull the cart, the banner set up on the cart and the robe and the jade he wore, the food he ate and the specialities of the utensils used for the rituals of each month. All these features must match the principles of the Five Main Elements. Then it comes to the suitable measures taken and the different edicts issued during each month. Finally, the disadvantageous weather, even the disasters brought by the unsuitable edicts, are pointed out at the end of these articles. These articles are all well-knit and have similar structure. "The Beginning of the World", the first article of the "Views

on the Beginning of the World", mainly contains the knowledge on astronomy and geography. The central topic of "The Magnificent Music", "The Decadent Tunes", "The Moderate Tunes", "On Notes and Pitches", "The Origin of Music", "On Composing Music" and "On Knowing the Right Reason" is music. These articles discuss the origin of music and its social function. "On Being Influenced by Others", "An Exhortation on Learning", "On Respecting Teachers", "On Misleading Pupils" and "On Making Good Use of the Masses" show the importance of learning and the right ways of teaching and studying. "The Nature of Life", "The Value of Life", "On Attaching Importance to Life" and "On Lusts" all focus on the importance of maintaining good health. "On Paying Attention to Farming", "On Making Good Use of Lands", "On Examining the Quality of Soil" and "On Taking Action at the Right Time" all explain the knowledge on soil and agriculture.

The Spring and Autumn of Lü Buwei were written by Lü Buwei's guests. It is said that Lü Buwei consorted a lot of intellectuals and treated them extremely generously, so there were about three thousand guests gathering around him. The articles being written by so many people cooperatively, it is not difficult to imagine the complexity of the thoughts of this collection. As I have mentioned, the compilation of this collection is to provide some references on the methodology of governing the people for the feudal regime that was going to unify China, so it is inevitable that the influence of Confucianism has played an important role in this book. Gao You wrote in his prelude, "Buwei then collected the books on

Confucianism and let the guests write down what they have heard. Thus 'the Twelve Records', 'the Eight Views' and 'the Six Discussions' came into being. Altogether, there are more than one hundred thousand words in this book." Most of the scholars of later ages consider "books on Confucianism" to be clerically wrong for "the Confucians". No matter what Gao You meant, it must have been relevant to Confucianism. The arguments about using sensible and capable people, accomplishing great achievements, putting the state in order and pacifying the world held by this collection all reflect that. This book is also deeply influenced by Taoism. Needless to say, the articles on regimen all show the influence of Taoism. Moreover, articles such as "On Treating Sensible People with Respect", "On Clarifying Duties and Responsibilities", "The Principles of a Sovereign" and "On Sticking to Fixed Rules" all discuss Tao directly. "On the Origin of Military Force", "On Putting Chaotic Situation in Order", "On the Power of Military Forces", "On Selecting the Best Soldiers and Weapons", "On Determining the Victory", "On Responding to Congeners" and "Things of One Kind Come Together" all reflect the thoughts of the thinkers of ancient China specializing in the art of war to various extents respectively. In addition, the thoughts of Mohists, Legalists, Agronomists, Logicians and Yin-Yang Naturalists are reflected in this collection as well. Hence, the thoughts of this collection are complicated. As a result, many old documents on bibliography, including "Records on Art and Articles of *Hanshu* (History of the Han Dynasty)", "Records on Confucian Classics and Old Documents of *Suishu*

(*History of the Sui Dynasty*)” and “Records on Art and Articles of *Xin Tangshu* (*New History of the Tang Dynasty*)”, put it under the Eclectics.

As for the time of completion of the collection, there have been diverse views. “The Postscript of the Twelve Records” mentions that someone asked Lü Buwei for some information on “the Twelve Records” during the autumn of the eighth year after Qin Shi Huang’s enthronement. Judging from that, we can say that “the Twelve Records” must have been finished during that autumn. Although Sima Qian wrote in “The Prelude Written by the Historian Himself” as follows: “The views of Lü Buwei became popular among people all over the world after Buwei had moved to Shu”, according to the records kept in “The Biography of Lü Buwei” in *Shiji*, Lü Buwei was dismissed from the post of prime minister during the tenth month of the tenth year after Qin Shi Huang’s enthronement, and then Marquis Wenxin (the title conferred on Lü Buwei) went to live in his fief in Henan. Lü Buwei went to Henan during the eleventh year after Qin Shi Huang’s enthronement and then he was forced to move to Shu in the following year. From the time he was dismissed from office till his death, it had taken only two years. As a matter of fact, after he was dismissed, even before this, he should have realized the misfortune in store for him. Under such circumstances, he must have lost all his ambitions, let alone to compile a collection to set forth his ideas. Both the biography of Lü Buwei and the prelude of Gao You mentioned that after the collection was finished, Lü Buwei put it above

the gate of the capital, Xianyang, and offered to reward one thousand *jin* of gold to people who could manage to amend even one word of it. Suppose that both “the Eight Views” and “the Six Discussions” were finished after he moved to Shu, how could he have the chance or be in the mood to put it above the gate of Xianyang? So, from this point of view, we should not simply draw such a conclusion that “the Eight Views” and “the Six Discussions” were finished after Lü Buwei moved to Shu only because of this statement of Sima Qian. Moreover, instead of pointing out the time of completion of the compilation, Sima Qian only referred to the propagation of this collection. I personally hold the viewpoint that both “the Eight Views” and “the Six Discussions” were finished before he was dismissed during the tenth year after Qin Shi Huang’s enthronement. It is possible and reasonable that the collection became popular several years after it was finished.

After the collection was finished, some parts of it might have been lost during the process of spread, some articles might have been disarranged, and some of them might have been reduced and tampered. Firstly, some lost records of this collection kept by other old documents can be found in the book. It proves that some parts must have become scattered and disappeared. Secondly, the sequence of the context of some articles is irrational. For instance, the main purpose of “On Responding to Congeners” is to illustrate congener things assembling together, congener smells mixing together, and congener sounds responding to each other. Nonetheless,

the last paragraph discusses military tactics. Obviously, that is not in accordance with the above paragraphs. For another example, "Things of One Kind Come Together" also focuses on the topic that things of one kind can attract each other, odors of one kind can converge with each other, and sounds of one kind can respond to each other. However, the last paragraph of it discusses military tactics too, and that is also contradictory to the topic of the above paragraphs. Most of the contents of "On Pursuing Great Goals" and "On Focusing on Great Goals" are repetitious. In addition, the contents of "On Composing Music" almost have nothing to do with music. Such cases are not rare in this collection. So, we can draw the conclusion that the collection was tampered after it had been finished. That can also be proved with some historical materials. For instance, Sima Qian wrote in "The Biography of Lü Buwei", "Lü Buwei asked all of his guests to write down what they had heard and compiled it into 'the Eight Views', 'the Six Discussions' and 'the Twelve Records'. Altogether, the book has more than two hundred thousand words." And when it came to the Eastern Han Dynasty, Gao You wrote in the prelude, "After I had finished 'The Comments on *Mengzi*', 'The Comments on *Huainanzi*' and 'The Comments on *Xiaojing*', I found that we had this collection at home and I thought it was much better than the works of other scholars. Some parts of it have been scattered. Moreover, some narrow-minded Confucians have tampered with it. So, I am afraid that it might have lost

its real features. I have been familiar with it since I was a child, and in order to illustrate the meaning of ancient Confucians, I am commenting on it according to the teachings of my former mentors. Altogether this book has one hundred and seventy-three thousand and fifty-four words." This record of Gao You proves that the collection had really been reduced and tampered. Moreover, the edition Sima Qian read had more than two hundred thousand words, and at Gao You's time, it had only about one hundred and seventy-three thousand words. Judging from that, the collection had lost almost thirty thousand words during the periods of the Qin and the West Han Dynasties.

The Spring and Autumn of Lü Buwei has some influence overseas. It has been translated into German by German sinologist Richard Wilhelm during 1920s. In recent years, it has been cooperatively translated into English by scholar Jeffrey Riegel and sinologist John Knoblock of University of Colifornia, Berkeley.

While doing this translation, I have consulted *The Corpus of Ancient Scholars* commented by Gao You, emended by Bi Yuan and printed by the World Publishing House, *The Grand Compendium of Comments on the Spring and Autumn of Lü Buwei* of Xu Weiyu, *The Collation and Annotation on the Spring and Autumn of Lü Buwei* of Chen Qiyu, etc. Mr Mao Shuangmin—a scholar of the Chinese Academy of Social Science—has read the Chinese translation. English experts, Mr Liang Liangxing, Mr S. J. Main and Mr

Adrian Parsons, have read the English translation. They have all given me very useful suggestions, and I wish to express my sincere thanks to them all. Since both my time and my level of reading are limited, mistakes in the translation might be inevitable. I sincerely wish that experts in this field and my readers would not hesitate to point them out for me.

孟春正月，太阳位于营室宿。初昏时分，参宿出现在正南方；拂晓时刻，尾宿出现在正南方。孟春在天干中属甲乙木，这一时节的主宰之帝是太皞，帝的辅佐之神是句芒，应时的动物是龙鱼之类的鳞族，代表声音是角，相应的音律是太簇。这个月的数字是八，本月的味道为酸，气味是膾，要举行户祭，代表性的祭品是脾脏。春风吹拂，冰雪消融，蛰伏的动物开始苏醒并且活动起来。鱼儿从深水向上游到冰层下，水獭开始捕鱼，大雁北飞。天子居住在东向明堂的左边北首的房间，乘坐用

Records on the First Month of the Spring Season

1. The First Month of the Spring Season

During the first month of the spring season, the sun is moving to the same place as Ying Shi (a group of two stars— α and β of Pegasus). At twilight Shen (a group of seven stars belonging to Orion) is in the south of the sky and at dawn Wei (a group of nine stars belonging to Scorpion) is also in the south. The Heavenly Branches of this time are Jia and Yi (it refers to the thought on the Five Main Elements in ancient China. Jia and Yi represent the Element of Wood). The god in charge of this period is Tai Hao, and the assistant of Tai Hao is Gou Mang. The representative creatures of this time are animals with scales. The note is Jue (Jue is “3” in numbered musical notation). The corresponding pitch is Tai Cu ($\sharp D$). The number is eight. The corresponding flavour of this time is acerbity, and the smell of it is somewhat like the odour of sheep. At this time, sacrifice is held at the door, and the main offering should be animal spleen. The spring wind thaws the frozen surface of the earth. All dormant animals and insects begin to come to life again. Fishes start to come to the surface of the icy water. Otters start to catch fish. Migrant wild geese fly north. The Son of Heaven stays in a room located at the northeastern end of the east-facing hall (it refers to the orientation of the Element of Wood) named “Qing Yang”. He takes a green carriage decorated

这个月立春。在立春前三天，太史向天子禀报说：“某日立春，大德在木。”天子于是斋戒。立春那天，天子亲自率领三公、九卿、诸侯、大夫到东郊去迎接春的降临。回朝以后，就对公、卿、诸侯、大夫进行赏赐，并命令宰相广施德教，宣读禁令，举行庆祝，布施恩惠，一直贯彻到百姓当中。庆祝、赏赐之事要施行且不要有不当之处。于是命令太史遵照典籍、常规来观测日月星辰的运行；太阳与月亮的运行的位置，以及日月星辰运行的度数和轨迹，都要计算得没有任何差错，制定历法仍然以冬至时分牵牛星所在的起点为常。

这个月，天子选择吉日向上帝祈求五谷丰登。并择定好时辰，亲自

with the figure of a phoenix-like miracle bird when he goes out and dark green horses are used to pull the carriage. The banner on the carriage is also green. The Son of Heaven wears a green robe and green jade as well (according to the principles of the Five Main Elements, green is the colour of the Element of Wood). He normally eats wheat and mutton. Vessels used for rites are simply decorated and transparent.

Spring begins during this month. Three days before the Beginning of Spring, the chief court historian reports to the Son of Heaven, "The Beginning of Spring comes on that fixed day and the main element in charge from then on should be the Element of Wood." The Son of Heaven then starts to fast. On the day of the Beginning of Spring, the Son of Heaven leads all the dukes, high-ranking court officials and sovereigns of all feudatories to welcome the spring on the eastern outskirts of the capital. When they come back, he rewards them all at the court. He then orders the prime minister to popularize moral education, announce injunctions and provide some benefits to common people. All ceremonies and awards are performed rationally. The Son of Heaven then orders the chief court historian to refer to the records of ancient documents to observe the movement of the sun, the moon and other stars and make sure that both the movement and the locations of all these celestial bodies be calculated accurately. And they should be calculated according to the location of the Qian Niu (a star belonging to the Capricornus) at the moment the Winter Solstice takes place.

During this month, the Son of Heaven selects the best

是月也，天气下降，地气上腾，天地和同，草木繁动。王布农事：命田舍东郊，皆修封疆，审端径术，善相丘陵阪险原隰，土地所宜，五谷所殖，以教道民，必躬亲之。田事既饬，先定准直，农乃不惑。

这个月，天之气下降，地之气上升，天地之气合而为一体，草木萌动。国君布置农事：命令负责农业的官吏住在东郊，监督农民整治田地，审察并修正田间小路，仔细地考察丘陵、山地、平原、洼地等各种地形，因地制宜地种植五谷，要用这些教导农民，而且务必亲自示范。农事布置完毕后，接下来要首先确定平准之法，农民才没有疑虑。

这个月，命令乐师到太学教公卿子弟学习乐舞。同时修订祭祀的典则，命令祭祀山林河流的时候，不要用雌性牲畜作为祭品。禁止砍伐

day to pray to the god of heaven for a good harvest. Carrying plough and ploughshare on his carriage, putting them between the armoured warrior and the driver, he then leads dukes, high-ranking court officials and sovereigns of all feudatories to work on the imperial field at another auspicious time. The Son of Heaven himself operates these tools three times, dukes five times, high-ranking court officials and sovereigns nine times. After they return to the court, the Son of Heaven holds a banquet at the national temple. Dukes, court officials and sovereigns are invited to drink there. This is the so-called "Rewarding with Wine".

During this month, the vitality of Heaven descends, and on the other hand, the vitality of Earth ascends. These two kinds of vitalities combine together. As a result, plants start to germinate. The Son of Heaven issues edicts on farm work. Sub-officials in charge of agricultural affairs are sent to the eastern suburb to supervise people in cultivating fields and maintaining paths. They are to investigate the conditions of the land, such as hills, mountainous areas, plains and the low-lying areas, and then tell farmers which kind of crops should be grown on which fields. They should also perform the farm work in person to show farmers the correct way to do it. After that, a set of standards are set up, so that farmers will not be confused.

During this month, the chief court musician is ordered to teach court officials' offspring dancing and the playing of instruments at the National College. Regulations on ceremonies and rites are modified. Deities of mountains,

这个月不可以举兵征伐，举兵必定会遭天灾。在没有兵战的时候，我不可以首先挑起战争。不要擅自违逆天道，不要弃绝地理，也不要乱了人间的纲纪。

孟春正月如果发布应在夏天实行的政令，就不会风调雨顺，草木就会过早地干枯，人民就会感到恐慌。如果发布应在秋天实行的政令，百姓就会遭受瘟疫，狂风暴雨频繁，野草繁茂。如果发布应在冬天实行的政令，就会出现水灾，还会有霜雪严重地伤害庄稼，麦子就将没有收成。

Some edicts are issued: do not use female animals as offerings; do not hack trees; do not damage birds' nests; do not kill young birds or animals; do not shout at deer or break birds' eggs; do not convene a lot of people; do not take large-scale constructions such as building fortifications; make sure that corpses and skeletons found in the wild are buried.

Do not carry out any military action during this month. Otherwise, there will be catastrophes. Do not launch any attack first if there is no threat of war at all. Do not act against the principles of Heaven. Do not ignore the rules of Earth. Do not upset order among human beings.

If edicts of the summer season are issued during the first month of spring, winds and rains will be irregular, plants will wither prematurely and people will be terrified. If edicts of the autumn season are issued, people will suffer from severe epidemic diseases. There will be storms, and weeds will thrive. If edicts of the winter season are issued, there will be flooding, and it will snow extremely heavily. Moreover, the barley harvest will be extremely bad.

2. The Nature of Life

夫水之性清，土者扣之，故不得清。人之性寿，物者扣之，故不得寿。物也者，所以养性也，非所以性养也。今世之人，惑者多以性养物，则不知轻重也。不知轻重，则重者为轻，轻者为重矣。若此，则每动无不败。以此为君悖，以此为臣乱，以此为子狂。三者国有一焉，无幸必亡。

是出于保全生命的天性的目的。这也是设置官吏的由来。天子设置官吏正是为了保全生命的天性。当今世上昏庸的君主设置了许多官吏，却反而伤害了生命的天性，这就失去了设置官吏的意义了。譬如训练军队本是用以防备敌寇的，可如今训练军队却反而用于自我攻伐，那也就失去了训练军队的意义了。

水的本性是清澈的，由于泥土使它变得混浊，所以不能保持清澈。人的天性是能够长寿的，由于有外物干扰它，所以不能长寿。外物本来是用以颐养天性的，而不该损耗天性去追逐它。可是如今世上昏庸的人大多损耗天性去追逐外物，那就是不知道轻重了。不知道轻重，就会把重的看轻了，把轻的看重了。这样一来，任何行动都会归于失败。这样的人做君主，就会惑乱糊涂；做人臣，就会犯上作乱；为人子，就会狂放无礼。这三种情况只要有一种在一个国家里出现，那它就要无可幸免地灭亡。

lives of his people and complying with the nature of life. That is why officials are appointed. They too are appointed to comply with the nature of life. However, nowadays muddle-headed sovereigns have appointed many officials, but that only resulted in damage to the nature of life. Thus the meaning and original purpose of their appointments are totally lost. Similarly, troops are trained to defend their state when it is threatened by foreign aggression. However, at the present time, troops are trained for internal conflicts—therefore, the meaning and original purpose of their training and setting up are also totally lost.

According to the nature of water, it is crystal-clear. Nevertheless, it cannot be clear while earth is poured into it. According to the human nature, man can enjoy a long lifespan. Nevertheless, longevity is not possible because life is disturbed with too many external factors. Materials are things used for maintaining the nature of life. Therefore, they should not be considered as the purpose of life at all. However, less spiritual people of the contemporary era might devote their lives to the search for material interests. Hence, they do not know how to differentiate the essentials from the necessities of life, so that things they consider to be important might in fact be of no value. On the other hand, those really important and valuable things are overlooked. As a result, every action taken by these people is doomed to fail. If a sovereign acts this way, he is absurd. If a court official acts this way, he will offend the sovereign. And if a son acts this way, he is unbearably impertinent. When one of these

万人操弓共射一招，招无不中。万物章章，以害一生，生无不伤；以便一生，生无不长。故圣人之制万物也，以全其天也。天全则神和矣，目明矣，耳聪矣，鼻臭矣，口敏矣，三百六十节皆通利矣。若此人者，不

假如有这样一种声音，耳朵听到它一定会感到惬意，但听了之后就会使人耳聋，人们肯定不去听它。假如有这样一种颜色，眼睛看到它一定会感到惬意，但看了之后就会使人眼瞎，人们肯定不去看它。假如有这样一种食物，嘴巴吃到它一定会感到惬意，但吃了之后就会使人变成哑巴，人们肯定不去吃它。因此，圣人对于声音、颜色、滋味的态度是，有利于生命的就取用，有害于生命的就舍弃，这是保全生命的正确方法。世上富贵的人对于声色滋味的认识大多是糊涂的，他们日夜不停地追求这些东西，有幸得到了，就放纵自己，沉溺其中而不能自拔。沉溺其中不能自拔，怎能不伤害生命的天性呢？

假如一万个人拿着弓箭，共同射向一个靶子，靶子绝不会射不中。万物美好而明丽，如果用它们伤害一个生命，那个生命绝不会不受到伤害；而如果用来为一个生命提供便利，那个生命肯定会长寿。所以，圣人支配万物来保全自己的生命。生命全然无损，精神就和谐了，眼睛就

three problems occurs in a state, it is sure to die out.

If there were one note which whoever had heard would feel extremely pleased but would become deaf after hearing, certainly no one would hear it. If there were one colour which whoever had seen would feel extremely pleased but would become blind after seeing, certainly no one would see it. If there were some food which whoever had tasted it would feel extremely pleased but would become mute after eating, certainly no one would try it. As to things such as tunes, colours and tastes, sages will appreciate them only when they are healthy and good for life. They will definitely give them up if they are unhealthy and harmful. That is the way to maintain the nature of life. However, the rich and powerful of the world are muddle-headed in this area. They just cannot have enough decadent tunes, beautiful colours or delicious savours. Therefore, they are addicted to these things day and night once they have access to them.

Indulging in pleasure so immoderately, how can the nature of life remain undamaged?

Given that ten thousand people shoot at a target at the same time, the target will definitely be hit. There are tens of thousands of things pleasing and inviting in the world; if all these cooperate to damage one person, he will definitely be injured. On the other hand, if they are aimed at facilitating his life cooperatively, he will be benefited and his lifespan will be prolonged. Therefore, a sage will balance tens of thousands of things to maintain the nature of life. Thus, his soul will be peaceful and harmonious, his eyesight will be

富贵而不懂得养生之道，反而会带来祸患，那就不如贫贱。贫贱的人获得东西很难，即使想沉湎于物质享受之中，又怎么可能呢？出门乘车，进门坐辇，务求安逸舒适，这样的车辇应该叫“招致腿脚疾病的器械”。吃肥肉，喝醇酒，耽于厚味，这样的酒肉应该叫“腐烂肠道的食

perceptive, his hearing will be sharp, his taste will be sensitive, his oral expressiveness will be perfect, and all his three hundred and sixty joints will work well. Whoever can achieve that sense of refinement will be trusted to express himself, all actions taken will get the right results without planning in advance, and the truth of everything will be apparent to him even though he does not need to ponder over the situation. Thus his spirit can reach everywhere between Heaven and Earth and his soul can cover the whole universe freely. He can tolerate everything and contain everything just like Heaven and Earth do. He will not be proud of himself even though he will be enthroned to be Son of Heaven. Nor will he be depressed if he is only an ordinary person of no power at all. That is the so-called person of perfect virtue.

Invariably, problems arise with those who are wealthy and powerful but have no common sense on the nature of life. If this is the case, one would rather choose to be menial and poor. The poor people usually lead very hard lives. Even though they might wish to lead extravagant ones, how could they realize that goal? For the wealthy and powerful, they take carriages every time they go out and take man-drawn carriages whenever they come back. They do not use their own legs and feet to walk and as a result, their muscles atrophy, so these carriages should be addressed as "utensils causing diseases of the feet and legs". They are indulged with fat, mellow wines and cannot have enough of them, so these things should be addressed as "food and drinks leading to ulceration of the gut". They are also addicted to love affairs

僇是最灵巧的人了。但是人们不爱惜僇的手指，而爱惜自己的手指，这是因为它为自己所有而且能为自己带来便利的缘故。人们不爱惜昆山的美玉、江汉的明珠，却爱惜自己的质地并非很好的玉以及细小的珠子，这是因为它们属于自己所有而且能为自己带来便利的缘故。而今生命是属于我自己的，能给我带来极大的利益。就贵贱而言，即使贵为天子，也不足以与我的生命相比；就轻重而言，即使富有天下，我也不拿自己的生命去交换；就安危而言，一旦失掉了它，终将不能复得。由于这三个方面的原因，有道的人对待生命都特别谨慎。有的人虽然

with pretty women and decadent tunes popular in Zheng and Wei, so these things should be addressed as “life-hacking axes”. These three above-mentioned problems are associated with wealth and power. Therefore, some people in ancient times would give up wealth and power voluntarily. They did so not for the sake of fame or inflated reputation but to maintain the nature of life. So, this argument must be scrutinized.

3. The Value of Life

Chui used to be the most skilful person in the world. However, people do not love Chui's fingers but love their own ones. Their own fingers are their private possessions, so they can be used to benefit themselves. Similarly, people do not love jade produced by Kun Lun Mountain or pearls produced by the Yangtze River or the Han River, but love their less precious jade and smaller pearls. Because these things are their private possessions, they can be used to benefit themselves. Life is also a private possession, so nothing could benefit oneself more than one's own life. Regarding the value of life, everyone considers his own life to be more valuable than that of his sovereign. Regarding the importance of life, no one would trade his life for anything else even the whole world would be offered to him. And regarding the safety of life, once it is lost, it would never come back. Therefore, sensible people take these three factors very seriously. Whoever attaches importance to life

小心翼翼地对待生命，却反而损害了它，这是因为不通晓生命的本性。如果不能通晓生命的本性，即使小心翼翼，又有什么用？这正如盲人疼爱儿子，却免不了让他睡在谷糠里。又如聋子养育婴儿，却在打雷的时候抱着他到堂前张望。这比不懂得谨慎地对待生命还要糟糕。对于那些不知道谨慎对待生命的人来说，死与生、存与亡、可与不可之间没有什么分别。没有什么分别，他们所谓对的未必就是对的，他们所谓错的未必就是错的。肯定他们认为是错误的，或者否定他们认为是正确的，也是非常糊涂的做法。这种人，上天一定会降祸于他们。持这种态度修身，自身必定会遭殃、死亡；持这种态度治国，国家必定残破、灭亡。死亡、灾祸、残破与灭亡，都不是无缘无故地自己找上门来的，而是惑乱所导致的。寿命的长短也是如此。所以，有道之人不考察事情的结果

but endangers his life in reality should not be regarded as really knowing the nature of life. And if one does not know the nature of life, it will be of no help even though he takes his life very seriously. Even though the blind love their children, it is inevitable that they will let their babies sleep in chaff. Similarly, even though the deaf might love their children, it could be inevitable that they might carry their babies to the hall for a look at the time when it thunders heavily. Compared with not taking life seriously at all, these kinds of things could be much more dangerous to life. For those who do not take life seriously, the differences between survival and death, between things they should do and those they shouldn't do are blurred. Thus, they could not tell right from wrong. Whatever they consider to be right should be wrong indeed. On the other hand, whatever they consider to be wrong should be right in reality. It is also extremely silly to assert things negated by them or repudiate things affirmed by them. People of this kind are doomed to be punished by Heaven. Behaving themselves that way, they will definitely get into serious trouble and lose their lives. Governed that way, a state will surely be invaded and ruined. The most hateful things such as death, severe troubles, dilapidation or perdition of a state do not occur spontaneously without any reason. They are caused by the stupidity of these muddle-headed people. The lifespan of human beings is also the same. So, instead of paying much attention to investigating the results of things, sensible people would rather examine their causes scrupulously. Thus, the results are determinate

室大则多阴，台高则多阳，多阴则蹶，多阳则痿，此阴阳不适之患也。是故先王不处大室，不为高台，味不众珍，衣不燂热。燂热则理塞，

即便让乌获迅速地用力拽住牛尾巴，即便他把牛尾巴拽断了、把自己的力气都用尽了，牛仍然不会走，这是由于违背了牛的习性的缘故。而如果让一个小孩牵着牛鼻子上的环，牛就会完全按照小孩的意愿前行，这是由于顺应牛的习性的缘故。世上的君主、权贵，无论贤还是不肖，没有不想长寿的。但是如果他们每天都在违背生命的天性行事，即使渴望长寿，又有什么用？大凡寿命得以延长，都是顺应生命的天性的缘故；不顺应生命的天性的东西是欲望，所以圣人一定首先节制欲望，确保它们适度。

房屋太大，阴气就多；台子过高，阳气就盛。阴气过多，腿脚就会生毛病；阳气太盛，肌肉就会萎缩。这是阴阳不协调所造成的祸患。因此，古代的帝王不住太大的房子，不修筑过高的台子，不吃太多珍异的

Suppose that Wu Huo were there pulling the tail of a cow, the animal would not move at all even if its tail were broken and Wu Huo himself were exhausted, because that went against the innate nature of the cow. However, if a small boy were to hold the ring embedded in the nose of the cow, the animal would go everywhere according to the will of the boy, because that were in accordance with the innate nature of the cow. For sovereigns and powerful people of the world, no matter whether they are sensible or unworthy, they all hope to enjoy longevity. Given that they always act against the nature of life, how could they prolong the lifespan even though they are looking forward to that? Whoever can enjoy a long lifespan must have behaved exactly according to the nature of life. However, there are things which work against the nature of life, and these things are lusts. Hence, it is of great importance for sages to constrain their lusts to ensure moderation.

If a building is too huge, Yin will pervade it. If a platform is too high, Yang will pervade there. If Yin is overly prevailing, people living in the building will suffer from leg-and-foot diseases. If Yang is overly prevailing, people living on the platform will suffer from atrophy. These problems occur when Yin and Yang are not in harmony with each other. Ancient kings would not live in huge buildings, would not build high platforms, would not eat too much nutritious rare food, nor would they wear too heavy clothes. When

clothes are too heavy and warm, the veins in the skin will be blocked. Thus, the vital energy cannot circulate very well. When too much nutritious food has been eaten, the stomach will distend and that might lead to gastrectasia. As a result, vital energy cannot circulate well. How can the lifespan be prolonged if this is the case? So the gardens and ponds of ancient kings were moderate in size and they were only big enough for the kings to play or relax in; their buildings, kiosks and platforms were only big enough to protect themselves from the wet and dry weather; their carriages, horses and clothes were only enough to relieve them or keep them warm; their food was only enough to ease hunger; and their means of entertainment such as music or colours were only enough to satisfy them and maintain the nature of life. Sage kings take the above-mentioned five measures to maintain the nature of life correctly. However, it is not that they were inclined to frugality or disliked luxurious ways of living, but that they aimed at moderation to maintain the nature of life.

4. On Getting Rid of Partiality

When sage kings of ancient times were governing the world, they regarded impartiality as the most important principle. They governing the world according to the guidelines of impartiality, the world could be in a state of peace and order. The peace and order of the world can only be safeguarded with impartiality. research on documents from ancient times. Those sovereigns who have unified the world successfully throughout history did it largely by the use of impartiality. On the other hand, for those who were toppled and finally lost their authority, their failure was accounted for largely by partiality. Impartiality is the only thing that can safeguard the throne. So, it is said in *Hong Fan*, "No partiality, no clique, the future of the throne is bright. No bias, no favouritism, principles of sage kings are respected. No nepotism, the right path of sage kings is followed. No malignity, the right way of sage kings is taken."

The world does not belong to one single person. The world should belong to people of the world. The cooperation of Yin and Yang does not create only one species. Sweet dews and proper rains do not do favour to anything out of partiality. And a sovereign supervising tens of thousands of people should not benefit anyone out of favouritism either. Before Bo Qin went to take office in the state of Lu, he asked Duke Zhou how to govern the state. Duke Zhou said, "Benefit people of the state, but do not take advantage of the state for your own sake." Once a person of the state of Chu lost a bow, but he would not go back to look for it. When he was asked for the reason, he just said, "Well, one person of Chu lost the bow, and another person of Chu got it. Is it necessary for me to go back to look for it?" When Confucius heard of it, he said, "It should be all right if the word 'Chu' is overlooked." When Lao Dan heard of it, he said, "It should be all right if the word 'person' is overlooked." So

Lao Dan should be considered as the person of perfect disinterestedness. How could you discuss this topic with a dying person?" Duke Huan insisted to ask him, "Since it is so important, please do give me a piece of your mind." Guan Zhong agreed reverently and then, he asked him, "Whom do you want to use as prime minister then?" Duke Huan said, "Shall I appoint Baoshu Ya to this position?" Guan Zhong said, "No. He is not the right one. Baoshu Ya and I are very good friends, so I know him well. He is such a clear and upright person that he would not make friends with those who are not as virtuous as he himself is. Given that one is badly drunk but still hopes to look elegant, is concerned only with taking advantages for himself but still hopes to establish the principle of impartiality, is very rapacious, tyrannical but still hopes to unify the world, even people as capable as Shun could not manage to achieve that.

5. On Getting Rid of Selfishness

Heaven does not give unprincipled protection to anything. Earth does not hold anything out of partiality. The sun and the moon do not illuminate anything because of bias. Nor do the four seasons move out of favouritism. They benefit all things, so the things can develop fully.

The Yellow King said, "Do not listen to overly decadent tunes. Do not be addicted to overly splendid colours. Do not wear overly extravagant clothes. Do not indulge in overly fragrant odours. Do not be addicted to overly luscious delicacies. Do not live in overly luxurious buildings."

Yao devolved the authority over the world to Shun even though he had ten sons himself. Shun devolved the authority over the world to Yu even though he had nine sons himself. That should be considered as perfect disinterestedness.

King Ping of the state of Jin once asked Qi Huangyang, "I need someone to take charge of Nan Yang. Whom do you think I should appoint to this position?" Qi Huangyang said, "I think you can use Xie Hu." The king asked, "Isn't Xie Hu your personal enemy?" He said, "Well, you asked me

墨家大师腹䵍住在秦国，他的儿子杀了人，秦惠王对他说：“先生您的年纪很大了，又没有别的儿子，我已经命令执法的官吏不杀他了。希望先生在这件事上听我的吧。”腹䵍回答说：“墨家的法律规定：‘杀人者处死，伤人者受刑。’这样做，是为了严禁杀人、伤人。严禁杀人、伤人，是天下的大义。大王虽然恩赐于我，命令执法官吏不杀我的儿子，但我却不可以不执行墨家的法律。”腹䵍没有应允惠王，杀了自己的儿子。

And this story was praised all over the state. After some time, King Ping asked Qi Huangyang again, "I need an officer to take charge of military affairs. Whom do you think I should use?" He said, "I think you can use Wu." King Ping asked, "Isn't Wu your own son?" He said, "You asked me who was capable of taking charge of military affairs for the state rather than who my son was." King Ping said, "Great!" He then used Qi Wu. And people all over the state thought it was a good idea. When Confucius heard of that, he said, "How wonderful Qi Huangyang's words are! He is so selfless that he could recommend both his personal enemy and his own son." People like Qi Huangyang can be considered as disinterested.

Fu Tun said, "According to the regulations followed by scholars of our school, whoever has murdered another person should be sentenced to death, and whoever has hurt another person should be punished. Chefs are used to concoct wonderful delicacies but do not eat the food they made secretly. Whoever eats things prepared for the host secretly should not be used as chef. Sovereigns being able to establish the most powerful states or unify the whole world are also the same. When they overthrow their tyrannical and ferocious compeers, they do not keep their territories to themselves but confer them on sensible and virtuous people, so that they can establish the most powerful states or unify the whole world. Suppose they were to kill those tyrannical and ferocious sovereigns and then keep all their lands and possessions to themselves, they could never establish the most powerful states or unify the world.

2. On Attaching Importance to Life

Sages have pondered over things scrupulously and regarded life as the most important and valuable thing in the world. Organs such as the ear, the eye, the nose and the mouth should all facilitate life. Therefore, even though the ear wants to hear something euphonious, the eye wants to see something beautiful, the nose wants to smell something fragrant and the mouth wants to eat something delicious, these wishes should not be fulfilled if they are harmful to life. On the other hand, if something is good for health, it should be done at any rate even though it might be against the wishes of these four organs. From this point of view, the ear, eye, nose and mouth should not do anything according to their own

越国人连续杀了三代国君，王子搜对此很是忧惧，于是逃到一个采丹矿的深井里躲藏起来。越国没有国君，找不到王子搜，便一直寻找。采丹矿的深井里。王子搜不肯出来，越国人就点燃艾草用浓烟把他熏出来，让他乘坐国君的车子回去。王子搜拉着缰绳一边上车一边仰天

Yao hoped to devolve the authority over the world to Zizhou Zhifu. Zizhou Zhifu said, "It is fine for you to invite me to be Son of Heaven. Nevertheless, I am suffering from depression right now, and I am thinking of getting some treatment for it. So, I do not have any time to govern the world." The authority over the world is great power and is considered to be the most important by most of the people. However, sages will refuse it if it is not good for life, needless to say how they will handle things of less importance. Only those who would not damage their lives because of governing the world are qualified for being entrusted by the world.

People of the state of Yue had murdered three sovereigns in a row and Prince Sou was worried about it, so he escaped and hid himself in a well used for excavating vermilion. Thus, the people of the state of Yue did not have any sovereign any more, and they could not find the prince. They then went to the well to consult with him. However, Prince Sou would not come out. 鲁国的国君听说颜阖是个有道的人，就派人带着礼物前往慰问。颜阖住在陋巷里，正穿着粗布衣裳亲自喂牛。鲁国君主的使者到来后，刚好跟颜阖打了一个照面。使者问他：“这是颜阖的家吗？”颜阖回答说：“这是我的家。”使者送上礼物，颜阖对他说：“我担心您把名字听错了而给自己招来处罚，不如您先搞清楚了吧。”使者回去核实清楚了，再回来找颜阖，却找不到他了。像颜阖这样的人，并不是厌恶富贵，而是由于看重生命才厌恶它的。世上的君主大多凭着自身的富贵傲视有道之人，他们竟然如此不了解有道之人，难道不可悲吗？

And that was also the reason that people of Yue focused on looking for him to enthrone him.

The king of the state of Lu heard that Yan He was sensible and wise. Therefore, he was thinking of asking him to work at his court, so he sent someone there to present him with some gifts. Yan He lived in a simple and crude lane, and he was feeding cows in sackcloth when the messenger came. The messenger arrived. He met Yan He and asked him, "Is this Yan He's house?" Yan He said, "Yes. This is my house." The messenger then presented him with the gifts. Yan He said, "I am afraid that you might have mistaken the recipient's name. And if that is the case, it might get you into trouble. So, I think you'd better go back to check it before you give me the gifts." The messenger went back, checked the order and came back again. However, he could not find Yan He this time. As for people like Yan He, it is not that they just hate wealth, but that they will not accept it because they are afraid that wealth might lead to problems damaging their lives. Contrarily, contemporary sovereigns normally look down on others since they themselves are more powerful and wealthy. As a result, they do not know sensible people. Isn't it tragic?

所以说：道的精髓是用来全生保命的，它的余绪是用来治理国家的，而它的残渣是用来治理天下的。由此看来，帝王的功业只不过是圣人闲暇之余的事，而并非是用来全身保命的养生之道。如今世俗所谓的君子们却损害身体、甚至舍弃生命去追求物质利益，他们这样做要达到什么目的呢？他们又用什么手段达到自己的目的呢？

圣人采取任何行动的时候，必定明察自己所要达到的目的和达到目的所采用的手段。假如有这样一个人，用随侯之珠做弹丸射千仞高空中的飞鸟，世人肯定会嘲笑他。为什么呢？因为他所付出的太贵重，而所追求的太微不足道了。而生命的价值又岂只是随侯之珠所能比拟的呢。

子华子说：“保全生命是最上等的，使生命受到亏损是次一等的，守志而死是又次一等的，苟且偷生是最低等的。”所谓的尊崇生命，就是保全生命的意思。所谓的保全生命，是指六欲都能适度。所谓的使生命受到亏损，是指六欲只能有半数能得其所宜。使生命受到亏损比起保

health; the unimportant part of it is used to govern one state; only the dregs of it are used to govern the whole world. From this point of view, the greatest accomplishments of sovereigns are nothing but trifles which sages conducted during their leisure time, and these things are considered to be of no use for keeping good health. However, powerful people of the contemporary time are seeking material advantages at the cost of their health or even their lives. Why are they behaving that way? And what kind of means could they take to reach these goals?

Before sages take action, they examine their means and purpose first to make sure that they are reasonable and justifiable. Given that one would shoot a bird flying one-thousand-*ren* high in the sky with the Pearl of Marquis Sui, people all over the world will deride him. Why? Compared with the means he used, the purpose he sought was negligible. And how could the Pearl of Marquis Sui be mentioned in the same breath with one's life?

Viscount Huazi said, "Preserving one's health is the best. Causing damage to one's life is the second best. Dying is the second worst. And dragging out an ignoble existence is the worst." The so-called valuing of the importance of life means preserving one's health. And the so-called preserving of one's health means to moderate all the six kinds of lusts. The causing of damage to one's life means that only half of these six kinds of lusts are constrained. Compared with preserving one's health, causing damage to one's life is not advisable. The more severely life is damaged, the worse the

全生命来说，是等而下之的；生命受到的亏损越是严重，就越发不能得到保全。所谓死，是指没有任何知觉，等于又回到了还没有出生时的状态。所谓苟且偷生，是指六欲都不能得其所宜，相反，六欲所获得的都是它们本身所厌恶的东西。屈服属于这一类，耻辱也属于这一类。没有什么比不义更为严重的耻辱了。所以，行不义之事就是苟且偷生。但是苟且偷生还不仅仅是多行不义，所以说，苟且偷生还不如死掉算了。我怎么知道是这样呢？如果耳朵听令人讨厌的声音，那就不如什么都不听；眼睛看令人讨厌的东西，那就不如什么都不看。所以打雷的时候要捂住耳朵，闪电的时候要遮住眼睛。这就是很好的比方。六欲都知道自己非常厌恶的东西是什么，如果这些东西不可避免，那就不如根本没有知觉。而没有任何知觉就是所谓的死。因此，苟且偷生还不如死。喜欢吃肉，但却不是连腐臭的老鼠也吃；爱好喝酒，但却不是连霉臭的酒也喝；尊崇生命，但却不是指要苟且偷生。

health will be preserved. The above-mentioned dying means to lose all kinds of sentience and revert to the original lifeless condition. The above-mentioned dragging out of an ignoble existence means that all the six kinds of lusts are immoderate, and everything is against your wishes. Yielding is a case of this kind and being humiliated is also a case of this kind. Regarding humiliation, nothing can be more shameful than behaving unrighteously. Therefore, behaving unrighteously should be considered as the case of dragging out an ignoble existence. Nevertheless, dragging out an ignoble existence also means not behaving righteously, so it is said that you'd better choose to die if you have no other choice but to drag out an ignoble existence. How could I know that? Well, hearing something unpleasant is worse than not hearing anything at all. And similarly, seeing something unpleasant is worse than not seeing anything at all. Therefore, people will cover up their ears when there is thunder, and they will cover up their eyes when there is lightning. These are good instances. People know what things they hate most. If these most hateful things are inevitable, it could be better if one does not have any sentience at all. And only the dead do not have any sentience. Therefore, dragging out an ignoble existence is no better than dying. People prefer meat, but it does not refer to the rotten rats. People prefer wine, but it does not refer to the unwholesome rotgut.

世俗的君主放纵情欲，所以动辄灭亡、失败。他们耳朵听不够，眼睛看不够，嘴巴吃不够，以致全身浮肿，筋骨积滞，血脉阻塞，九窍空疏，

3. On Lusts

Human beings are created by Heaven and they are born with desires and lusts. Desires lead to lusts, and lusts should be constrained. Sages take control over their own lives and restrain their lusts, so they are not overly addicted to it. It is natural that the ear loves all the five euphonious notes, the eye loves all the five beautiful colours, the mouth loves all the five savoury tastes, and these cases can be regarded as a form of lust. From this point of view, human beings are the same, whether they are powerful or powerless, wise or stupid, sensible or unworthy. Even Shen Nong, the Yellow King, Jie and Zhou could not differentiate themselves from one another. The only thing that differentiates sages from the rest is that they know how to restrain their lusts to keep them moderate. For people who understand the value of life and would do anything justifiable to protect their lives, their lusts can be kept moderate. For those who do not understand the value of life or take correct actions to protect their lives, they will be addicted to lusts. Whether one can survive or will die is accounted for by that.

Ordinary sovereigns do not constrain their lusts, so it is quite normal for them to suffer from failure or perdition. Their ears cannot have enough to hear, their eyes cannot have enough to see, and their mouths cannot have enough to enjoy. As a result, all parts of their bodies will be swollen, their veins will be blocked, their blood vessels will be

Even though they are alive, they can be considered as nothing but walking corpses.

Ancient people who mastered Tao could enjoy longevity, so they could enjoy all kinds of wonderful tunes, beautiful colours and delicious things during their lifetime. Why? The reason is that their standpoint of valuing the importance of life had been firmly established when they were young. Establish the standpoint of valuing the importance of life as early as possible, so that you can always preserve your health. Start to preserve your health as soon as you can, so that your vitality will not decline. If cold weather comes early in autumn, it will be followed by a warm winter. If it rains frequently in spring, it will be followed by a dry summer. Even Heaven and Earth cannot make the best of both worlds, so what will happen with the human being? From this point of view, Heaven, Earth and human beings are somewhat the same. Even though tens of thousands of things in the world have various shapes, they all have the same inbeing. 世上侍奉君主的人都把孙叔敖受到楚庄王的知遇视为幸运。但是在有道之人看来却并非如此，他们认为这仅仅是楚国的幸运。楚庄王喜好四处游玩打猎，跑马射箭，纵情欢乐，而把治理国家的辛苦和作诸侯的忧劳统统推给了孙叔敖。孙叔敖日夜操劳，无法顾惜自己的生命，所以才使得楚庄王的功绩载于史册，流传后世。

The story of Sun Shu'ao being trusted and used by King Zhuang of the state of Chu has been admired by court officials all over the world. 不仅染丝如此，国家也有类似染色的情形。舜受到许由、伯阳的熏染，禹受到皋陶、伯益的熏染，商汤受到伊尹、仲虺的熏染，周武王受到太公望、周公旦的熏染。这四位帝王所受的熏染合宜得当，所以能够统一天下，立为天子，功名遮蔽天地。凡是提到天下仁义显达的人，人们一定会推举这四位帝王。夏桀受到干辛、歧踵戎的熏染，殷纣受到崇侯、恶来的熏染，周厉王受到虢公长父、荣夷终的熏染，周幽王受到虢公鼓、祭公敦的熏染。这四位君王所受的熏染不得当，结果国家灭亡、自己丧命，还被天下人耻笑。凡是提到天下不义、耻辱之人，人们一定会

Whenever the colour of the pigment changes, the colour of the silk will change correspondingly, and if it is dyed five times, there will be five different colours." So enough attention must be paid to the environment.

Not only can silk be dyed, a state might encounter a similar situation too. Shun was influenced by Xu You and Bo Yang. Yu was influenced by Gao Tao and Bo Yi. Tang was influenced by Yi Yin and Zhong Hui. King Wu was influenced by Jiang Ziya and Duke Zhou Dan. These four sovereigns were positively influenced, so they could unify the world and be enthroned as Sons of Heaven. They have been the most successful and famous people in human history and have been considered and admired as the kindest and most righteous paragons in the world. Jie of the Xia Dynasty was influenced by Gan Xin and Qi Zhongrong. Zhou of the Shang Dynasty was influenced by Marquis Chong and Wu Lai. King Li of the Zhou Dynasty was influenced by Guogong Zhangfu and Rong Yizhong. King You of the Zhou Dynasty was influenced by Guogong Gu and Zhaigong Dun. These four sovereigns were influenced negatively, so their regimes were toppled and they themselves were killed. They have been derided by people all over the world ever since and were regarded as the most notorious and corruptive of people. As a result, not only were they toppled, but they also lost their lives or were badly humiliated by their enemies. Their national temples were ruined, no ceremony was held in worship of their ancestors any more, their offspring were uprooted, they and their officials were separated, and their people escaped to take refuge elsewhere. People all over the world regarded them as the most corruptive, notorious and abusive sovereigns in human history. As for sovereigns, they are not there to seek fame or enjoy comfortable lives, but they are there to administer morality and justice. And the administration of morality and justice depends on the good influences posed upon them by the environment and people around them. So, capable sovereigns of ancient times would devote much of their time and energy to the selection of

熏染合宜得当。所以古代善于做君主的人把精力花费在选贤任能上，而不为政事劳心费神，这就掌握了正确的为君之道。不善于做君主的，伤身劳神，内心烦忧，耳目劳顿，国家却越来越危险，自己也越来越蒙受耻辱，这是由于不知道把握为君的关键。不知道为君的关键，所受的熏染就会不得当。所受的熏染不得当，如何能够获得大道？以上六个君主就是这样。他们不是不看重自己的国家，不爱惜自己的身体，而是所受的熏染不得当。所受的熏染得当与否关系到生死存亡，不仅适用于诸侯，对于帝王而言也是这样的。

不只是国家存在着熏染得当与否的问题。孔子曾经向老聃、孟苏夔、靖叔学习。鲁惠公派宰让向天子请示郊祭、庙祭的礼仪，桓王派名叫角的史官前往鲁国。惠公把他留了下来，他的后代在鲁国，墨子曾经

sensible people and appointing them to suitable positions instead of handling all government affairs in person. Thus, they knew the right way to govern their people and states. On the other hand, those who were not capable of governing their people and states would find themselves bothered both physically and spiritually. Their states would become more and more dangerous and they themselves would suffer more and more humiliations because they failed to master the essentials in governing. That was accounted for by the bad influences posed upon them. If they were affected by bad influences, how could they know anything of morality and justice? The six sovereigns mentioned above are examples of this kind. It was not that they did not value their states or did not take their own lives seriously, but that they had not been influenced correctly. Whether a state can survive or not is decided by the influence posed upon its sovereign. That is true both for sovereigns of the feudatories and for the Son of Heaven.

It is not only states of the world and their sovereigns that can be influenced. So can other people. Confucius learned from Lao Dan, Meng Sukui and Jing Shu. After King Ping of the state of Lu sent his official Zai Rang to the court of the Zhou Dynasty to learn ceremonial routines, King Huan sent Shi Jiao to Lu to pass on the routines. After that, King Hui invited Shi Jiao to stay in Lu. He stayed there with his offspring. Mozi also learnt from his offspring. As for these two sensible men, Confucius and Mozi, they could not make others famous by offering them powerful ranks, nor could

Even though they both died a long time ago, there are more and more people admiring their thoughts and following their footsteps, and as a result, the world is full of their disciples. Not only have they been respected and honoured by sovereigns and high-ranking officials, these powerful people have also sent their offspring to learn from their disciples, so their thoughts have been propagated endlessly. 5. On Achievements and Fame

If all actions are taken in the right way, one is destined to be successful and famous. That is as natural as shadows following objects and echoes responding to shouting. An excellent fisherman can catch fish from waters as deep as ten *ren* when the bait he uses is inviting. An excellent archer can shoot a bird flying as high as one hundred *ren* in the sky when the bow he uses is unparalleled. And an excellent sovereign

强令之笑不乐，强令之哭不悲。强令之为道也，可以成小，而不可以成大。

缶醯黄，螭聚之，有酸，徒水则必不可。以狸致鼠，以冰致蝇，虽工不能。以茹鱼去蝇，蝇愈至，不可禁，以致之之道去之也。桀、纣以去之

是因为所用的钓饵香；擅长射猎的人能把鸟从百仞高的空中射下来，这是因为所用的弓精良；擅长做君主的人能够使四方各个语言不通、习俗不同的少数民族归附于他，这是因为他的德行宽厚。水深之处，鱼鳖就会聚集到那里；树木繁盛，飞鸟就会聚集到那里；百草茂密，禽兽就会聚集到那里；君主贤明，豪杰就会归附于他。所以，圣明的君主并不致力于使人们归依自己，而是致力于修养自己的德行。

勉强做出来的笑并不真的快乐，勉强做出来的哭并不真的悲哀。勉强做事，只能做成一些小事，而不可能成就大业。

瓦罐中的醋黄了，蚊虫就会聚集在那里，那是因为它散发出酸味。如果只是清水，就一定不能招来蚊虫。如果用猫招引老鼠，用冰招引苍蝇，即使做得很巧妙，也达不到目的。用腐臭的鱼去驱除苍蝇，苍蝇会越来越多，不可禁止，这是由于用了招引它们的方法驱除它们的缘故。

can make people of the remotest areas with the strangest customs submit to his authority when his virtues are incomparable. If waters and springs are deep, fishes and turtles will gather there. If trees are resplendant, birds will gather there. If grasses are lush in an area, wild animals will gather there. And if the sovereign is sensible and outstanding, people will gather around him. Therefore, sage sovereigns do not pay much attention to submitting people, but are concerned with cultivating their virtues.

If one is forced to laugh, he will not feel happy in the heart. If one is forced to cry, he will not feel sad in the heart. If one is forced to do something, he can only achieve some small goals. However, it is not possible for him to reach outstanding ones.

If the vinegar in a vessel is rotten and getting yellow, mosquitoes will gather there, because it is odouriferous. If there is only water in the vessel, no mosquito can be drawn there at all. Rats cannot be attracted with cats and flies cannot be attracted with ice no matter how inviting the cats and ice might be. On the other hand, if one tries to drive away flies with rotten fish, they will not leave. Contrarily, more and more will come; they are being drawn instead of being driven away by the rotten fish. Similarly, Jie and Zhou wanted to win over people by using despotic policies. How could people be drawn to them when their criminal laws were extremely strict and the penalties they used were ruthless?

When the coldest weather comes, people will seek warm

桀与纣企图用暴政争取人民，即使惩罚很重，刑法很严苛，又有什么用？

严寒到来的时候，人民就追求温暖；酷暑到来的时候，人民就奔向清凉的去处。因此人民没有固定的居处，有了利益，他们就聚集过来；没有利益了，他们就会离去。想要做天子的人，对于人民奔走的趋向一定要明察。如今的世道，寒冷已经到了极点，炎热已经到了极点，而人民却不投奔别处，那是因为天下君主的所作所为都是同样不得民心。如果想做天子，自己所展示给人民的，不可不跟其他的君主区别开来。如果他的所作所为与其他暴虐的君主没有什么两样，即使暴虐的程度再增加一倍，人民也仍然无处可逃。如果人民走投无路了，一统天下的君主就不会出现了；如果暴君感到庆幸，人民就会绝望了。所以，当今世上如果有仁人存在，不可不致力于这件事；如果有贤明的君主存在，不可不致力于这件事。

贤人与不肖之徒不能不加以区分，这如同命运不可移易，美恶不可

places. On the other hand, when the hottest weather comes, people will seek cool places. Hence, common people have no fixed residence. They will stay at a place if some benefits are provided for them there. And if there is no benefit at all, they will surely leave for somewhere else. As for a person whose destiny is to become Son of Heaven, he should master this intention of common people. The manners and morals of the contemporary time have reached the worst conclusion. However, common people will not move to other areas if none of the sovereigns of the world can win them over. Hence, whoever hopes to unify the world and become Son of Heaven himself must differentiate himself from the rest of the ordinary sovereigns. If not, people would not have any other place to go to take refuge even though the situation might be twice worse. And if there were no safe place anywhere in the world for common people to take refuge, no one could manage to unify the world. If those tyrannical sovereigns are having good luck, common people will despair. So, if there really are benevolent people in existence, they should be concerned with this situation and committed to improve it. If there really are sage sovereigns in existence, they should take this situation into consideration.

Sensible people cannot be intermixed with the corruptive and unworthy ones. They are doomed to differentiate themselves from the rest as kindness and ferocity cannot be intermixed. Jie and Zhou used to be the most powerful owners of the world and they could do anything to damage

Records on the Third Month of the Spring Season

1. The Third Month of the Spring Season

During the last month of the spring season, the sun is moving to the same place as Wei (a group of three stars belonging to Aries). At twilight the Seven Stars (a group of stars belonging to Hydra) are in the south of the sky and at dawn Qian Niu (a group of stars belonging to Capricornus) is also in the south. The Heavenly Branches of this time are Jia and Yi. The god in charge of this period is Tai Hao and the assistant of Tai Hao is Gou Mang. The representative creatures of this time are animals with squama. The note is Jue. The corresponding pitch is Gu Xian (# E). The number is eight. The corresponding flavour of this month is acerbity, and the smell of it is somewhat like the odour of sheep. At this time, a sacrifice is held at the door and the main offering should be animal spleen. Phoenix trees start to develop flowers. Field mice are replaced by quails. Rainbows start to show up. Duckweeds begin to grow. The Son of Heaven stays in the room located at the southern end of the east-facing hall named "Qing Yang". He takes a green carriage decorated with the figure of a phoenix-like miracle bird when he goes out and dark green horses are used to pull the carriage. The banner set up on the carriage is also green. The Son of Heaven wears a green robe and green jade as well. He normally eats wheat and mutton. Vessels used for rites are

是月也，命司空曰：“时雨将降，下水上腾；循行国邑，周视原野；修利堤防，导达沟渎，开通道路，无有障塞；田猎罫弋，置罟罗网，餒兽之药，无出九门。”

这个月，生机勃勃，阳气向外发散，所有的动物都出来活动，所有的植物都开始发芽，不能够抑制。天子发布德政，布施恩惠，命令主管的官吏打开粮仓地窖，施舍贫困的人，赈济缺衣少食的人；又打开储藏财物的仓库，拿出钱财与布匹，周济天下人，勉励诸侯，聘用名士，礼待贤人。

这个月，天子命令司空说：“应时的雨即将降落，地下水将会向上翻涌，要巡视国都、城邑以及原野，整修堤防，疏通沟渠，开通道路，排除所有障碍。打猎所需要的各种网具和药物不许带出城门之外。”

During this month, the Son of Heaven wears a robe of mulberry-yellow when he participates in the ceremony held in worship of god. Officials in charge of boats are ordered to examine all the boats. Both the bilges and the hulls should be checked five times thoroughly and scrupulously. After that, they report to the Son of Heaven that all the boats are ready for use. The Son of Heaven then starts to use the boat. He then offers sturgeons to the ancestral temple to pray for a good barley harvest.

During this month, life grows vigorously. Yang is in control. Animals become active and plants all grow well. Nothing stops the growth. The Son of Heaven issues benevolent mandates and provides benefits for the people. Court officials are ordered to open up depots and cellars to distribute grain to the poor and to present money to those not having enough food or clothes. People all over the world are helped, sovereigns of all the feudatories are encouraged, famous intellectuals are appointed to suitable positions, and able people are treated with respect.

During this month, the Son of Heaven issues an order to the minister of public works as follows: "Proper rains will come and the underground water will rise. Go investigate all towns and fields to make sure that the dikes are well maintained, conduits are dredged and all the obstacles on the roads are removed. Make sure that everything used for hunting, such as nests or poison used to catch animals, will not be brought out of the capital."

During this month, the Son of Heaven orders officials in charge of mountain forests to forbid people to lumber mulberry trees or hacking silkworm thorns since culvers and hoopoes are going to perk and nest in these trees. Bamboos, wicker baskets and other utensils are prepared for collecting mulberry tree leaves. After a fast, the queen and concubines of the Son of Heaven go to the eastern outskirts of the capital to collect mulberry tree leaves. Women are forbidden to idle away their time. They are ordered to stop all other affairs and concentrate themselves on raising silkworms. Then cocoons are classified according to quality, and the quantity of silk is measured to judge the contribution of every woman. These fabrics are used to make robes worn during ceremonies. All adult females should try their best and none of them dare neglect her duty.

During this month, the Son of Heaven orders the officials in charge of craftsmen to examine the stores of iron, leather, horns, and sticks used as arrow shafts, pasterns, vermilion and pigments to ensure that these things are of the highest quality. All workers should excel under the supervision of their masters so that tasks can be finished on time. No luxurious utensils should be made to the Son of Heaven's extravagant wishes.

cows are herded together on the pasture. Selected colts and calves can be used as offerings and records of their number should be kept. A ceremony aimed at the exorcising of devils is held, during which dogs and goats are killed and sacrificed at all the nine gates of the capital to drive away devils. Thus the spring season is over.

If suitable edicts are given, proper rains will come three times during this month. If edicts of the winter season are issued during the third month of spring, cold air will come from time to time, plants will wither, and people of the nation will be terrified. If edicts of the summer season are issued, common people will suffer from epidemic diseases, proper rains will not come, and crops growing on the hills will not grow well. If edicts of the autumn season are issued, it will frequently be cloudy and rainy. Moreover, there will be aggression from neighbouring states on all the four sides.

2. On Enjoying Life

Heaven has created Yin, Yang, coldness, warmth, dryness, dampness, the changing of the four seasons and the development of a myriad of things. These things can provide benefits for human beings, but they can cause disasters too. Sages can discern the relationship between Yin and Yang, can recognize the useful points of tens of thousands of things, and can thus take advantage of them to improve the quality of their lives, so their souls can be attached to their bodies comfortably and peacefully, and longevity can be guaranteed.

也者，非短而续之也，毕其数也。毕数之务，在乎去害。何谓去害？大甘、大酸、大苦、大辛、大咸，五者充形则生害矣。大喜、大怒、大忧、大恐、大哀，五者接神则生害矣。大寒、大热、大燥、大湿、大风，大霖、大雾，七者动精则生害矣。故凡养生，莫若知本，知本则疾无由至矣。

精气之集也，必有人也。集于羽鸟与为飞扬，集于走兽与为流行，集于珠玉与为精朗，集于树木与为茂长，集于圣人与为复明。精气之来也，因轻而扬之，因走而行之，因美而良之，因长而养之，因智而明之。

了，而是指尽享天年。尽享天年的关键在于除害。什么叫除害？太甜、太酸、太苦、太辣、太咸，这五种滋味遍布全身，生命就会受到危害。大喜、大怒、大忧、大恐、大哀，这五种情绪影响心神，生命会就受到危害。过冷、过热、过干、过湿、过多的风、过多的雨、过多的雾，这七种气候影响精气，生命就会受到危害。所以，谈到养生，再也没有比懂得这个根本更为重要的了，懂得了根本，疾病就不会产生了。

精气的聚集一定要有所寄托。聚集在飞鸟上，就会与鸟一同飞翔；聚集在走兽上，就会与兽一起行走；聚集在珠玉上，就会与玉一样精美明丽；聚集在树木上，就会与树一道繁茂生长；聚集在圣人身上，就会与圣人一样聪明睿智。精气来临后，依附在轻盈的飞鸟上就能使它展翅翱翔，依附在走兽身上就能使它迅捷地行走，依附在美玉上就能使它更为精美，依附在树木上就能使它繁茂，依附在智者身上就能使他明哲。

However, this longevity does not mean that the lifespan was shorter previously, but that it is now prolonged artificially. It just means that one should fully enjoy the endowments of nature. In fully enjoying the endowments of nature, the most important thing is to dispose of all the threats to life. What are these threats then? Savour that is too sweet, too sour, too bitter, too sharp or too salty is harmful to physical health, and will cause damage to life. Feelings such as being overly happy, overly outraged, overly worried, overly terrified or overly sad are harmful to the soul, so they too cause damage to life. And abnormal weathers which are too cold, too hot, too dry, too wet, too windy, too rainy or too cloudy are harmful to vitality, so they too cause damage to life. Hence, the most important thing in keeping good health is to know the factors which are bad influences on life. These being understood, there will be no further threats of disease.

Vitality must be attached to something with a fixed shape. Attached to a bird, it can fly with the bird; attached to an animal, it can run with the animal; attached to jade or pearl, it can shine along with the jade or the pearl; attached to a tree, it can thrive with the tree; if it is attached to a sage, it will become wise with the wisdom of the sage. With the arrival of this vitality, if attached to a bird, it can make the bird fly high in the sky; if attached to an animal, it can make the animal run quickly; if attached to a piece of beautiful jade, it can make the jade more beautiful; if attached to a tree, it can make the tree exuberant; if attached to a sage, it can make the sage wiser.

流动的水不会腐臭，转动的门轴不会生长蠹虫，这是由于它们在不断地运动。身体与精气也是这样。身体不活动，精气就不流通；精气不流通，就会郁积。郁积在头部就会造成肿痛或者痛风，郁积在耳部就会造成重听或者耳聋，郁积在眼部就会造成眼疾或者失明，郁积在鼻部就会造成鼻炎或者鼻塞，郁积在腹部就会造成腹胀，郁积在脚部就会造成麻痹或者腿瘸。

饮食的滋味不要过于浓烈，不吃厚味，不饮烈酒，厚味与烈酒是招致疾病的祸根。饮食能有节制，身体必然没病没灾。饮食的原则是，不要有饥饿的感觉，但也不要吃得太饱，这样五脏就会安适。一定要吃可

Flowing water will not become rancid and the rotational door-hinge will not develop moths if it is in use constantly. In this respect, both the body and this vitality are somewhat the same. If the body is motionless, the vitality will become stagnant. When the vitality is stagnant, it will become blocked. When it is blocked in the head, it will be followed by headache or even gout; when it is blocked in the ear, it will be followed by hardness of hearing or even deafness; when it is blocked in the eye, it will be followed by bad eyesight or even blindness; when it is blocked in the nose, the nose will be bunged up; when it is blocked in the belly, the organs will become swollen; when it is blocked in the foot, the foot will become numb or even lame.

If the water of an area is short of salinity and minerals, it is common for the local people to have baldness or throat diseases; if the water of an area contains too much salinity and minerals, it is common for the local people to have foot diseases or numbness; if the water of an area is sweet, the local people are normally good-looking; if the water of an area is pungent, it is common for the local people to have sores or muscle spasms; if the water of an area is bitter, it is common for the local people to be pigeon-chested or humpbacked.

Do not eat food too spicy or drink wines too pungent. Overly spicy food and overly pungent wines are main causes of all kinds of diseases. Keep a moderate diet, and all kinds of diseases can be avoided. Stick to this rule for eating: make sure that you are not hungry, but do not eat too much. Thus, all the internal organs will feel comfortable. Eat good

今世上卜筮祷祠，故疾病愈来。譬之若射者，射而不中，反修于招，何益于中？夫以汤止沸，沸愈不止，去其火则止矣。故巫医毒药，逐除治之，故古之人贱之也，为其末也。

如今社会上流行占卜祈祷，疾病反而增多。如同射箭的人不能射中靶子，却去修整靶子，这又能有什么帮助呢？把热水加进沸腾的水里使水停止沸腾，水越发沸腾不止，撤去下面的柴火，水自然就停止沸腾了。所以，用巫医、药物驱鬼治病，是被古人所轻视的，因为这样做只是舍本逐末。

Nowadays, augury and praying prevail, but people suffer from more and more diseases. That is akin to repairing the target if one misses it in shooting. Will it be of any use if this is the case? Pouring hot water into the pot, it will boil over. The best way to prevent boiling should be to stop stoking the stove. Hence, the curing of illnesses with magic methods or poisons were condemned by people of ancient times, as that was nothing but attending to trifles and neglecting the essentials.

3. On Cultivating One's Own Mind First

Once Tang asked Yi Yin, "If I want to put the world in order, what shall I do?" Yi Yin said, "The world cannot be put in order even though you are committed to that goal. And if you really want to put the world in order, the thing you should start with is to cultivate your mind." If you want to achieve any goal, you should start with cultivating your mind. Get rid of the stale and take in the fresh in the meantime, thus, all the veins of the body can become smooth. enjoy your life. Whoever can do that really knows the meaning of life.

Sage sovereigns of ancient times were committed to cultivating their minds. They were able to govern the world since they were able to cultivate their own minds, and when their minds were well cultivated, the world was put in order as well. Therefore, whoever is good at making sounds will concentrate on improving the sound source instead of the resonance. Whoever is good at making images will concentrate on designing substantial figures instead of paying too much attention to the shadows. And whoever is good at governing the world will concentrate on cultivating his mind instead of paying too much attention to the world. So it is said in *Shijing*, "Upright and sensible people will behave decently and correctly. Thus they can set good examples for the rest of the world." It shows that one should earnestly practise what he advocates. Therefore, if a sovereign is committed to Tao, his self-improvement can be perfected step by step. If he practises the principle of righteousness in person, the rest of his state can become perfect. People of his state will be kind if he himself behaves according to the principle of righteousness. And if he sticks to the principles advocated in Tao, court officials will administer perfectly and tens of thousands of people will benefit from it. The crucial factor in realizing these three above-mentioned goals is to let things take their own course and not to take any action to intervene. That is "acting in accordance with the rules of Heaven". Letting things take their own course means nothing

夏后启与有扈部落在甘泽交战，没有取胜。六位大臣请求再次作战，夏后启说：“不行。我的领土并不小，民众也不少，但却没能取胜，这是由于我的德行太浅薄而且教化不善的缘故。”于是他的居处不用两层席，每餐只吃一样菜，琴瑟、钟鼓等乐器统统被撤掉，不修饰打扮自己的子女，侍奉双亲，敬爱长者，尊重贤者，任用能人。一年之后，有扈氏就归服了。因此，想要战胜别人，首先要战胜自己；想要评判别人，首先要评判自己；想要了解别人，首先要了解自己。

King Qi of the Xia Dynasty led his troops to attack the You Hu People at Gan Ze but could not conquer them. The six powerful high-ranking court officials asked him to launch another attack. However, King Qi said, "No. We should not do that. My territory is not small, and my soldiers are not outnumbered by the enemy. 孔子谒见鲁哀公，哀公对他说：“有人告诉我说：‘治理国家，身处朝堂之上就可以治理好了。’我认为这话太迂阔了。”孔子说：“这不是迂阔之言。我听说，自身有修养的人，就能够赢得别人；自身没有修养的人，就会失掉民心。足不出户就能把天下治理好，这恐怕只有懂得进行自我修养的国君才做得到吧！”

if you were weaving silk fabric." Confucius said, "Whoever really understands the meaning of this sentence is qualified to govern the world." Zigong asked, "Why do it in such a hurry?" Confucius said, "Not so. It does not have anything to do with hurry. If you weave the silk by hand, all the patterns will become apparent. So, sages cultivate their minds and as a result, the whole world can be put in good order." Therefore, Viscount Huazi said, "If a huge hill comes into being, cave dwellers would feel safe. If a huge abyss comes into being, fishes and turtles living in it would feel safe. If pine trees had grown fully, travellers would have a place to sit down for a rest."

When Confucius was interviewed by Duke Ai of the state of Lu, the duke said, "Someone has told me that 'the state can be very well organized without walking out of the court hall'. But I think that's an impractical argument." Confucius said, "No, that is not an impractical argument. As far as I know, a cultured sovereign can win over his people and on the other hand, an uncultured one will lose the support of the people. Perhaps only those cultured sovereigns can put their states in order without going out of the court hall."

4. The Correct Way of Judging Others

什么是求诸自身？就是要使耳目的欲望适度，节制嗜欲，放弃智巧，摒除伪诈，让意识在无限的空间里遨游，让心思在无为的境界中驰骋。这样就不会伤害生命的天性了。生命的天性不受到伤害，就能知道事物的精微之处；知道事物的精微之处，就能懂得玄机；懂得玄机就叫得道。天下万物得道而后才能生成。因此，懂得道，就能够与物变化，就会变得阔大精深，不可测度。德行就会如同日月一般明丽美好，而且不可止息。豪杰就会随时到来，远方的人都会宾服，不可阻止。精气畅通，无所束缚，不可拘牵。所以懂得了道，就会返朴归真，嗜欲易于满足。有节制地摄取养身之物，就不会受外界支配。超脱世俗，怡然自乐，内心洁白，就不会受到任何污染。威武不能使他恐慌，威严不能使他惊惧，他不向任何人与事屈服。所以懂得了道，就会举止合宜，与时

be farther away from him. If he looks for Tao with great exertion, it will be apart from him.

What does resorting to oneself mean? It means that a sovereign should enjoy moderate programs of entertainment, restrain his lusts and avoid tricks and double-dealings. Thus his consciousness can expand all across the universe, his will can be in harmony with the nature, and nothing can pose any damage to the innate nature of life any more. If the nature of life cannot be damaged, he will know the subtleties of the world. If he knows the subtleties of the world, he will understand the most profound theories. If he understands the most profound theories, he will master Tao. And everything of the world can be created only when it has obtained Tao. Therefore, if Tao is mastered, he will acclimatize to the ever-changing situation. As a result, he will become profound. Thus, it is certain that he will be as virtuous as the sun and the moon. Outstanding people will be drawn to him and people from remote areas will submit to his authority. This, too, is certain. His vitality will circulate well and will not be impeded by anything. So, if he has obtained Tao, he will lead a very simple life, so all his wishes will be easily fulfilled. If he takes nutrients moderately, external factors will no longer affect him. He will live a refined life, become clear and upright, and will not be confined by custom. He will not pay attention to any power that might threaten him or any force that might aim to terrify him. Thus, he will not yield to anyone or anything else. So, when Tao has been obtained, he will acclimatize to the ever-changing situation to take the right

action at the right time, so he will never become flustered. He will behave correctly, decently and act according to the principles of common sense, and will not be frustrated. He will express himself logically and thoroughly and everyone will be persuaded by his opinions, so his orders will become irrevocable. He will be perspicacious in telling sensible people from the base ones and as a result, the sensible will be used and the base discarded, and he will not be cheated by anyone. So, if he has obtained Tao, he will be as capable as Heaven and Earth. What kind of goals will be unreachable? What kind of things will not comply with his orders? That is somewhat the same as driving a cart. If the driver knows how to manipulate the horse correctly, it will run swiftly and the cart will appear to be much lighter than it really is. Thus he can cover a long distance in a short time but will not feel tired even though he has not stopped for a meal during the journey. In ancient times, sovereigns who had been toppled blamed others for the problems encountered by their states; every day they would execute people and did not realize the real reason for those problems even after their regimes were overthrown. On the contrary, founders of the Xia Dynasty, the Shang Dynasty and the Zhou Dynasty blamed only themselves for problems, so they worked hard to rectify them and as a result, they accomplished great success and unified the world.

People can always be judged by whom they respect when they are influential; what kind of person they recommend when they are powerful; what kind of person they support when they are wealthy; what kind of action they will take after they promise to do something; what they will do when they are at leisure; what kind of beliefs they hold when they are close to and trusted by the sovereign; what kind of offers they will reject when they are poor; what kind of things they will refuse to do when they are powerless. So, provoke them to examine whether they will stick to the standard of integrity when they are happy; prod them to examine whether they will commit corruptive actions; irritate them to examine whether they can control their feelings; terrify them to examine whether they are strong-minded or not; sadden them to examine whether they are kind or not; get them into trouble to examine their ideals. These are the "eight ways of observing and six ways of examining". Sage sovereigns use these above-mentioned methods to judge others. People should also be judged by six kinds of relatives and four kinds of hidden factors. Father, mother, elder brother, younger brother, wife and children are the six kinds of relatives. Friends, acquaintances, villagers and people with whom they consorted are the four hidden factors. 5. The Round Principles

The principle of Heaven is round and that of Earth is square. A sage sovereign will establish the order between himself and the court officials according to the two principles. Why is the principle of Heaven round? Yin is ascending and Yang is descending, they travel ceaselessly in circles, so the principle of Heaven is round. Why is the principle of Earth square? Everything of the world is different both in shape and in function. Therefore it cannot be replaced by anything else. So, the principle of Earth is square. The sovereign should take control of the "round" and officials should act according to the "square", and only when both the "round" and "square" are in order can the state become prosperous.

A day plus a night is a circle, and that is in accordance with the principle of the round. Moving from the Zhen to the Jiao, the sun passes over all the twenty-eight constellations and then repeats the cycle from the Zhen all over again in accordance with the principle of the round. The vital energy moves constantly during all the four seasons of a year, Yin upwards and Yang downwards to meet each other in accordance with the principle of the round. Various life

Everyone has nine apertures, and if one of the nine is blocked, the rest of them will become empty. If they have been empty for a long time, that person will die. So, when one listens to the other after he has responded during a talk, the act of responding stops. Similarly, when one observes the other while he is listening to him, the act of listening stops. If Tao is expressed with words, Tao will not stop; if it is stopped by force, it will disappear anyway in accordance with the principle of the round. Tao is the most valuable and wonderful thing. the foundation of everything in the world. A sage sovereign will follow it to maintain the innate nature of life, safeguard the throne and issue edicts. After edicts are issued, officials will implement them day and night all over the state, and feedback on their enforcement will be reported to the sovereign himself in accordance with the principle of the round. If the edicts are in accordance with the principle of the round, then everything, good or bad, suitable or unsuitable, will be transparent. Thus the sovereign cannot be detached from reality. If the sovereign is not detached from reality, his rules will become unobstructed. Therefore, edicts are methods used by a sovereign to fulfil the will of Heaven. However, some sovereigns are sensible but others are unworthy, so some states are safe but other states are in danger. Human beings all have legs and arms. Human beings can control them because they encounter external objects with sentience ; without sentience, they cannot be controlled. The relationship between a sovereign and his court officials is somewhat the same. If the officials do not carry out the sovereign's edicts, the sovereign cannot implement them either. Having disobedient officials like that is no better than having none at all. As for sovereigns, they should be able to command people who are not their subjects. For instance, Shun, Yu, Tang and King Wu are all sovereigns of this kind.

Ancient kings appointed high-ranking officials according to the principle of the square. Thus, the role of every position was fixed so that none of the officials could manage to hide them from reality. Yao and Shun were sensible

sovereigns. Instead of appointing their own offspring as inheritors of the throne, they devolved the authority over the world to sensible people. That was in accordance with the principle of the square. However, contemporary sovereigns are afraid of losing their authority, so they all want to devolve the throne to their own offspring. That is against the principle of the square since it is destroyed by selfish desires. Why? Because they are overly rapacious and near-sighted. When the Five Notes are played, the sound is harmonious because every note plays a fixed role in it. The function of Gong, Zhi, Sang, Yu or Jue is clear, well established and harmonious, so they will not conflict with each other to make a cacophony of noise. A sage sovereign will also appoint court officials that way. Make sure that they will perform their duties assiduously and carry out tasks well. If they all serve the sovereign that way, the safety of the throne can be secured. If a sovereign governs a state this way, there is no state that cannot be put in good order. If he pre-emptively troubles this way, no trouble will occur.

The representative creatures of this time are birds. The note is Zhi (Zhi is "5" in numbered musical notation). The corresponding pitch is Zhong Lü (#F). The number is seven. The corresponding flavour of this time is bitterness. The smell of it is like burning. At this time, a sacrifice is held in the kitchen and the main offering should be animal lung. Mole crickets begin to sing. Earthworms come out of the ground. Sweet melons germinate. And lettuces begin to bloom. The Son of Heaven stays in the room located at the left end of the south-facing hall (it refers to the orientation of the Element of Fire) named "Ming Tang". Three days before the Beginning of Summer, the chief court historian reports to the Son of Heaven, "The Beginning of Summer comes on that day and the Main Element from then on should be Fire." The Son of Heaven then starts to fast. On the day of the Beginning of Summer, the Son of Heaven leads dukes, high-ranking court officials and sovereigns of all feudatories to welcome the summer on the southern outskirts of the capital. After that, he rewards the officials and confers ranks and fiefs, so they are happy. Musicians are ordered to rehearse magnificent tunes. The minister in charge of military affairs is ordered to recommend outstanding, able and robust people. Salaries and positions offered are appropriate for the ranks of the recipients.

Do not impede or damage the growth during this month. Halt all large-scale constructions. Do not use excessive labour for any undertaking. Do not chop down big trees.

During this month, the Son of Heaven wears robes of linen. Officials in charge of the mountain forests are sent to inspect the fields, encourage farmers to work assiduously and ensure that the best seasons for farming will not be missed. Herbs of medical use are collected and stored during this month. Weeds start to wither, and barley is ripe. Insignificant lawsuits are handled and criminals with minimal convictions are set free. After cocoons have been harvested, the queen and concubines of the Son of Heaven present them to the state. Taxes on cocoons are levied on the basis of how many mulberry trees one has. Everyone, powerful or powerless, young or old, pays taxes according to this rule. The silk collected by the government is used to make ceremonial robes.

The Son of Heaven holds a banquet for the court officials and they enjoy performances together.

If suitable edicts are issued, proper rains will come three times during this month. If edicts of the autumn season are issued during the first month of summer, heavy rains will come frequently, then crops cannot grow well, and people of the remote areas are likely to take refuge in the capital. If edicts of the winter season are issued, plants will wither prematurely and flood will follow, which could destroy cities and fortifications. If edicts of the spring season are issued, there will be a plague of pests and severe storms. As a result, plants will develop flowers but not bear any seed or fruit.

按照先王的教导，没有什么比孝更荣耀的，没有什么比忠更尊显的。忠与孝是作君主、作父母的最希望得到的。荣耀与尊显是作子女、作臣下的最愿意得到的。然而，作君主、作父母的却得不到他们所希望的；作子女、作臣下的却得不到他们所向往的，这是由于不懂得理义的缘故。而不懂得理义，是由于不学习的原因。如果求学的人师承的先生通达而且自己又有才华，我没听说过这样的人不会成为圣人。只要有圣人，天下就会太平。圣人在右边，右边就会重于天下；圣人在左边，左边就会重于天下。因此，古代圣明的君主没有不尊重老师的。尊重老师就不会计较他们的贵贱与贫富。这样，名号就会显达，德行也会彰明。所以，老师施教的时候，也不计较学生的轻重、尊卑、贫富，而是看

2. An Exhortation on Learning

According to ancient kings, nothing is more honourable than complying with the principle of filial piety and nothing is more respectable than loyalty. Loyalty is the most cherished virtue of the court officials, so it is sought after by sovereigns, and filial piety is the most cherished virtue of children, so it is sought after by parents. Fame and honour are the two most cherished ideals of children and court officials. Nonetheless, neither the sovereigns' nor the officials' desires can be realized; neither the parents' nor the children's wishes can be fulfilled, if they are ignorant of those principles. They are ignorant because they do not spend any time learning them. Suppose one has an erudite teacher and he himself is talented, he would surely become a sage. The whole world will be at peace if there are sages in existence. And given the help of the sages, any regime, whether in the east or the west of the world, can become the most powerful in the world. Therefore, sage sovereigns of ancient times would pay much attention to their teachers. Paying attention to teachers means that anyone of knowledge, whether he is powerful or powerless, wealthy or poor, will be treated with the highest respect. As a result, sovereigns of this kind will become famous and their virtues will be popularized as well. As for the teachers, they should not pay any attention to factors such as whether their pupils are powerful or powerless, rich or poor, whether they come from

a family with noble background or from a common family. The only thing that should matter to the teachers is whether their pupils are really capable of mastering what they are to be taught. If a pupil is worth teaching, he can reach any goal he set and can obtain everything he pursued when being directed by a sage—his teacher. The only way to become a sage is to study hard. No one can become a famous, erudite scholar without first studying hard. And one can only study hard when he respects his teacher. Only when the teacher is respected and honoured can his words be followed and his principles accepted. So, a teacher who would visit pupils voluntarily and force them to learn can not educate the pupils successfully. On the other hand, a pupil who invites the teacher to his home to teach him will not listen to the teacher's instruction. A self-contemptuous teacher's pupils will not follow his instruction. A pupil who looks down on his teacher will not follow the teacher's instruction either. Suppose that a teacher were to take measures to popularize his teachings by force in the hope that all his instruction would be followed, would that be possible? (Of course not.) On the other hand, if a pupil's mind is impenetrable, he does not follow his teacher's instruction and does everything according to his own will, but still hopes to become famous and free, it is somewhat like pursuing fragrant smells with something rancid hidden in one's clothes, or like jumping into the water on purpose despite a hatred of being soaked.

will be accepted and remembered by the pupils, instead of endearing himself to them and catering to their interests. However, most contemporary teachers do not know the correct teaching method. Contrarily, they tend to cater to their pupils' interests. That is somewhat like weighing down a drowning person with a big stone to make him sink deeper into the water even though you intended to rescue him, or like prescribing a deadly poison to a patient even though you wanted to cure him. Of course, that will only make things worse. The unworthiness of those muddle-headed sovereigns is caused this way. Hence, for teachers, it is of crucial importance to stick to these fixed principles, and the advocacy of morality and justice comes next in importance. As long as the principles are adhered to and morality and justice are well established, teachers will be respected. Thus, no one, neither dukes nor high-ranking officials, will dare look down upon them, and even the sovereign himself will treat them with respect. The relationship between teachers and pupils is not always harmonious. If a teacher discards the fixed principles, and overlooks morality and justice to pursue impracticable goals, but still wishes to be respected, will this be possible? A teacher can be respected and honoured only when he adheres to the fixed principles and practises morality and justice in person.

treat his teacher as if he were his parent. Once Zeng Dian sent Zeng Shen out to do some business, but he did not return when he was due to. Everyone told Zeng Dian, "He might have had an accident." Zeng Dian said, "Even though he could have had an accident, how could he dare to die when I am still alive?" When Confucius was confined to Kuang, Yan Yuan arrived later. Confucius said, "I thought you might have lost your life." Yan Yuan said, "You are still alive, so how dare I die?" Yan Hui treated Confucius the same way Zeng Shen treated his father. Sensible people of ancient times respected their teachers so much that their teachers would try their best to teach them.

3. On Respecting Teachers

Shen Nong learned from Xi Zhu. The Yellow King learned from Da Nao. Zhuan Xu learned from Bo Yifu. Di Ku learned from Bo Zhao. Yao learned from Zizhou Zhifu. Shun learned from Xu You. Yu learned from Da Chengzhi. Tang learned from Xiaochen. King Wen and King Wu learned from Lü Wang and Duke Zhou Dan. Duke Huan of the state of Qi learned from Guan Yiwu. Duke Wen of the state of Jin learned from Jiu Fan and Sui Kuai. Duke Mu of the state of Qin learned from Baili Xi and Gongsun Zhi. King Zhuang of the state of Chu learned from Sun Shu'ao and Shen Yinwu. He Lü of the state of Wu learned from Wu Zixu and Wen Zhiyi. Gou Jian of the state of Yue learned from Fan Li and Wen Zhong. All these ten sages and six sage sovereigns

的人们地位不如帝那样尊贵，才智不及圣人，却不想尊敬老师，这样怎能获得帝位、成为圣人呢？这是五帝、三王的大业不可再现的原因。

况且，上天创造了人，使他的耳朵能听，如果不学习，他能听见还不如聋子听不见为好；使他的眼睛能看，如果不学习，他能看见还不如瞎子看不见为好；使他的口能说话，如果不学习，他能说话还不如哑巴不能说话为好；使他的心可以认知事物，如果不学习，他能认知事物还不如狂乱无知为好。所以，学习并不能给人增添什么，而只是使人通晓天性。能保全上天所赋予的本性而不使它受到伤害，就叫善于学习。子张出身于鲁国地位卑微的人家，颜涿聚本是梁父山上的大盗，他们跟随

treated their teachers with respect. As for contemporary sovereigns, they are not as powerful as the ten Sons of Heaven, nor are they as sage as these six sovereigns. Nevertheless, they still do not pay attention to teachers. How can they unify the world or become sages? None of them can match the achievements of the Five Di Ancestors or the Three King Ancestors.

In addition, it is Heaven that created human beings. And human beings have been created this way: they are born with ears so that they can hear, but if they do not pursue knowledge with the help of their hearing, they are no better than the deaf even though they can hear; they are born with eyes so that they can see, but if they do not pursue knowledge with the help of eyesight, they are no better than the blind even though they can see; they are born with mouths so that they are capable of speaking, but if they do not pursue knowledge with the help of language, they are no better than the mute even though they can speak; they are born with hearts so that they can perceive things, but if they do not pursue knowledge with the help of cognition, they are no better than the maniac even though they have intelligence. Hence, learning is not a way to gain talents. On the contrary, it is a way for human beings to master the innate nature of life. People capable of sustaining the innate nature of life and preventing its impairment can be described as "good at learning". Zizhang was born of an ordinary family in the state of Lu, Yan Zhuoju was a notorious robber of Liang Fu, and they had both learned from Confucius. Duangan Mu

孔子学习。段干木是晋国的大市侩，曾经向子夏学习。高何、县子石本是齐国凶恶残暴的人，被乡里人所指责，他们曾经向墨子学习。索卢参的狡诈在东方是出了名的，他曾经向禽滑黎学习。这六人本来都是应该遭到杀戮、蒙羞受辱的。如今不但免遭杀戮与耻辱，而且成为天下名声显赫的人士，享尽天年，并且受到王公大人的礼遇，这都得益于学习。

凡是学习，都务求增进学业，使得心中没有疑惑。要努力诵读，经意自己所聆听到的教诲，看到老师心情欢愉的时候，请教书里的意思，要让老师感到自己顺耳顺眼，不要违背老师的心意；课下认真琢磨老师的教诲，探求老师教诲的含义，时时辩论来明了老师所说的道理，不要苟且巧辩，学习要得法，有所获也不自夸，有所失也不自惭，一定要回到天赋的本性上来。

was a famous broker from the state of Jin, and he had learned from Zuxia. Gao He and Xuan Zishi, bandits from the state of Qi, were condemned by the people of their hometown, and they had learned from Viscount Mozi. Suo Lucan, a notorious cheat from the east, had learned from Qin Huali. These six people deserved execution and humiliation. However, not only were they not executed, but they became very famous and enjoyed their time till the end of their lives. Moreover, even the most powerful sovereigns, dukes and high-ranking officials treated them with respect. The honour and fame they received consisted in their abilities in learning.

Regarding the pursuit of knowledge, pupils should endeavour to make as much progress as possible in getting rid of doubts and suspicions. Therefore, they should study hard, pay attention to lessons, ask questions when appropriate to master the meaning of the text, make themselves amenable to the teacher and should not act against his will. They should review the teachings after class to make certain that everything is understood. They should also discuss the lessons with fellow students to ensure comprehension. They should not engage in sophistry but should master the correct, effective way of learning instead. They should not be proud of themselves even though they have made much progress, nor should they feel too sorry even though they have transgressed. Thus, they can maintain the innate nature.

Teachers should be treated with respect when they are alive. Treating teachers with respect means to preserve their health. And they should also be treated with respect after

世后要恭敬地祭祀，恭敬祭祀的原则就是要符合四时的节令。这是尊重老师的做法。为老师修整果蔬园，及时浇水，致力于种植树木；织草鞋，编结捕捉野兽用的网，捆绑蒲苇；到田野里辛勤耕耘，种植五谷；到山林、河川、湖泽捕捉鱼鳖，猎取鸟兽。这是尊重老师的做法。检查老师的车马，小心驾驭；使老师的衣服适宜，又轻又暖；置办老师的饮食，一定要清洁；调和五味，一定要甘甜肥美；对老师要恭恭敬敬，和颜悦色，言辞审慎；（在老师面前）要合乎礼节地小步快走，态度要严肃。这是尊重老师的做法。

君子学习，谈论道义一定要称引老师的话来加以阐明，听了老师的教诲一定要尽心竭力地发扬光大。听从教诲后不尽心竭力地发扬它，就叫“背”；谈论道理而不称引老师的话加以阐明，就叫“叛”。有背叛行为的人，贤明的君主不接纳他们在朝廷为官，君子不跟他们交朋友。因

death. That means that deferential ceremonies in their honour should be held at times throughout the year. These are the correct ways to respect teachers. Treating teachers with respect means helping them to cultivate gardens, irrigate plants, and grow trees. Treating teachers with respect means helping them in everyday life to weave straw shoes, knit nets and bind up cattails and reeds. Treating teachers with respect means to help them do the farm work such as tilling the field and growing crops. Treating teachers with respect means to help them catch fish and turtles in rivers or lakes, hunt birds or animals in mountain forests. Treating teachers with respect also means to examine their carriages and horses for them before they take a leave, to make sure that their clothes are light, comfortable and warm, and to prepare their food and drink and make sure that they are clean, healthy and delicious. Treating teachers with respect means pupils minding their manners in their presence, being humble, behaving decently and taking matters seriously. These are the ways to treat teachers with respect.

Therefore, when sensible people discuss morality and justice with others, they should always cite the teachings of their teachers and explain them true to reality. They should not only follow the teachings but also try their best to disseminate them. Whoever fails to spread his teacher's knowledge should be regarded as a traitor. Whoever does not cite his teacher's knowledge should be regarded as a cheat. Traitors and cheats are so contemptible that wise sovereigns will not appoint them to any position, and upright people will

not make friends with them. So, teaching is the most benevolent profession and study is the most important measure for disseminating morality and justice. Nothing could be more benevolent than providing benefits for others, and among all benevolent activities, nothing could be more important than teaching. Among all wise activities, nothing could be more meaningful than cultivating one's mind, and in cultivating one's mind, nothing could be more important than learning.

If a son has cultivated his mind successfully, he can be a dutiful son even though the parents have not ordered him to be so. If a court official has cultivated his mind successfully, he can be a loyal official even though the sovereign has not ordered him to behave this way. Similarly, if a sovereign has cultivated his mind successfully, he can be a disinterested sovereign even though he is not forced to be so by anything or anyone else. Among sovereigns of this kind, the one under the most favourable circumstances might also be able to unify the whole world and put it in good order. So, when Zigong asked Confucius what kind of person he would be seen as by later generations, Confucius said, "I am not worthy of future generations' admiration at all. However, if they must say something about me, I hope that they will consider me to be a good learner who never stopped learning during his lifetime, and I also hope that they will consider me to be a good teacher who never stopped teaching during his lifetime. That is all." So, when the Son of Heaven goes to the National College to hold a ceremony in worship of Confucius, he does not

consider those who have taught him to be his inferiors. That is a good example of the respect for teachers.

4. On Misleading Pupils

Excellent teachers are capable of making their pupils even-tempered, pleasant, kind, sociable, earnest and decent. If all these virtues can be realized by teaching, all kinds of corruption and misdeeds can be prevented, and morality and justice will prevail. On the contrary, if they cannot be realized, disorder will prevail—the sovereign cannot control his officials, fathers cannot control their children, and teachers cannot control their pupils. According to human nature, they will not be pleased with things which threaten them, nor can they learn anything from things in which they have no interest. If doing something can make a person happy, the sensible people as well as the unworthy will do it; if doing something will make one unhappy, neither sensible people nor the unworthy will wish to persevere. By scrupulously examining human nature, you will understand what it means to encourage others to pursue knowledge. Viscount Huazi said, "Sovereigns being able to unify the world would do things helpful for them to unify the world voluntarily. Contrarily, sovereigns who are going to be overthrown and whose states will be ruined would do things leading to perdition willingly as well. So, it is not necessary to eat the whole animal you cooked. You can just enjoy the good meat." Nonetheless, sovereigns able to unify the world

不善于施教的人，他的心志不和谐，取舍多变，没有恒心，喜怒如同天气一样阴晴无常；言谈一天一个变化，率性而为；自己有了过失，却不肯自我批评，刚愎自用，不肯悔改；看到有权有势以及富有的人，不衡量他们的才能，不考察他们的德行，就急忙赶去施教，阿谀奉承，唯恐不及；对于学生中素有操守、品貌出众、见识广博、学习勤奋、才思敏捷、即将完成学业的，却进行压制、诘难，妒嫉、厌恶他们。学生想要离去却又希望完成学业，留下来会惶恐不安，回到家又感觉愧对父母兄弟，出门羞于见到挚友乡亲，这是求学的人的悲哀，而这是由于师徒之间离心离德造成的。按照人之常情，人们讨厌跟自己不投合的人，这是师徒之间

are interested in morality and justice, but those who are going to be overthrown and whose states will be ruined will indulge in corruption and abuse. So, some experience good fortune, but others are doomed to suffer from misfortune.

Unqualified teachers are not even-tempered. They change their minds frequently and do not have any tenable goals. They are capricious and very difficult to get on with. Their opinions change every day and they will act impetuously. They do not feel remorse or regret when they have acted wrongly. They are so perverse that they will not listen to any other ideas at all. When they encounter the wealthy and powerful, they will teach them whatever they wish without taking any investigation to know what kind of people they really are or how intelligent they are. They will then do their best to flatter them. However, out of pure envy, they will do anything to hold back, perplex and hinder the upright, outstanding, well-read and intelligent pupils who are about to finish school. These pupils will want to leave but will be afraid of not having finished school completely. On the other hand, they will not feel comfortable to stay any longer, and will be ashamed of returning home to face their parents and relatives, and will be too embarrassed to meet their close friends. That is what is tragic to the real scholars. This tragedy takes place because teachers and pupils are at odds with each other. According to the human nature, they will not like those who are different from themselves. Therefore, teachers and pupils are hostile towards each other. And it is also natural that they will not want to be close to those whom

结下怨恨的原因。按照人之常情，人们不会亲近自己所怨恨的人，不能称颂自己所憎恶的人，学业败坏、道义废弃的情形，就因此而产生了。善于施教的老师就不是这样。他们对待学生如同对待自己一样，设身处地加以施教，就能符合教育的真谛。他们要求学生做到的，自己一定能够做到，这样师徒就会同心同德。按照人之常情，人们喜爱与自己心志投合的人，称颂与自己志趣相同的人，帮助与自己同属一类的人，学业的彰明、道义的弘扬就由此产生了。

不善于学习的人，不用心跟老师学习，却想学得精通；跟老师学习浅尝辄止，却想学得深入。草木、鸡狗、牛马都不可粗暴地对待，如果粗暴地对待它们，它们也会粗暴地报复人，又何况对待通达事理的老师和有道义的教诲呢？所以，不善于学习的人，对待老师不忠诚，用心不专一，钻研不深入，学习不勤奋，辩论不透彻，用老师的教诲去教导别人也表述不精确；抱怨老师，安于凡俗，心神被事务羁绊；自恃权势，行

they find distasteful, nor can they praise those whom they hate. As a result, learning cannot be accomplished, and morality and justice will be overlooked. Teachers who really are capable and qualified for their work are not the same. They will treat their pupils the same way they treat themselves. They often introspect themselves, so they will not demand their pupils overly and incorrectly. They know the correct teaching methodology, so they will treat their pupils equally and fairly according to the rule of "do to others as you would have done to yourself". As a result, they and the pupils can be of one heart and one mind. According to the human nature, they love, praise and help those who are similar to themselves. Thus, pupils can fulfil their learning, and morality and justice can be popularized.

As for pupils who are not good at learning, they study everything half-heartedly but still hope that they can master all teachings. They do not study intensively but still hope that they will become savants. Even plants, chicken, dogs, cows and horses should not be treated too badly, otherwise they will retaliate. How should people treat the excellent teachers and deal with the teachings on morality and justice badly? So, as for pupils who are not good at learning, they are not loyal to their teachers or committed to learning. They do not study hard, do not concentrate on learning or research questions deeply and thoroughly, and cannot discuss questions logically; nor can they express themselves correctly or make themselves understood when they are trying to recite their teachers' teachings in order to teach others.

Nevertheless, they blame their teachers for these problems, and they themselves are fettered by external things. Thus they will pursue power and profits, will use deceit and will indulge in adverse desires and ambitions. When they set forth some questions, their viewpoints are incongruous. When they try to express their views, their arguments are illogical; when they try to express themselves succinctly, their arguments are found tortuous; when they analyze some things related to each other, they do not know how to synthesize them; when they study the overall situation, they do not know how to analyze it. Nor can they face reality when something new comes into being. These are the problems normally encountered by those who are not good at learning.

5. On Making Good Use of the Masses

As for people who are good at learning, they will pursue knowledge intensively just like the king of the state of Qi eating chicken feet—he would not feel satisfied until he had eaten at least one thousand of them at one sitting. Moreover, if he was not satisfied with one thousand, he would have more if he wanted.

Everything in the world has both weak points and strong points. Human beings are the same. Therefore, those who are really good at learning will overcome their own weak points by learning from the strong points of others. Hence, people who can learn from the strong points of others can unify and take firm control over the world.

短。故假人者遂有天下。

故学士曰：“辩议不可不为。”辩议而苟可为，是教也。教，大议也。辩议而不可为，是被褐而出，衣锦而入。

戎人生乎戎、长乎戎而戎言，不知其所受之；楚人生乎楚、长乎楚而楚言，不知其所受之。今使楚人长乎戎，戎人长乎楚，则楚人戎言，戎人楚言矣。由是观之，吾未知亡国之主不可以为贤主也，其所生长者不可

的人，能借鉴别人的长处来弥补自己的短处。因此，善于借鉴别人长处的人就能够拥有天下。

不要把不能当作耻辱，不要把不知当作耻辱。把不能与不知当作耻辱就会陷入困境。不把不能与不知当作耻辱才是上策。即便是桀、纣尚且有令人敬畏的地方，有可取之处，何况贤人呢？

所以，有博学的人说：“辩论、评议是必须的。”可以进行辩论与评议，因为这牵扯到施教一事。施教就是要推行大义。而要推行大义就要进行辩论与评议。这样就能由无知变为有知，如同穿破衣服出门，却满身绸缎归来一样。

戎人生在戎地，长在戎地，说戎地的语言，自己却不知道是怎么学来的。楚人生在楚地，长在楚地，说楚地的语言，自己却不知道是怎么学来的。假如让楚人在戎地生长，让戎人在楚地生长，那样一来，楚人就说戎人的语言，戎人就说楚人的语言了。由此看来，我不认为亡国的君主不能成为贤明的君主，只不过是他们所生长的环境不允许罢了。

Do not feel ashamed if there is something you cannot do or something you do not know. Being ashamed because one is not capable of doing everything or knowing everything is foolish. On the other hand, it is wise to admit that there are things you cannot do and there are things you do not know. Even people like Jie and Zhou have some strong points, let alone the sensible and wise ones.

Hence, some erudite people have said, "It is always necessary to debate or discuss with others." Debate and discussion are necessary, and they both have something to do with teaching. And the purpose of teaching is to disseminate morality and justice. In order to disseminate morality and justice, debate and discussion are indispensable. Thus, ignorant people can become erudite, rather like going out in ordinary linen clothes but coming back in silk robes.

The Rong People are born in Rong, brought up in Rong and speak the Rong language. However, none of them knows how he can speak that language. The Chu People are born in the state of Chu, brought up in the state of Chu and speak the Chu language. However, none of them knows how he can speak that language. Given that a person born in Rong were brought up in Chu and another one born in Chu were brought up in Rong, then the person of Chu would speak the Rong language; similarly, the person of Rong would speak the Chu language. From this point of view, I think those unworthy sovereigns who have been toppled could have been sensible ones had they lived under the right circumstances. Hence, enough attention must be paid to the circumstances under

天下无粹白之狐，而有粹白之裘，取之众白也。夫取于众，此三皇、五帝之所以大立功名也。凡君之所以立，出乎众也。立已定而舍其众，是得其末而失其本。得其末而失其本，不闻安居。故以众勇无畏乎孟贲矣，以众力无畏乎乌获矣，以众视无畏乎离娄矣，以众知无畏乎尧、舜矣。夫以众者，此君人之大宝也。田骈谓齐王曰：“孟贲庶乎患术，而边境弗患；楚魏之王，辞言不说，而境内已修备矣，兵士已修用矣，得之众也”。

which one lives.

Not a fox in the world has white fur from head to foot. However, there are white fur coats because small pieces of white fur can be collected from myriad foxes. Therefore, the Three King Ancestors and the Five Di Ancestors accomplished magnificent achievements and gained great reputations by making good use of each person's strong points. Sovereigns who can establish their authority and take firm control over their states must have pooled the wisdom and strength of the masses. On the other hand, sovereigns who do not pay attention to their people any more once their powers are consolidated attend to trifles but neglect the essentials. If this is the case, their states will not be safe. So, if the prowess of the masses is mobilized, even the most robust person like Meng Ben can be defeated; if the strength of the masses is mobilized, even the strongest person like Wu Huo can be defeated; if the eyesight of the masses is mobilized, even the most perspicacious person like Li Lou can be defeated; if the wisdom of the masses is mobilized, even the wisest person like Yao and Shun can be defeated. So the mobilization of the masses should be the most powerful weapon of all sovereigns. Therefore, Tian Pian once told the king of the state of Qi, "We will not have any trouble on the border even though Meng Ben does not want to defend it. If the kings of Chu and Wei dare to speak rudely to us, our weapons are well deployed and our soldiers are well disciplined—they are ready to confront an enemy at any time since we can incite the masses."

这个月，天子就着雏鸡品尝黍子，要先将它们连同用作供品的樱桃一起敬献于祖庙。命令百姓不要割蓝草来染东西，不要烧木炭，不要晾晒布匹，不要关闭城门和闾门，不要在关口和集市征收赋税，给犯了重

During this month, the Son of Heaven orders court musicians to repair all drums, tune all instruments such as the *qin* (a seven-stringed plucked instrument), *se* (a twenty-five-stringed plucked instrument, which is somewhat similar to the zither), *guan* (pipe instrument), *xiao* (a vertical bamboo flute), *yu* (the *yu* pipe, an ancient music instrument), *sheng* (a reed pipe wind instrument), *xun* (an egg-shaped, holed wind instrument), *chi* (an ancient Chinese instrument made of bamboo), *zhong* (the bell), *pan* (the chime stone) and fasten all stage decorations such as the *gan* (a kind of shield), *qi* (a kind of axe), *ge* (a kind of spear) and *yu* (a kind of feather adornment). Officials in charge of the ceremonies are ordered to sacrifice deities of the mountains, rivers, valleys and plains. A significant fete is held in worship of god to pray for favourable weather, and a grand concert is given during it. The Son of Heaven then orders the chief officials of the counties located around the capital to arrange sacrifices in worship of deceased dukes and high-ranking officials who had benefited the common people and to pray for a good harvest in the meantime. Farmers present their newly harvested millet to the Son of Heaven.

During this month, the Son of Heaven eats the newly harvested millet along with chicken and berries after he has offered these things at the ancestral temple. Common people are ordered not to collect indigo plants to dye fabrics and make charcoal or bask textiles in the sun. Doors and gates of the capital and all the lanes should not be locked, and tolls should not be levied either at the border or in the markets.

这个月，不要在南边生火，可以住在高大明亮的房子里，可以登上山陵、高台眺望远方。

仲夏如果发布应在冬天实行的政令，冰雹就会伤害五谷，道路不能畅通，敌寇就会入侵。如果发布应在春天实行的政令，五谷就会成熟得很晚，虫害会时时发生，国家会遇到饥荒。如果发布应在秋天实行的政令，草木就会凋零，果实会过早成熟，百姓就会遭受瘟疫袭击。

Reduce penalties for ferocious criminals and improve the quality of their diet. Separate pregnant mares from the rest of the livestock. Hold a ritual for putting bar bits on the two-year-old horses. Declare the policy on breeding horses.

The Summer Solstice comes during this month. Yin and Yang compete for power. When the growth of a myriad of things has peaked, the course of decline starts. Gentlemen begin to fast. They live in seclusion. The surroundings in which they live must be quiet and they themselves should remain even-tempered. They should not have sexual intercourse or become addicted to decadent tunes. Nor should they enjoy appetizing, spicy food. They should relax, abstain from lust and await the outcome of the struggle between Yin and Yang. Deer shed their horns. Cicadas begin to sing. Ban Xia (a kind of herb which can be used to make medicine) starts to germinate. Hibiscuses begin to develop flowers.

During this month, do not build fires at places south of your house. People can live in tall and bright buildings, and they can also climb mountains, hills or platforms to view scenery in the distance.

If edicts of the spring season are issued during the second month of summer, hail will damage crops, roads will be blocked, and the state will be invaded. If edicts of the spring season are issued, crops will ripen late, locust damage will occur periodically and the state will also suffer from famine. If edicts of the autumn season are issued, plants will wither, fruit will ripen early, and common people will suffer from epidemic diseases.

二曰——

音乐之所由来者远矣，生于度量，本于太一。太一出两仪，两仪出阴阳。阴阳变化，一上一下，合而成章。浑浑沌沌，离则复合，合则复离，是谓天常。天地车轮，终则复始，极则复反，莫不咸当。日月星辰，或疾或徐，日月不同，以尽其行。四时代兴，或暑或寒，或短或长，或柔或刚。万物所出，造于太一，化于阴阳。萌芽始震，凝滞以形。形体有处，莫不有声。声出于和，和出于适。和适先王定乐，由此而生。

音乐的产生由来已久。它产生于度量，本源于道。道产生天地，天地产生阴阳。阴阳上下变化，互相结合而生成万物。浑浑沌沌，离了又合，合了又离，这就叫天道。天地像车轮一样转动，周而复始，物极必反，一切都恰到好处。日月星辰的运行，有快有慢。日月的轨道不同，都按各自的轨道运行。春夏秋冬交替出现，四季有寒有暑，白昼有长有短。万物有刚有柔，他们都以道为本源而且通过阴阳的结合化育而成。幼芽开始萌动，阴阳凝聚其中就具有了形体。有了形体就要占据一定的空间，而且都会发出声音。声音产生于和谐，和谐来自适度。先王正是本着和谐、适度的原则来正定音乐的。

2. The Magnificent Music

Music has a very long history. It is composed according to precise rules based on Tao. Tai Yi develops Two Yi. Two Yi develops Yin and Yang. Yin ascends and Yang descends constantly, thus, everything in the world is created by the interaction of these two forms of vitality. They exist in chaos. Sometimes they combine together, but at other times they are separate from each other, and this is the Tao of Heaven. Existing in an endless cycle of repetition, the universe is somewhat similar to a cartwheel. However, every one of its actions is apt. Among the sun, the moon and all other planets and stars, some move quickly but at others move slowly. The sun and the moon have different orbits and they both move in accordance with their own rules. The four seasons take their turn to come. Sometimes it is cold, but at other times it is hot. Sometimes the day is long, but at other times it is short. Some things are soft but others are hard. Nevertheless, all things of the world are based on Tao and generated by the cooperation of Yin and Yang. When the youngest shoot starts to germinate, Yin and Yang will condense inside it, and it can thus develop a form. And when it has a fixed form, it must also occupy some space and it can also make a sound. The sound can be euphonious only when it is harmonious, and euphony can be created only when it is moderate. Ancient kings gave their tunes harmony according to the rules of harmony and moderation.

Music can be composed only when the world is peaceful, various things are tranquil, and everyone follows the moral education advocated by the sovereign and submits to his authority. Regarding the composition of music, there is a prerequisite—first of all, one should contain his lusts. Only when one's lusts are well controlled can one be committed to music. One who wants to be committed to music must also remain even-tempered. Even temper is derived from disinterestedness. And disinterestedness is derived from Tao. Therefore, only those who really know Tao can discuss it knowledgeably with you when it comes to the topic of music. It is not that those ruined states or people awaiting execution do not have music. However, their tunes cannot make one feel happy. It is not that a drowned person will not laugh during his last minutes, criminals will not sing before they are executed or the mad will never dance. However, they are not doing so out of happiness. Music of troubled times is somewhat like that. Order between sovereign and court officials is in disarray, authority of fathers over sons is overlooked, honesty between husbands and wives is missing and common people groan because of their sufferings. Under such circumstances, how can they feel happy even though music is played?

Music is based on the harmonious relationship between Heaven and Earth, between Yin and Yang. Human beings are also creatures of Heaven, and that is beyond the limit of their own will. If wishes and lusts are innate characteristics conferred on them by Heaven, how can they resist the pursuit

最为优美的音乐是能够使得君臣、父子、老少都感到欢欣喜悦的。欢欣来自平和，平和来自道。道是看不见、听不到的，也没有固定的形状。有谁能够在看不见中看见什么，在听不到中听到什么，在无形中把握形体，那他就差不多懂得道了。道是最为精妙的，不能描绘它的形状，也不能给它命名，如果要勉强给它起个名字，就把它叫作“太一”。所以“一”是发号施令的，“两”是服从听命的。古代圣明的帝王舍弃“两”而取法“一”，所以能够把握万物的实情。因此，能根据“一”的原则临朝听政，就能使君臣快乐，远近和睦，百姓欢愉，宗亲和恰。能根据

of those desires? If hates and dislikes are also innate characteristics conferred on them by Heaven, how can they not circumvent that hatred? Wishes, lusts, hates and dislikes are all conferred on human beings naturally, and no one creates them by himself. This situation cannot be removed or changed at all. However, some scholars advocate banning music of all kinds. Is this kind of argument really warranted?

Great music can make all people—sovereigns or court officials, fathers or sons, young or old—pleasant and happy. Pleasantry and happiness are derived from peace and harmony. Peace and harmony are derived from Tao. Regarding Tao, it cannot be seen or heard, and it does not have any fixed shape either. Whoever can see where nothing objective is to be seen, can hear where nothing objective is to be heard, and can know shape in what is without form might understand Tao. Tao is the subtlest thing. No one can describe its shape or address it by name. If a name must be given, call it “Tai Yi” (or the Great One). “Yi” is the one who issues edicts. And “Two” are the ones who must follow and carry out these edicts. Sage sovereigns of ancient times would prefer “One” to “Two”, so they really knew the nature of everything. So, if a sovereign uses the principle of “Yi” to deal with government affairs, he can satisfy both himself and his officials, can harmonize the relationship between the near and the far, can provide benefits and happiness for the common people and can also get on well with every member of his clan. People who cultivate their minds according to the principle of “Yi” can dispose of all kinds of troubles, can

enjoy longevity and can also maintain the true nature of life. If a state is governed according to the principle of "Yi", the base and corrupt can be banished and replaced by the sensible to put the state in good order. If the world is governed according to the principle of "Yi", the four seasons will come on time, weather patterns will become favourable, and the governor himself will become a sage. Hence, if the importance of "Yi" is mastered, everything in the world can be mastered. On the other hand, if too much attention is paid to "Two", people will become mad.

3. The Decadent Tunes

People of the world live because they are conferred life. However, no one knows why he is conferred life. They can know things because each of them is conferred intelligence. However, no one knows why he is conferred intelligence. Whoever knows why he is conferred intelligence can be addressed as knowing Tao, and as for those who do not know why they are conferred intelligence, they should be considered as having lost the most precious of treasures. Those who have lost the most precious treasure must surely get into trouble sooner or later. Nowadays, it is usual for ordinary sovereigns to regard pearls, jade, daggers and swords as treasures. The more they obtain, the more their people are hostile towards them, the more their states are in danger, and the more their own safety is under threat. Thus the meaning of treasure is totally lost. Music of chaotic states

凡古圣王之所为贵乐者，为其乐也。夏桀、殷纣作为侈乐，大鼓钟磬管箫之音，以钜为美，以众为观，倣诡殊瑰，耳所未尝闻，目所未尝见，务以相过，不用度量。宋之衰也，作为千钟。齐之衰也，作为大吕。楚之衰也，作为巫音。侈则侈矣，自有道者观之，则失乐之情。失乐之情，

险，君主自身就越加危难，那样，宝贝就失去了本来的意义。乱世的音乐就属于这种情形。木制、革制乐器发出的声音如同打雷，铜制、石制乐器发出的声音就像霹雳，丝竹乐器发出的声音就像在吵闹。用这样的声音来震慑人的精神，震动人的耳目，摇荡人的性情还可以；但是它们作为音乐，就不能使人感到快乐。所以音乐越是奢靡，百姓就越加抑郁不乐，国家就越加混乱，君主的地位就越加卑微，这样也就失去音乐本来的意义了。

古代圣明的帝王之所以重视音乐，是因为它能使人快乐。夏桀、殷纣制作奢靡的音乐，鼓、钟、磬、管、箫等发出的声音，越大越美，乐器越多越壮观。乐曲奇异瑰丽，都是耳朵不曾听过，眼睛不曾看过的。他们追求奇特，不守法度。宋国衰微的时候，创作了千钟；齐国衰微的时候，创作了大吕；楚国衰微的时候，创作了巫音。这些音乐极尽盛大之能

is somewhat the same. Sounds made by wooden, leather, metal and stone instruments can be as ear-splitting as thunder, and those made by stringed and bamboo instruments can be as noisy as chaotic shouting. These kinds of sounds can be used to terrify others, disturb their hearing or stir up their feelings. However, they cannot be used to cheer the listeners or make them feel satisfied and happy. Hence, when a state's tunes become ever more decadent, its people will become more depressed, the state's order will be in disarray, and the sovereign's authority will be weakened day by day. Thus the meaning of music is also totally lost.

The reason that sensible and wise sovereigns of ancient times paid so much attention to music lies in the fact that music can make people feel happy. However, decadent tunes were composed during Jie's period of the Xia Dynasty and Zhou's period of the Shang Dynasty. The sound capacity of instruments were such as the drum, bell, chime stone, pipe and vertical flute was greatly enhanced, and the more deafening they were, the more they were cherished. The more instruments were produced, the better. So many strange tunes were created that it was without precedent in history. Rules were overlooked and as a result, oddity became the only standard of these periods. When the state of Song was on a track of decline, one thousand bells were created; when the state of Qi was on its track of decline, "Da Lü" was composed; when the state of Chu was on its track of decline, wizardly music was composed. These instruments and tunes were magnificent indeed. Nevertheless, from the

viewpoint of sensible people, they had lost the meaning of music. If the meaning of music is lost, the function of music will no longer be in existence. Therefore, this kind of music always fails to cheer up the people. A sovereign addicted to this kind of music will definitely incur the hostility of his people and as a result, his own life will be endangered. The relationship between life and decadent tunes is similar to that between ice and the scorching sun; the more one enjoys it, the more one will be hurt. The problem occurs because the meaning of music is overlooked and as a result, only the pursuit of extravagant instruments and decadent tunes is followed.

Music has soul rather the same as a human being—every person possesses not only a body but a disposition, so one should always take good care of himself. And in order to take good care of oneself, the extremes of these six immoderate factors—coldness, warmth, toil, leisure, hunger and gluttony—should be avoided. Taking good care of oneself means to recognize things immoderate and make them moderate and helpful to health again. Whoever can do that will enjoy longevity. Human beings are born with no desire or ambition. But they will develop sentience after external things affect them. Moreover, they can be controlled by external factors. If they are too addicted to these things and overlook the true nature of life, they will be enslaved by their own wishes and lusts and as a result, the nature of life will become totally lost. In addition, endless wishes and lusts will lead to corruption, abuse, and deceit amongst other

4. The Moderate Tunes

It is natural that the ear exists to hear euphonious sounds. However, if one is unhappy, he will not have any interest in the appreciation of music even though all the five notes are played together harmoniously in front of him. It is natural that the eye exists to appreciate beautiful colours. However, if one is unhappy, he will not have any interest in the appreciation of colour even though all the five colours are presented in front of him. It is natural that the nose exists to take pleasure in fragrant smells. However, if one is unhappy, he will have no interest in this fragranciness even though the finest aroma is present. It is also natural that the mouth exists to enjoy delicious food. However, if one is unhappy, he will have no interest in tasting it even though the best food containing the five most cherished flavours is presented before him. Ear, eye, nose and mouth are organs with desires constantly seeking satisfaction. However, the heart is the decisive factor in making one happy or unhappy. One can feel happy only when the heart is tranquil and peaceful. And only then can the wishes of the ear, eye, nose and mouth really be fulfilled. Therefore, it is of prime

importance to remain tranquil and peaceful in the heart. And the most important thing in realizing that is to behave correctly and decently.

Music should be moderate, and the heart of human being should be moderate as well. According to the nature of human beings, everyone wishes to enjoy longevity and hopes to avoid dying young. They wish to be safe and avoid threat. They wish to be honoured and hate humiliation. They wish to lead comfortable and idyllic lives and hate being burdened with hard tasks. The heart can be moderate only when these four wishes are fulfilled and those four detestable factors are removed. In order to fulfil these four wishes, it is of crucial importance to comply with the fixed rules and principles. If one cultivates one's mind according to these rules and principles, his life can be safeguarded. When life is safeguarded, longevity will be possible. If a sovereign governs his state according to these rules and principles, the law will be well established. When the law is well established, people of the world will submit to his authority. Hence, the most important thing in making the heart moderate is to comply with the fixed rules and principles.

Music should be moderate as well. If it is too loud, the listener's emotions will be agitated. Listening to over-resonant tunes with wild emotion will make the ear feel uncomfortable. As a result, hearing will falter and the listener will feel an upsurge of emotion. On the other hand, if the music is too low, the listener will not be satisfied. Accordingly, he will not be pleased either. Thus, he will feel

何谓适？衷音之适也。何谓衷？大不出钧，重不过石，小大轻重之衷也。黄钟之宫，音之本也，清浊之衷也。衷也者适也，以适听适则和矣。乐无太，平和者是也。故治世之音安以乐，其政平也；乱世之音怨以怒，其政乖也；亡国之音悲以哀，其政险也。凡音乐通乎政，而移风平

满足，不满足就不充实，不充实就会感到空虚寂寥。声音太清越，人的心志就会惊惧，用惊惧的心听清越的声音，耳朵就听不到和声，听不到和声就分辨不清乐音，分辨不清乐音，心志就会衰竭。声音太浊，人的心志就会低下，用低下的心听重浊的声音，耳朵就不能聚拢声音，不能聚拢声音，注意力就不专一，注意力不专一就会发怒。所以，音乐的声音太大、太小、太清、太浊，都是不适度的。

什么是适度？大小、清浊都适中的声音就适度。什么叫大小、清浊适中？使钟的音律不超过钧的标准，重量不超过一石，这样，小大、清浊就适中了。黄钟的宫音，是音律的基础，是清音与浊音的标准。合乎标准就是适中的，用适中的心听适中的音乐，二者就会和谐。音乐不要太过分，要平和。所以，太平盛世的音乐安宁而快乐，因为政治安定；乱世的音乐怨怒而愤怒，因为政治乖谬；濒临灭亡的国家的音乐悲伤而哀愁，因为政治险恶。音乐都是与政治相通的，而且能够移风易俗。风俗

empty of heart. If the music is too sharp and shrill, the listener will be terrified. Listening to shrill tunes with a frightened heart, the ear will not be able to appreciate the harmony, and as a result, the listener cannot differentiate the euphonious sounds from the discordant sounds. Consequently, the music will drive him mad. If the music is too chaotic, it will affect the morale of the listener. Listening to chaotic tunes with a dejected heart, his mind cannot concentrate on the music. Therefore, he will become absent-minded. And if he is absent-minded, he will be irritated by the inharmonious noise. So, all tunes too resonant, too low, too shrill or too chaotic are immoderate. What kinds of tunes are moderate then? Well, those of suitable volume and moderate pitches are. And what kinds of tunes have suitable volume and pitches? Make sure that the pitch of every bell will not exceed one *jun* and that none of them weighs more than one *dan*. Thus, both its volume and its pitch can be moderate. Pitch Gong of Huang Zhong is the foundation of all pitches, and it is also the most standard and moderate one. Hence, tunes in accordance with this standard can be considered moderate. Listening to moderate tunes in a harmonious mood, one will feel satisfied. Make sure that all tunes are moderate. So, during peaceful and prosperous times, tunes are normally pleasant and harmonious because reasonable and peaceful policies are followed. Tunes of troubled times are malignant and peevish because tyrannical policies are followed. And tunes of states facing ruin are mournful and bitter because dangerous policies are followed.

形成后，音乐能够使它得到加深与推广。因此，在政治清明的朝代，考察它的音乐就能了解国家的风俗，考察它的政治就能知道君主贤还是不肖。所以古代的帝王必定通过音乐宣扬推广教化。演奏《清庙》的瑟，装有朱红色的弦，底部镂刻着稀疏的小孔，所以声音婉转悠扬，一唱三叹，其效果已经超出了音乐本身。举行飨祭天帝的大礼时，用玄酒和盛在俎里的生鱼作祭品，大羹不调和五味，其意义已经超出滋味本身。因此，古代的帝王制定礼乐，不只是用来满足耳、目、口、腹的欲望，而是用来推广教化，端正好恶，推行理义。

Thus, music can reflect the policies of a state. Moreover, it can also be used to edify people and modify the customs. If the customs are established, music can be used to consolidate and popularize them. Hence, during well-organized times, the customs of a state can be known by listening to its music, and the level of sagacity of a sovereign can be known by observing the policies carried out in his state. So, sovereigns of ancient times always used music to edify their people. The *se* used to play "Qing Miao" was decorated with red strings, and there were also some small holes sculpted in the bottom, so it would emit sounds of euphony and harmony. As a result, the tune sounded magnificent. When the royal ceremony is held in worship of the god of Heaven, the Son of Heaven always offers dark red wine with fresh fish served on a plate. And the most valuable gravy should be of no savour, while there is something more important than savour, and it cannot be expressed with concrete savour. Hence, even though sovereigns of ancient times had composed tunes and established rules of propriety, instead of fulfilling the wishes of their ears, eyes, mouths and bellies, they used these things to extend moral education, teach people to tell right from wrong and practise morality and justice.

昔陶唐氏之始，阴多滞伏而湛积，水道壅塞，不行其原，民气郁阏而滞著，筋骨瑟缩不达，故作为舞以宣导之。

有的淫逸。贤者因为它而昌盛，不肖者因为它而灭亡。

先前朱襄氏治理天下的时候，天气多风而且阳气蓄积，万物凋零，果实不能成熟，士达因此创造了五弦瑟来招致阴气，使众生得到安宁。

古代葛天氏的音乐，是三个人手里拿着牛尾、踏着脚高歌八段乐章：第一章叫《载民》，第二章叫《玄鸟》，第三章叫《遂草木》，第四章叫《奋五谷》，第五章叫《敬天常》，第六章叫《达帝功》，第七章叫《依地德》，第八章叫《总万物之极》。

古代陶唐氏开始治理天下的时候，阴气沉滞郁积，河道淤积不通，大水泛滥，百姓抑郁而不舒畅，筋骨瑟缩而不舒展，所以创作舞蹈进行疏通。

古时候，黄帝命令伶伦制作音律。伶伦从大夏的西边来到阮隃山

others are lascivious. Moreover, sage sovereigns will lead their states to prosperity with the influence of suitable music. Contrarily, unworthy ones will be toppled because of the bad influence of their decadent tunes.

When the tribe of Zhu Xiang was governing the world, it was very windy and Yang was prevailing. However, more and more Yang was accumulating and condensing on the earth. As a result, plants withered and fruit would not ripen. In order to encourage tranquility among a myriad of things, Shi Da invented the five-stringed *se* to draw Yin.

The music of the tribe of Ge Tian was performed by a group of three people stamping their feet together and waving cow tails rhythmically. The music had eight episodes; the first episode was addressed as "Zai Min", the second was "Xuan Niao", the third was "Sui Cao Mu", the fourth was "Fen Wu Gu", the fifth was "Jing Tian Chang", the sixth was "Da Di Gong", the seventh was "Yi Di De", and the eighth was "Zong Wan Wu Zhi Ji".

When the tribe of Tao Tang began to govern the world, Yin was blocked and stagnant, the water courses were silted and there was a huge flood. As a result, people were depressed and their bones and muscles began to atrophy. Therefore, a kind of dance was created to reinvigorate the bones and muscles of the people.

The Yellow King once ordered the musician Ling Lun to harmonize notes and pitches. From the west of Da Xia, Ling Lun went to the northern side of Yuan Shu Mountain and found a kind of bamboo with the right thickness and texture

颡顼帝生于若水，住在空桑，并且登上了帝位。他的德行与天相合，八方之风都很纯正，发出熙熙、凄凄、锵锵的声音。颡顼喜好这些声音，于是命令飞龙摹仿八方的风声制作音乐，命名为《承云》，用来祭祀

in a valley. He cut off a section of bamboo of the right length—three point nine inches—from between the two knots. He then hit the “Gong of Huang Zhong” with it and introduced this tune as “She Shao”. After that, he made twelve pipes altogether and brought them to the foot of Yuan Shu Mountain to listen to the singing of the phoenixes there. Accordingly, he set the tones of the twelve pitches. The female bird sang six times and so did the male. Their singing was in harmony with the “Gong of Huang Zhong”, and all the Twelve Pitches including the six Upper-births and the six Lower-births were based on the “Gong of Huang Zhong”. So the “Gong of Huang Zhong” was regarded as the foundation of the twelve pitches. The Yellow King then ordered Ling Lun and Rong Jiang to create twelve bells to harmonize the five notes and play the “Ying Shao” (a tune of the Yellow King’s time). He then had it played again on the Yi Mao day of the second month of the spring season and introduced it as “Xian Chi”.

Di Zhuan Xu was born at a place near the Ruo River, brought up in Kong Sang and finally enthroned as Di of the world. Standard winds were blowing during his time since his virtues were in accordance with the will of Heaven. The winds sounded like “Xi Xi”, “Qi Qi” and “Qiang Qiang” (these three words are onomatopoeic, sounding like the winds of that time). Zhuan Xu loved these sounds and ordered the musician Fei Long to compose a tune called “Cheng Yun” according to them, and this tune was played during a royal ceremony held in worship of God. musician to dress up as a turtle. The turtle played the prelude first and then lay down beating the drum placed on its belly with its tail used as the drumstick. And the drum's beat sounded like "Ying Ying".

Di Ku ordered the musician Xian Hei to create a composition called "Sheng Ge", in which there were three tunes—"Jiu Zhao", "Liu Lie" and "Liu Ying". And Chui, the talented master, was ordered to make many kinds of instruments such as the drumlet, the drum, the bell, the chime stone, the *sheng*, the pipe, the *xun*, the *chi* and the rattle drum. Then Di Ku ordered the musicians to play these instruments and also ordered phoenixes and pheasants to dance to the music. Di Ku was very satisfied with this concert and used it to spread the virtues of God.

When Yao came into power, he ordered the musician Zhi to compose music for him. Zhi wrapped the *fou* (a musical instrument made of clay) in raw deerskin and beat it to mimic the wind blowing in mountain forests and the reverberation of rivers flowing through valleys. He then beat a stone to mimic the jade music-stone of God. And as a result, all the animals danced together to the music. Gu Sou, a blind musician, then improved the five-stringed *se* and made a fifteen-stringed one to accompany it. This tune was named "Da Zhang" and was played during ceremonies held in worship of God.

After Shun came into power, he ordered Yan to renovate the *se* made by Gu Sou and add another eight strings to it. Thus, a twenty-three-stringed *se* came into being. After that, Shun ordered Zhi to modify "Jiu Zhao", "Liu Lie" and "Liu

禹做了天子以后，辛苦操劳，夜以继日。他疏通了大河，疏导壅塞的水道，开凿了龙门，疏通了洪水并把它导入黄河，还疏浚了三江、五湖，使水东流入海，为百姓谋利益。于是命令皋陶创作《夏箴》，乐曲共有九章，用来展示自己的功绩。

殷汤即位以后，夏桀无道，残暴地虐待百姓，侵夺诸侯，不守法度，天下人都痛恨他。汤于是率领六州诸侯讨伐桀的罪行，功成名就，并且使老百姓得到安宁。汤于是命令伊尹创作了《大护》乐曲、高声歌唱《晨露》，润色《九招》、《六列》，用来展现自己的善举。

After Yu came into power, to protect the people of the world from flooding, he worked assiduously day and night to dredge big rivers and clear silt. With hard work, Long Men was excavated, the floodwater was rechanneled to the Yellow River, three rivers and five lakes were dredged and redirected to the East Sea to benefit his people. After these projects were finished, Yu ordered Gao Tao to compose a nine-part tune called “Xia Yue” to commemorate his accomplishments.

After Tang was enthroned as ruler of Shang, Jie, the last Son of Heaven of the Xia Dynasty became tyrannical and corrupt. Under his rule, the common people were considered nonentities, feudatories were invaded and weakened, and the law and disciplines were overlooked. As a result, people all over the world hated him. Tang then led the troops of six states to attack the abusive and unrighteous regime of Jie and won a great victory. As a result, the lives of common people were saved. Tang then ordered Yi Yin to compose “Da Hu” and another tune named “Chen Lu” (meaning early morning dews), and modify “Liu Zhao” and “Liu Lie” to popularize his benevolence and righteousness.

When King Wen was staying in Qi, sovereigns of many feudatories of the Shang Dynasty could not put up with the corrupt and abusive conducts of Zhou, so they left for Qi to support King Wen. San Yisheng told King Wen, “We can attack the Shang Dynasty immediately.” However, King Wen did not do it. Duke Zhou Dan composed a poem to praise King Wen’s benevolence, which says, “King Wen is so benevolent

散宜生说：“可以讨伐商朝了。”文王不同意。周公旦于是作了一首诗：“文王高高在上，德行昭明于天，岐周由来已久，却是受命于天。”用这首诗赞美文王的德行。

周武王即位以后，率领六个诸侯国的军队讨伐殷纣。大军还没有到达殷的都城，精锐的先锋就在牧野一举打败殷纣。回到京城后把从杀死的敌人首级上割下来的耳朵敬献给太庙，于是命令周公创作了《大武》乐。

周成王即位以后，殷朝遗民叛乱，成王命令周公讨伐他们。商朝遗民支使大象在东夷作梗。周公率领军队把他们驱逐到了江南。于是创作了《三象》乐，来赞美他的功德。

所以，音乐由来已久了，并不是哪一个特定的时代所创制的。

that his kindness and virtues are known by Heaven. Even though Zhou is an old feudatory, it is the chosen one to unify the world."

After King Wu took office, he led allied forces composed of troops of six states to attack the regime of the Shang Dynasty. Even before the main forces arrived, the vanguard had defeated the enemy troops in Mu Ye. They then cut off the ears of the enemies killed during the fight, brought them back and offered them at the national temple where the ancestors were worshiped. King Wu ordered Duke Zhou to compose "Da Wu" to commemorate the victory.

After King Cheng of the Zhou Dynasty came into power, adherents of the former Shang Dynasty rebelled against him. He sent Duke Zhou to quash the insurgence. These rebels used elephants to make trouble in the Dong Yi area. Duke Zhou drove them to the southern side of the Yangtze River. A tune called "San Xiang" was composed to celebrate this victory and commemorate Duke Zhou's virtue and accomplishment.

Hence, music really has such a long history that it was not created exclusively by any single epoch.

1. The Third Month of the Summer Season

During the last month of the summer season, the sun moves to the same place as Liu (a group of eight stars belonging to Hydra). At twilight Xin (a group of three stars including α , τ and δ of Scorpio) is in the south of the sky and at dawn Kui (a group of sixteen stars belonging to Andromeda and Pisces) is also in the south. The Heavenly Branches of this time are Bing and Ding. The god in charge of this period is Yan Di and his assistant is Zhu Rong. The representative creatures of this time are birds. The note is Zhi and the corresponding pitch is Lin Zhong ($\sharp D$). The number is seven. The corresponding flavour of this time is bitterness. And the smell of it is like burning. At this time, sacrifice should be held in the kitchen and the main offering should be animal lung. Chilly winds begin to come. Crickets stay inside. Eagles born in the same year learn to fly. Rotten weeds change into fireflies. The Son of Heaven stays in the room located at the right end of the south-facing hall named "Ming Tang". He takes a red carriage when he goes out and dark-red horses are used to pull it. The banner on the carriage is also red. The Son of Heaven wears a red robe and red jade as well. 3. The Origin of Music

Kong Jia (grandfather of Jie), one of the Sons of Heaven of the Xia Dynasty, was once hunting on Dong Yang's Fu Mountain. It became dark and a strong wind began to blow. Kong Jia got lost. He then went to visit a family located nearby and the hostess was having a baby. Someone said, "Today must be a good day, since our king has descended here. So, this baby must be something of note in the future." Another said, "No, he cannot assume this great luck. He will have mishaps." Later, King Kong Jia took the baby to his palace and said, "I am going to regard him as my own son. Who dares endanger my son?" After the baby grew up, his feet were cut off in an accident—when he was hacking firewood, the axe fell and he was hurt very badly. After that, he became a gatekeeper. Kong Jia groaned and shouted, "Oh, my goodness! Now he is handicapped! That is fate!" He then composed a song called "The Falling Axe", and that was the beginning of the music of the eastern area.

While Yu was inspecting the water-controlling projects he had built, he met a woman on Tu Mountain. He headed for the south before he married this woman. The woman then sent her maid to wait for him on the southern side of Tu Mountain. She herself composed a song called "Waiting for the Gentleman", and that was the beginning of the music of the southern area. Duke Zhou and Duke Zhao were inspired

召公采得这首歌，根据它制作了《周南》、《召南》。

周昭王亲自率领军队征伐楚国。辛余靡身高力大，充当昭王的车右。军队返回渡汉水的时候，桥坏了，昭王和蔡公坠落水中，辛余靡把昭王救到汉水北岸，又返回来救蔡公。周公于是封他为西翟诸侯，赐他“长公”的称号。商朝的整甲迁徙到了西河，他思念故土，曾经始创西方音乐。辛余靡封侯在西山后，继承了这一音乐。秦穆公采得它，并且根据它始创秦国的音乐。

King Zhao of the Zhou Dynasty once led troops in person to attack the state of Chu. Xin Yumi, the warrior who sat on the right of the king's chariot to protect him, was tall and robust. When the troops returned, they marched to cross the Han River. However, the floating bridge was broken. The king and Duke Cai fell into the river. Xin Yumi saved the king first and took him to the northern bank. He then went back again to rescue Duke Cai. Because of this contribution, Duke Zhou conferred on him the land of Xi Di and honoured him as Duke Zhang. Zheng Jia, a noble of the former Shang Dynasty, moved to Xi He and started to compose tunes due to homesickness, and that was the beginning of the music of the western area. Xin Yumi cherished this music after he was appointed marquis in charge of the vicinity of Western Mountain. Duke Mu of the state of Qin obtained these tunes when he was collecting folk songs and modified it. As a result, the national music of the state of Qin was created.

Music is a product of the heart. When the heart is moved, the feelings can also be reflected by euphonious sounds. And when a euphonious tune is heard, the heart can also be touched by it. Hence, the customs of an area can be known by examining its tunes. The will of people living in an area can be known by examining the customs prevailing there. And their virtues can be known by examining their will. Whether a state will become prosperous or face its downfall, whether its sovereign is sensible or unworthy, and whether a person is honourable or base, can all be known by the music they enjoy. So, music is a very useful tool, which can be used to determine matters which are profound or situations which are complicated. If a land is sterile, plants will not grow there; if a river is too dirty, fish and turtles living in it will be small; if a state is in disorder, too much attention must have been paid to etiquette and its tunes will be decadent. The tunes of Zheng, Wei and Sang Jian are loved by the unscrupulous sovereigns of troubled times and disorderly states. These decadent, frivolous, unorthodox tunes will stir listeners' feelings, so they become addicted to lust or corrupt and wicked misdeeds. As a result, all kinds of corruption and abuse will follow. So, sensible people will cultivate their virtues according to Tao. When their virtues are well cultivated, they can compose music. If the tunes they

4. On Composing Music

Perfect music can only be produced at the perfect time—when the world is prosperous and everything is in perfect order. The music of a state will be excellent if the state is well organized; the music is not that good if the state is not well organized; the music is frivolous and decadent if a state is in disorder. As for a sovereign who is good at governing the world, his virtues will be well known even though he might have shut himself from the rest of the world by staying at home with doors and windows closed up, and even Heaven and Earth can be moved by his virtues. During the time when Tang was in power, a strange millet seed was germinating in the court yard. It came out of the ground at twilight. However, the next morning it had grown so big that it could only be grasped with two hands together. Some officials wanted to use divination to interpret it. However, Tang asked the official in charge of prediction to leave. He said, “As far as I know, auspicious omen is a sign of good fortune. However, good fortune will not really come if you commit misdeeds, even though auspicious omen has already occurred. Contrarily, inauspicious omen is a sign of misfortune. But misfortune will not really come if you act according to the principle of kindness, even though inauspicious omen has

是即便有怪异的现象出现，如果做善事，灾祸也不会降临。”于是他早出晚归，勤于政事，慰问病人，吊唁死者，致力于安抚百姓，三天后，那棵谷子就死了。所以说，祸福互相依存，互相转化。这是圣人的真知灼见，普通人哪能领会其中的奥妙？

周文王即位后第八年的六月，文王卧病在床五天后发生了地震，震动范围不出国都东西南北四方边界。群臣请求道：“我们听说地震是因为君主的缘故。如今大王卧病五天后发生了地震，震动范围不出国都四方边界，群臣恐慌，都请求把灾祸转移出去。”文王问：“如何将灾祸转移出去？”臣子回答说：“征发徭役，发动民众增修国都的城墙，大概就能把灾祸转移出去。”文王说：“不行。上天显现怪异是为了惩罚有罪之人。我肯定有罪，所以上天借此来惩罚我。如今为此征发徭役，发动民众增修国都城墙，是加重我的罪过。不能这么做。”文王接着说：“如果

already occurred." He then went to the court early in the morning to handle government affairs, comfort the ill, offer condolences to the bereaved and pacify the people, and did not leave until late in the evening. But after three days, the young crops withered. So it is said that good fortune and misfortune are both opposite and complementary to each other. Nevertheless, though sages may know that, how can ordinary people understand it?

During the sixth month after King Wen of the Zhou Dynasty had been in power for eight years, he was sick. Five days after he had been confined to bed, an earthquake took place. However, only the territory of the Zhou Dynasty was affected by it. Court officials discussed it with King Wen and said, "As far as we know, the earthquake occurred because of you. After you had been confined to bed for five days, the earthquake took place. However, areas outside our borders are safe. Therefore, our officials are terrified and said, 'Please shift the misfortune to other areas.'" King Wen asked, "How can we shift it then?" The officials said, "We can probably remove it by mobilizing a lot of people to strengthen the fortifications of the capital?" King Wen said, "No, we should not do that. Auspicious omens have been sent here out of the will of Heaven to punish the guilty. So, I must be the one who is guilty. Heaven is punishing me with the earthquake. If I order people to enlarge the fortifications, it could only make things worse and make myself guiltier. We should not do that." He continued, "I think I should try to remove the misfortune by changing my behaviour and

After that, he paid much attention to modifying etiquette and the law, and improving relations with sovereigns of the feudatories by presenting them with precious gifts. Moreover, he also behaved decently, prepared gifts for sensible and honourable people, treated them with respect and rewarded the court officials by conferring rank, positions and fiefs on them. After a short time, his illness was cured. The earthquake took place eight years after he took office and he had maintained his authority over the regime for forty-three years afterwards. Altogether, he had controlled the Zhou Dynasty for fifty-one years till his death because he knew how to get rid of devils and catastrophes.

When Duke Jing of the state of Song was in power, Ying Huo moved to Xin. Duke Jing was terrified by this. He called on Zi Wei and asked him, "Ying Huo has moved to Xin. What will happen next?" Zi Wei said, "Ying Huo is a sign of punishment dispensed by Heaven. And it is above our demarcation. So, it means that you will be in trouble. Nevertheless, we can use the prime minister as a scapegoat." Duke Jing said, "The prime minister has helped me in governing the state, how could we shift the misfortune onto him? It is inauspicious to do that." Zi Wei suggested, "Maybe we can shift it onto the people." Duke Jing said, "If all my people are dead, whom should I rule? I would rather die myself if that is the case." Zi Wei said, "It can also be shifted onto the harvest of this year." Duke Jing said, "If the harvest is not good, my people will starve. I am going to maintain my own life at the cost of the lives of all the people, who is ready to submit to my authority? I know that my fate is coming. Please do not mention it again." Zi Wei walked a few steps quickly and then turned towards the north to congratulate the duke. He said, "Congratulations, Your Majesty. Heaven remains high above us. Nevertheless, it is watching and listening to everything taking place on earth. You have expressed the most virtuous ideas three times, so Heaven is going to reward you three times. This evening Ying Huo will change its place three times and your lifespan will be prolonged by twenty-one years." Duke Jing asked, "How could you know that?" Zi Wei replied, "You will be rewarded three times for your three kindest expressions. And Ying Huo will change its places three times. Each time it is going to pass seven other stars. And each star represents one year of life for you. Three times seven equals twenty-one. So I said your life will be prolonged by twenty-one years. If Ying Huo will not move as I said, please sentence me to death." Duke Jing said, "All right. I will do it." That night, Ying Huo moved three times as expected.

5. On Knowing the Right Reason

Tunes of both the Five Di Ancestors and the Three King Ancestors are perfect. However, sovereigns of troubled times do not know the meaning of music, and they will not have the chance to appreciate perfect music if they are mediocre.

天赏得为主，而未尝得主之实，此之谓大悲。是正坐于夕室也，其所谓正，乃不正矣。

凡生非一气之化也，长非一物之任也，成非一形之功也。故众正之所积，其福无不及也；众邪之所积，其祸无不逮也。其风雨则不适，其甘雨则不降，其霜雪则不时，寒暑则不当，阴阳失次，四时易节，人民淫烁不固，禽兽胎消不殖，草木庠小不滋，五谷萎败不成，其以为乐也，若之何哉？故至乱之化，君臣相贼，长少相杀，父子相忍，弟兄相诬，知交相

正的音乐，这是由于他们是平庸的君主的缘故。得到上天的赏赐做了君主，但却徒有虚名，这是最为可悲的了。这如同端坐朝西的屋子，所谓正，其实恰恰不正。

任何生命都不是一种气化育的，任何生长都不是一种物体承载的，任何形成都不是一种形体的功劳。所以，诸多正义积聚的地方，幸福就会降临；诸多邪气积聚的地方，灾祸就会临头。如果风雨不适，甘雨不降，霜雪不时，寒暑不当，阴阳颠倒，四季错乱，百姓淫荡而不安分，禽兽堕胎而不繁衍，草木矮小而不生长，五谷枯萎而不结实，在这种情况下作乐，还有什么快乐可言？所以，国家极端混乱的时候的情形是：君臣互相残害，长少互相杀戮，父子互相虐待，弟兄互相欺诈，朋友互相背

Therefore, even though they are rewarded by Heaven and become sovereigns, their titles as sovereigns do not match the reality. Nothing could be more lamentable. It is somewhat the same as sitting in a west-facing building but regarding oneself as sitting at the most powerful place. Of course, it is not true.

No life can be generated by only one force. No growth can be supported by only one thing. No success can be obtained over one night by taking only one action. Hence, good fortunes will come if righteousness surrounds you; misfortunes will occur if devils congregate around you. The weather is extremely unfavourable, proper rains do not come, frosts and snow come unexpectedly, winters and summers are unpredictable, Yin and Yang are in disorder, the sequence of the four seasons is disordered, people are addicted to sexual activities, animals and livestock suffer abortions and cannot reproduce, plants are small and do not grow well, and crops cannot ripen. If tunes are played under these circumstances, how can listeners feel happy? During a time when a state is in severe disorder, the sovereign and his court officials destroy each other, the old and the young kill each other, fathers and sons mistreat each other, elder and younger brothers cheat each other, close friends betray each other, husbands and wives are suspicious and jealous of each other and the common people inflict damage on each other every day, so the fixed principles and rules are missing, and people are as brutal as animals. Therefore, they will use any wicked means to pursue material benefits for themselves and as a result, no

There are also other strange phenomena: horses develop horns, roosters have five claws, newly born dogs cry like babies, few eggs hatch chickens, some temples used for sacrifice for the god of land move themselves to other places, and some pigs deliver dogs. When such strange phenomena take place in a state, but the sovereign remains unafraid and does not take any measure to reform his policy immediately, disasters will be sent by god and catastrophes will soon follow. As a result, the state will be ruined, the sovereign himself will lose his life, people will seek refuge elsewhere and will also suffer from starvation. Disasters of this kind will come within days. Such abnormal phenomena caused by tyrannical policies are numerous. And it will be impossible to write them all down even if all the bamboo produced in the states of Chu and Yue are used for this purpose. Hence, Viscount Huazi said, "People of troubled times are either abnormally tall or extremely short. Some have stiff necks, others have huge heads and they suffer from all kinds of diseases, especially dysentery. The roads and paths are covered with unwanted babies. There are so many blind, bald, hunchbacked and pigeon-breasted people as well. All kinds of deformations could happen." How can the sovereigns of troubled times have the chance to appreciate the perfect tunes of the world? If they cannot appreciate the best music, they will not feel happy at all, even though music might be played to entertain them.

Records on the First Month of the Autumn Season

1. The First Month of the Autumn Season

During the first month of the autumn season, the sun is moving to the same place as Yi (a group of twenty-two stars belonging to Crater and Hydra). At twilight Dou (a group of six stars belonging to Sagittarius) is in the south of the sky, and at dawn Bi (a group of eight stars belonging to Taurus) is also in the south. The Heavenly Branches of this time are Geng and Xin (Geng and Xin represent the Element of Metal). The god in charge of this period is Shao Hao and his assistant is Ru Shou. The representative creatures of this time are animals with fur. The note is Shang (Shang is "2" in numbered musical notation). The corresponding pitch is Yi Ze ($\sharp G$). The number is nine. The corresponding flavour of this time is pungency, and its smell is somewhat fishy. At this time, sacrifice should be held at the door or gate, and the main offering should be animal liver. Cold winds start to blow. Early in the morning, there is white dew. Cicadas sing sadly. Eagles catch birds and drop them into a huge lake, and this is known as "sacrificing the bird". Penalties are executed and criminals are punished. The Son of Heaven stays in the room located at the southern end of the west-facing hall named "Zong Zhang" (it refers to the orientation of the Element of Metal). He travels in a white chariot pulled by white horses when he goes out. The banner on the chariot is

Autumn begins during this month. Three days before the Beginning of Autumn, the chief court historian reports to the Son of Heaven, "The Beginning of Autumn comes on that fixed day and from then on the commanding Main Element should be Metal." The Son of Heaven then begins to fast. On the day of the Beginning of Autumn, the Son of Heaven leads dukes, high-ranking court officials and sovereigns of all feudatories to the western outskirts of the capital to welcome the autumn. After that, he rewards warriors at the court. He then orders generals and marshals to train the selected warriors and sharpen weapons. Officers and meritorious soldiers are entrusted to attack the unrighteous. The arrogant and ferocious are attacked or executed to demonstrate the inclination of the central government. Moreover, all the remote areas are inspected.

During this month, the Son of Heaven orders officials in charge of justice to amend the law, maintain and repair prisons and prepare shackles to punish actions of wickedness and corruption, be watchful for ferocious criminals and ensure that they are brought to justice at any cost. Judges are ordered to examine the criminals' wounds and inspect their injuries scrupulously. Make sure that lawsuits are handled objectively. Miscreants who have committed flagitious crimes

这个月，农民收割五谷。天子品尝新谷，首先敬献给祖庙里供奉的祖先。命令百官征收赋税。修缮堤坝，注意有无淤塞，以防水灾。修葺宫室建筑，增补墙垣，修补城郭。

这个月，不能分封诸侯、设置高官，不要割让领土，不要馈赠重礼，不要把重要的使节派往国外。

During this month, all crops should be harvested. The Son of Heaven offers the newly harvested millet to the ancestral temple and then he tastes it himself. He then orders officials to collect taxes, maintain and repair dikes, dredge silted places to prevent flooding, repair palace buildings, heighten walls and strengthen fortifications.

史久远，自从有人类开始，就有军队。军队，意味着威势；威势，意味着力量。人民天生就具备威势与力量，这是人类的天性。天性是上天所赋予的，而不是人力所能左右的。勇武的人不能使它改变，工巧的人不能使它移易。军队由来已久了，黄帝、炎帝就已经用水、火争进行战争了，共工氏多次作梗发难，五帝都与其争斗。世事兴衰，胜者统治天下。人们常说“蚩尤始创兵器”，兵器并非蚩尤首创，他只不过进行了改良，使得兵器更为锋利。早在蚩尤之前，人类已经砍削林木作为武器进行战争了，胜者就是首领。只有首领还不能很好地治理百姓，于是就设立了君主。君主仍然不能很好地治理百姓，于是就设立了天子。天子是在有了君主的基础上设立的，君主是在有了首领的基础上设立的，首领是在有了战争的基础上设立的。争斗由来已久了，不能禁止，不能平息。所以古代圣明的帝王有正义的军队，但从来不曾废弃过武装。

never put their military forces into disuse. Military forces came into being at the very dawn of human history. Military forces mean nothing but power, and military power means nothing but strength. Human beings are born with power and strength, and they are natural endowments. And these natural endowments are conferred by the will of Heaven, so they are beyond the limits of human beings. Even the brave cannot change them. Nor can the skilful remove them. Therefore, military forces have a long history. The Yellow King and Di Yan used fire and water as weapons to suppress the Gong Gongs' rebellions. The Gong Gongs revolted time and time again, and the Five Di Ancestors quashed the uprisings one by one. Rise and decline occur by turns but only the victor can take control over the whole world's situation. We have often heard people say, "Chi You was the creator of weapons." However, that is not true. Chi You did not create the weapons, but he did renovate some weapons to make them sharper. Before Chi You's time, people used to whittle twigs to use them as weapons to fight others. The winners would become leaders. However, it was soon proved that these leaders were not capable of governing others, so sovereigns came in being. However, under some circumstances, sovereigns were not talented in governing people either, so the Son of Heaven arose. Hence, the Son of Heaven was appointed on the basis of sovereigns, sovereigns were appointed on the basis of leaders, and leaders were appointed on the basis of military action. Military action also has a long history, and it should not be forbidden, nor should

家无怒笞，则竖子婴儿之有过也立见；国无刑罚，则百姓之悟相侵也立见。天下无诛伐，则诸侯之相暴也立见。故怒笞不可偃于家，刑罚不可偃于国，诛伐不可偃于天下，有巧有拙而已矣。故古之圣王有义兵而无有偃兵。

夫有以饕死者，欲禁天下之食，悖；有以乘舟死者，欲禁天下之船，悖；有以用兵丧其国者，欲偃天下之兵，悖。夫兵不可偃也，譬之若水火然，善用之则为福，不能用之则为祸；若用药者然，得良药则活人，得恶药则杀人。义兵之为天下良药也亦大矣。

【今译】

如果没有家法，仆人、小儿立即就会做错事；国家如果没有刑罚，百姓之间欺凌忤逆的事立即就会出现；天下如果没有诛杀、讨伐，诸侯互相侵犯的事立即就会出现。所以，家里不可以废止家法，国中不可以废止刑罚，天下不可以废止诛杀、讨伐，只不过有人操作得高明、有人笨拙而已。所以古代圣明的帝王有正义的军队，但从来不曾废弃过武装。

如果因为某人噎死了，就禁止天下人进食，是荒谬的；如果因为某人乘船时溺水而死，就取缔天下所有船只，是荒谬的；如果因为某个君主在战争中亡国，就要取消天下的军队，也同样是荒谬的。军队不可以废止，其如水火，善于利用它，就能造福；不善于利用它，就会为祸；如同用药物治病，服了良药的病人就能活命，服了毒药就会致死。正义的军队正是天下最有价值的良药。

it be stopped totally. So, sage sovereigns of ancient times used to have righteous troops and they had never put military forces in disuse.

If a family does not have domestic discipline, servants and children will commit errors immediately; if a state does not use penalties, people will attack and plunder each other immediately; if widespread military action is not taken, sovereigns of the feudatories will invade each other immediately. Hence, a family cannot neglect domestic discipline, a state cannot neglect penalties, and the world cannot neglect military action. What matters is that some use this rule skilfully but others do not. So, sage sovereigns of ancient times had righteous troops and military forces which were never in disuse.

It is nonsense to forbid the world's people to eat because one person has choked to death when eating; it is nonsense to put the world's boats in disuse because someone has drowned while sailing; it is also nonsense to eliminate the world's military forces because one sovereign lost his state in a military action. Therefore, military forces should not be totally forbidden. Military forces are somewhat like water and fire; if people use them adeptly, they will bring many advantages; but for those who use them incorrectly, they can cause severe problems. It is also somewhat like treating patients with medicaments; they can save the lives of many people if they are used correctly, but they can also kill many if they are used wrongly. Righteous troops are the most important and valuable medicaments in the world.

再说，军队由来已久了，没有一刻不曾使用过它，在这一点上，人们无论尊贵还是卑贱、年长还是年少、贤还是不肖，认识都是一致的，只是应用的规模有大有小而已。考察用兵的细微之处：争斗之意隐藏在内心而不表露出来，是用兵；怒目而视，是用兵；面呈怒色，是用兵；出言傲慢，是用兵；推拉搏斗，是用兵；摔扑角斗，是用兵；聚众毆斗，是用兵；三军攻战，是用兵。这八种情况都是用兵，只不过是规模有小有大而已。当今世上极力鼓吹废止武装的人，终身用兵却意识不到自己的言行如此矛盾，因此，虽然他们的说法有力，言辞雄辩，而且能够旁征博引各种文献典籍，他们的观点仍然不能被听取。所以古代圣明的帝王有正义的军队，但从来不曾废止过武装。如果军队真的正义，诛杀暴君，赈济苦难，那样，百姓见到他们的欣悦就会如同孝子见到慈爱的父母、饥饿

Besides, military forces have a long history, and they have never been given up—not even once—in the history of humankind. People are of the same viewpoint whether they are powerful or powerless, old or young, sensible or unworthy. The only difference of opinion existing among them lies in the size of military forces. Regarding the subtleties of military actions, being unsatisfied with others but not expressing so visually is a kind of military action; staring at the antagonists angrily is a kind of military action; blustering oneself into anger is a kind of military action; talking with others arrogantly is a kind of military action; fighting others hand-to-hand is a kind of military action; wrestling with others is a kind of military action; engaging in a gang fight is a kind of military action, and troops attacking each other is also a kind of military action. These eight cases are all military actions, differing only in terms of scale. Nowadays, some people advocate the cessation of all military actions even though they themselves have engaged in military action during their lifetime. However, they do not realize how paradoxical their words and deeds are. Hence, their advice will not be taken even though their arguments are convincing, they are persuasive and can also cite various documents to demonstrate their viewpoints. Hence, sage sovereigns of ancient times had righteous troops and never made their military forces redundant. If the troops are righteous, directed to challenge tyranny and assist the poor, the common people will long for them like dutiful sons longing for their benevolent parents or the hungry yearning

3. On Putting A Chaotic Situation in Order

We are facing the most troubled time in human history and the sufferings of the common people could not be worse. The Son of Heaven of the Zhou Dynasty no longer exists, the sensible have been dismissed from office, and have gone to live in seclusion. Fatuous sovereigns act according to their own will with no consideration for the people, so there is no way for the common people to express the sufferings and injustice they experience. If wise sovereigns and outstanding people really exist, they should investigate the current situation and attack the corrupt regimes. Thus, the military actions taken should be righteous. If this is the case, people who are dying from suffering can be rescued, those facing humiliation can be honoured, and those facing hardship can be relieved. If a sovereign does everything according to his own will, even the mediocre will leave their sovereign and parents for alien lands, let alone the fatuous. Therefore, if righteous troops are approaching, fatuous sovereigns will lose the support of their people and parents will not be able to stop their children from welcoming them.

For sovereigns who are governing the people of the

world, the prime objective of continuing importance should be to support the sensible and dismiss the insensible from office, and to reward the righteous and punish the unrighteous. At the present time, most scholars are against military actions. On the other hand, they are pro the viewpoint of saving other states from extinction. But the above-mentioned principles regarding supporting the sensible, dismissing the insensible from office, and rewarding the righteous and punishing the unrighteous will no longer be carried out. As for the sovereigns governing people of the world, they should know that. Actually, there is no substantial difference between offensive military actions against corrupt, tyrannical regimes and those saving the righteous ones from extinction. However, different people have different choices. As for those who want to ban all military actions through debate, they have not made any convincing conclusion at all. It is absurd if they adhere to arguments they do not fully understand; it is deceitful if they have realized their absurdity but still advocate what is contrary to their convictions. As for those absurd or deceitful people, their thoughts will be of no use even though they might be persuasive. That is nothing but the repudiation of what you have chosen yourself and the affirmation of what you have attacked, nothing but an intention to provide benefits for the people but causing them damage instead, or planning to safeguard people's lives but getting them into severe trouble instead. Nothing could cause damage or bring more troubles to the world's people. So, anyone who really wants to benefit the people of the world

must know this above-mentioned argument thoroughly.

The aim of military actions is to attack tyrannical sovereigns and punish the unrighteous ones. So, nothing could bring more good fortunes or provide more benefits for the people. From this point of view, banning military actions is nothing but the dismissal of the sensible people and the punishment of the righteous ones, nothing but the impediment of the kind deeds of Tang and King Wu, and the facilitation of the current misconducts of Jie and Zhou. People will not participate in corrupt, unrighteous actions if they will be accused and punished for doing so; they will participate in sensible and righteous actions since they will be rewarded for their kindness. However, nowadays the corrupt and unrighteous people are at large, and letting them remain at large is nothing but rewarding them. Contrarily, the sensible and righteous are driven to the last ditch, and driving them to the last ditch is nothing but punishing them. How can the people be well governed if the evil are rewarded and the benevolent are punished? Nothing could cause more tumult and damage to the world's people than advocating the prohibition of all military actions.

People who advocate the saving of other states from extinction would resort to persuasion first, and if that does not work, would resort to force to make people accept their viewpoint. If they opt for persuasion, they will bring their followers together and discuss persuasion tactics assiduously day and night. In order to choose the best method for persuading, they will discuss it as soon as they get up, and will even dream of it at night. Tracing the achievements of the Three King Ancestors and the Five Di Ancestors, and citing stratagems of the Five Lord-protectors with parched lips, they will work from early in the morning till late in the afternoon to persuade the leaders of the military powers. They will then resort to force if all means of persuasion result in failure. Fighting will break out when they resort to force, and deaths will occur. This is nothing but the killing of the innocent to support the tyrannical and unrighteous. And if the tyrannical and unrighteous are allowed to survive, there will be catastrophe, and as a result, all kinds of benefits provided for the common people will be stopped. Even though victory can be gained by chance, the seeds of future disasters might have been inseminated this way. It is said in the regulations of ancient sovereigns, "People with contributions to the state should be rewarded, and those who have committed wicked conducts should be punished." This has become a fixed rule, so it should not be changed without serious consideration. However, people nowadays advocate the saving of states from extinction without any serious

reflection as to whether these regimes are righteous or not. Nothing could be more unrighteous and nothing could cause more severe damage to the people of the world. So, it is wrong to argue blindly for or against military actions, and it is wrong to argue blindly for or against rescue too. The only standard that should be used in this case is to examine whether the military forces are righteous or not. If they are righteous, they can be used both to attack tyrannical regimes and to rescue the threatened states. If not, they should be used neither for the attack nor the rescue of other states. It was a fluke that Jie of the Xia Dynasty and Zhou of the Shang Dynasty ever had the opportunity to commit tyranny to that extent; it was a fluke that Fu Chai, the former king of the state of Wu, and Count Zhi of the state of Jin ever had the chance to invade other states to that extent; it was also a fluke that Duke Li of the state of Jin, Duke Ling of the state of Chen and King Kang of the state of Song ever had the chance to practise evil to that extent. If Jie and Zhou knew in advance that they would be toppled and their offspring uprooted, I do not think that they would have been as tyrannical as they were; if Fu Chai and Count Zhi had known that their states would be ruined and they themselves would be decapitated, I do not think that they would have carried out such aggressive policies against other states; if Duke Li had known that he would be killed by craftsman Li Shi, Duke Ling had known he would be killed by Xiao Zhengshu and King Kang had known that he would be killed in Wen, I do not think that they would have been so ferocious. aforementioned seven sovereigns were extremely tyrannical and unrighteous. Tens of thousands of innocent people lost their lives due to the unjust sentences issued by them. As a result, corpses of the robust of all ages—the old, the young and even foetuses—were piled in heaps on the plains, filled deep valleys and blocked rivers, canals and conduits. Moreover, they also sent people suffering from cold and starvation to fight at the fronts, and to march through barricades of knives, swords and other sharp weapons. This situation has continued to the present, and it is becoming worse than ever. As a result, uncountable quantities of corpses have been left in the wild; Jing Qiu (hills made up of the corpses of soldiers who had lost their lives on the battleground) are as big as mountains. Hence, if there are still sage sovereigns capable of reinvigorating the world, or benevolent and ambitious people concerned about the current situation, they must feel very sorry and sad for the severe sufferings experienced by the people of the world. This situation is caused by the fact that sensible people are dismissed from office and the fatuous are simply left to act as they wish. They can do whatever they wish because of good luck. So, the biggest problem today consists not in the viewpoint of saving other states from extinction, but consists instead in the good luck of the fatuous and unworthy ones. Once this viewpoint of saving other states from extinction was set forth, the fatuous and unworthy ones would resort more and more to good luck. On the other hand, sensible people would become more and more perplexed. Therefore, the

chaos of today is due largely to the policy of blindly saving other states from extinction without any consideration as to whether these regimes are righteous or not.

5. On Looking Forward to Righteous Troops

Gentlemen's talk is not intended to show off their logic. And arguments of intellectuals are not set forth perfunctorily. Gentlemen will not express any opinion unless it is reasonable, and similarly, intellectuals will not set forth any argument unless it is in accordance with the principle of righteousness. Therefore, if all expressions are in accordance with the principle of righteousness, sovereigns, dukes and high-ranking court officials will pay more and more attention to the fixed rules, and the common people will practise the principle of righteousness more and more seriously. If the principles of righteousness and fixed rules are spreaded, actions of corruption, aggression and double-dealing will die out.

Violence, double-dealing and aggression are irreconcilable with the fixed rules and the principle of righteousness—they cannot coexist. Therefore, when righteous troops march into the enemy state, people of that state will know that henceforth they will be safe and under protection. When righteous troops arrive on the outskirts of the enemy state's capital, they will not damage crops and tombs, hack down trees, burn depots and buildings or slaughter livestock. If some people are held captive, they will

And after this, if some people are still hostile towards them, adhering to their erroneous ways and failing to obey, they will be punished by force.

Before righteous troops launch attacks, an order is issued to the enemy state as follows: "We are coming to rescue the people. The sovereign of your state is fatuous, arrogant, lascivious, rapacious and tyrannical. He is engaged in killing the innocent, acts impulsively, rejects the system established by sages of old times, slanders deceased sovereigns, attacks the fixed rules and regulations, acts against the will of Heaven, provides no benefit for the people, levies crushing taxes, makes numerous demands, and rewards the wrongdoers. This kind of sovereign is hated by the common people. Therefore, he should face his nemesis out of the will of Heaven, so he is not qualified to be sovereign at all. Now we must exterminate the undutiful sovereign and get rid of the public enemy of the common people. Then we can execute the principle of righteousness according to the will of Heaven. If there are some people among the common people who dare to act against the will of Heaven and defend this sovereign, they will be sentenced to death without mercy, and their relatives too will be punished. Records on the Second Month of the Autumn Season

1. The Second Month of the Autumn Season

During the second month of the autumn season, the sun is moving to the same place as Jiao (two stars belonging to Virgo, one of which is α). At twilight Qian Niu (a star belonging to Capricorn) is in the south of the sky, and at dawn Zi Xi (a group of three stars belonging to Taurus) is also in the south. The Heavenly Branches of this time are Geng and Xin. The god in charge of this period is Shao Hao and his assistant is Ru Shou. The representative creatures of this time are animals with fur. The note is Shang. The corresponding pitch is Nan Lü (# A). The number is nine. The corresponding flavour of this time is pungency, and the smell of it is somewhat fishy. At this time, sacrifice should be held at the door or gate, and the main offering should be animal liver. Cold winds blow. The emigrant birds return. Swallows depart. Birds begin to store food (for the cold and sparse winter season). The Son of Heaven stays in the room located directly in the middle of the west-facing hall named "Zong Zhang". He travels in a white chariot pulled by white horses when he goes out. The banner on the chariot is also white. The Son of Heaven wears a white robe and white jade as well. He normally eats hemp seeds and pork. Vessels used for rites are deep, with edges and corners.

During this month, it is time to take care of old people.

是月也，乃命宰祝，巡行牺牲：视全具；案刍豢；瞻肥瘠，察物色，必比类；量小大，视长短，皆中度。五者备当，上帝其享。天子乃雩，御佐疾，以通秋气。以犬尝麻，先祭寝庙。

这个月，要赡养老迈体衰的人，赠送他们手杖，将麋鹿肉做的粥分给他们食用。于是命令掌管服制的官吏，准备整饬衣裳，刺绣的色彩与图案有固定的规格，衣服的大小长短有既定的制度，也有规定的数量，一切要依照原来的规定行事，帽子以及腰带也有固定的规格。命令掌管司法的官吏严格申明各种刑罚，处决犯人一定要恰当，不要有冤狱。如果有冤狱，就会遭殃。

这个月，命令掌管祭祀的官吏巡视将用作祭祀供品的牲畜，查看它们是否齐备，饲养的状况如何，肥瘦是否适宜，毛色是否纯正，一定要比照同类牲畜进行检查；再度量它们的大小、长短，保证都能合乎标准。形体、肥瘦、毛色、大小、长短都完全适当，天帝就会享用。天子于是举行雩祭，驱逐疫疠，以通达秋气；天子就着狗肉品尝麻籽，先把它们敬献给祖庙里供奉的祖先。

这个月，可以修筑城郭，修建都邑，挖掘地窖，整修粮仓。命令主管

Crutches and porridge made of deer flesh are distributed to them. The Son of Heaven then orders officials in charge of clothing to prepare garments, and to ensure that both coats and skirts are made according to the fixed rules. There are different specifications for the colours and patterns of the needlework. Different kinds of clothes have different sizes and certain clothes must be worn for certain occasions exactly according to the fixed rules. There are also fixed standards for hats and belts. Officials in charge of justice are told to clarify penalties, and all lawsuits must be handled meticulously to prevent unjust sentencing. If someone is sentenced unjustly, the nation will suffer difficulties.

During this month, officials in charge of ceremonies are ordered to inspect the livestock used for offering at fetes, and check their breeding to ensure they are healthy, in good shape and of the right colour. They should be examined carefully and compared with other animals of their kind. Their measurements are also taken to make certain that they are in accordance with the fixed standards. After these details are confirmed, they can be offered to God. A festival is held by the Son of Heaven to eradicate diseases and devils so that the vital energy of the autumn season can move smoothly. The Son of Heaven offers hemp seeds along with dog flesh to the ancestral temple and then tastes them himself.

During this month, construction projects such as building fortifications and cities, digging cellars and repairing granaries can be undertaken. The Son of Heaven orders his farming officials to urge people to harvest crops, store

官吏督促百姓收割并储藏五谷，务必储藏一些干菜，尽量多积聚越冬的物品。要鼓励百姓及时种植麦子，不要耽误了农时，如有耽误，就要治罪。

这个月，白昼与黑夜开始均分。雷声开始逐渐消逝。蛰伏的昆虫、动物都藏在洞穴口。肃杀的阴气逐渐弥漫天地之间，阳气日渐衰微，水开始干涸。日夜均分的秋分时刻，要统一校正权、衡、钧、石、斗、甬等各种度量衡。

这个月，要减轻关市征税，招徕商人、旅客，收纳财物，用于方便百姓的各种事宜。四方的人纷纷聚集过来，连偏远地区的人也都来了。这样，财物就不匮乏，国家财用充足，各项事业就都能取得成功。任何举动都不要违背天道，一定都要顺应天时，要因循同类事情而不得忤逆。

During this month, the Autumnal Equinox comes, and on that date, the twenty-four hours are equally divided into night and day. Thunder does not come again. Dormant creatures stay hidden in their dens. Yin is in the ascension everywhere, Yang recedes day by day, and waters begin to dry up. On the Autumnal Equinox, the night and the day are of the same length. It is time to calibrate weights and measures such as the steelyard, the sliding weight and other measuring vessels (for instance, the *jun*, the *dan*, the *dou* and the *tong*).

During this month, tariffs should be reduced both at the tollgates and in the markets to attract business and enrich the lives of the common people. As a result, people from everywhere, far and wide, are drawn there. Under such circumstances, the markets are full of commodities, everything needed by the nation can be supplied, and the nation's wellbeing is enhanced. Do not act against the principle of Heaven but acclimatize to it instead.

If suitable edicts are issued, dew will come three times during this month. If edicts of the spring season are issued during the second month of autumn, autumn rains will not come, plants will develop flowers again and there will be panic among the people. If edicts of the summer season are issued, there will be severe drought, dormant creatures will

2. On the Power of Military Forces

The principle of righteousness should be the most important rule for a myriad of things. Orders between a sovereign and his officials, the old and the young, the close and the distant are decided by it. Moreover, whether a state is in order or disorder, whether it is safe or endangered, whether it will prosper or fail are decided by it too. Hence, as far as appropriate tactics for defeating any enemy are concerned, you should always resort to yourself instead of resorting to others.

The nature of human beings dictates that they will wish to survive and hate to die, and they will wish to be honoured and hate being humiliated. If everything—survival, death, honour or humiliation—is judged according to the principle of righteousness, officers and soldiers of the armies will be of one mind.

On the subject of an army, the more soldiers it has, the better. The more unified its officers and soldiers are, the better. Military orders can be carried out effectively if both the officers and the men are of one mind. The army will prove invincible throughout the world if military orders can be carried out efficiently. Hence, righteous troops of ancient times considered military orders to be of particular

凡兵，天下之凶器也；勇，天下之凶德也。举凶器，行凶德，犹不得已也。举凶器必杀，杀，所以生之也；行凶德必威，威，所以慑之也。敌慑民生，此义兵之所以隆也。故古之至兵，才民未合，而威已谕矣，敌已

兵器，是天下的凶器；勇武，是天下的凶德。拿起凶器来行凶德，那是由于迫不得已。举起凶器必定要进行诛杀，诛杀无道的君主，为的是让人民得以生存；行凶德必定要用武力威慑敌人，用武力威慑敌人，为的是震慑住他们。使敌人受到震慑、人民得以生存，这就是正义的军队受到尊敬的原因。所以，古代正义军队的才俊之士尚未聚合起来，威力就已经被敌军知晓了，敌人已经被震服了，哪里还用得着敲击战鼓、操

importance. From their point of view, military orders were the most important factors in the whole world, and they were even considered to be more important than the Son of Heaven. Military orders were so deeply inscribed in their minds and so firmly rooted in their hearts that they became their second nature, and as a result, their resolution was unshakable. Under such circumstances, how could it be possible for the enemy to win any war? Hence, if the orders of an army are forceful and cogent, their enemies will be weakened; if military orders are carried out effectively, the army will not yield to the enemy. Make sure that military orders are cogent and can be carried out smoothly, then the enemy campaign will turn to debacle on the battleground.

Weapons are atrocious implements of the world and military prowess is an atrocious virtue. No one will choose to yield these atrocious implements and unleash the atrocious virtue unless he is compelled. When weapons are taken up, there must be killing. The killing of tyrannical sovereigns is intended to safeguard the lives of the people. When the atrocious virtue is practised, it is always necessary to terrorify the enemy with force. And the intention of terrorifying the enemy with force is to conquer. Righteous troops have always been respected and welcomed because it was known that the policy of terrorifying the enemy was to safeguard the lives of innocent people. In fact, the supremacy of righteous troops of ancient times was acknowledged even before the warriors converged, and the enemies were effectively defeated before any concrete military actions were

taken. Was it really necessary to beat the military drum or bear weapons to engage the enemies? Those who are good at military manoeuvres will keep the might of their troops secret from the enemy before the attack is launched—that is the power of an armed force.

In military actions, leaders hope that their own troops can move quickly and go ahead of the enemy during any combat. In order to march quickly and precede the enemy, it is crucial to recognize the disadvantage of tardiness and the advantage of celerity. Celerity is the key factor for the righteous troops' success in battle, so they must remain mobile. Knowing that, they should leave vulnerable locations as quickly as racing hares, like wild geese escaping their predators. Concentrating totally on the action, they will not ponder anything else, nor will their eyes or ears pay any attention to anything else. In this way, they can overcome all kinds of obstacles—even huge mountains or perilous waters such as the Yangtze or the Yellow Rivers. When Ran Shu promised to fight the marquis of the state of Qi to death, both the sovereign and the high-ranking court officials of Qi were terrified; when Yu Rang promised to fight Zhao Xiangzi to death, the Zhaos were terrified; when Cheng Jing promised to fight the king of the state of Han to death, people of the Zhou Dynasty were terrified. If one individual can exercise that kind of fear, needless to say what will happen when a powerful state with ten thousand chariots is channelled to realize its goal. What can counter it? Failure is assured even before the physical attack is launched. The enemy will be

夫兵有大要，知谋物之不谋之不禁也，则得之矣，专诸是也，独手举剑至而已矣，吴王壹成。又况乎义兵，多者数万，少者数千，密其躅路，开敌之涂，则士岂特与专诸议哉？

用兵有关键之处，知道敌人谋划不到或者不能禁御之处，就掌握了用兵的关键所在了。专诸刺杀吴王僚就是这样的。他不过独自一人手起剑落而已，只此一击，吴王阖闾就得以自立为王。又何况正义的军队呢？他们多的几万人，少的也有数千，所到之处，足迹布满敌国的道路，在敌人境内畅行无阻，这哪里是专诸所能比拟的呢！

terrified to death. Their morale will break totally, they will feel dejection and fall apart in body and spirit, so they will flee without knowing where they are or where they are going. Even though they have secure fortifications and excellent weapons, they will be too terrified to continue the fight. For the same reason, Jie of the Xia Dynasty was killed in Nan Chao. If you strike one piece of wood with another, the wood being hit will break; if you pour water into water, the water beneath will ripple; if you fling one piece of ice onto another, the ice which is hit will sink; if you cast mud onto mud, the mud below will cave in. These examples show the difference between tardiness and celerity.

There is one crucial factor in all military actions, and those who understand the weak points of the enemy front can master this crucial factor. When Zhuan Zhu attacked King Liao of the state of Wu, he drew his sword and killed the king with one blow, needless to say what will happen when thousands, or even tens of thousands of righteous troops take concerted action. Roads all across the enemy state will be imprinted with their footsteps and they will sweep away any obstacle. How can Zhuan Zhu be mentioned in the same breath as them?

people to the battleground, they can defeat the robust and well-disciplined elite of the enemy troops; if you drive stragglers, disbanded soldiers and prisoners to the battleground, they can defeat the well-organized and superbly deployed enemy troops. Using hoes and sticks, they can defeat the enemy troops fighting with spears and other sharp weapons." People with these beliefs know nothing about tactics at all. Suppose we have the best sword, but it fails to hit the target. In this case, there is no difference between the best sword and the worst one. However, the worst sword should still be avoided. Even though one has excellent troops and the best of weapons, if they are not dispatched at the right time or are deployed incorrectly, there will be no difference between the well-equipped and low-graded troops. However, the low-graded troops would not be sent to the battleground because of this reason. Even people as bold as Prince Qing Ji and Chen Nian would like to use sharp swords. By sending outstanding generals to lead courageous, carefully selected and well armed soldiers to attack the enemy, it was possible for ancient sovereigns to either unify the whole world or at least establish one of the most powerful states. Tang of the Shang Dynasty, King Wu of the Zhou Dynasty, Duke Huan of the state of Qi, Duke Wen of the state of Jin and He Lü of the state of Wu were all excellent paragons.

When Tang was fighting the troops of the Xia Dynasty on the day of Wu Zi (a fixed day determined by the Jia Zi calendar) at Cheng, he had only seventy chariots of high quality and six thousand warriors who were to fight to death.

Afterwards, Tang pursued benevolent policies to support and assist the people—measures quite opposite to the former regime of Jie. Sensible people of the overthrown regime were selected and appointed to suitable positions, wishes of the common people were considered and fulfilled, and even people from remote areas submitted to his authority. Accordingly, he unified the whole world.

In order to keep his word (with Jiao Ge), on the day of Jia Zi, King Wu of the Zhou Dynasty led three thousand first-rate warriors and three hundred selected chariots to engage the troops of the Shang Dynasty in Mu Ye. King Zhou was held captive. Sensible people of the overthrown regime were honoured, the capable and wise were used, and the wishes of the common people were investigated and fulfilled. The rule of King Wu was so equitable and fair that even animals and birds were rewarded if they contributed, and even the Son of Heaven was punished if he committed misdeeds. People of the Shang Dynasty were treated equally, as if they were his former followers. Everyone in the world was so happy with King Wu's virtue and righteousness that he was enthroned as Son of Heaven.

Duke Huan of the state of Qi led three hundred selected chariots and ten thousand warriors in person to fight in the vanguard and no one in the world managed to confront them.

晋文公制造了五辆候风旗车，率领一千名精锐的士卒作前锋，与敌人交锋，没有任何诸侯国能够抵御。从郑国退兵时，拆除了郑国城上的女墙，将卫国的田垄一律改为东西向，并率领诸侯在衡雍尊奉周朝天子。

吴王阖庐选拔了五百名力士、三千名善于奔跑的士兵作前锋，与楚国交战，五战五胜，占领了楚国的郢都。向东一直征伐到库庐，向西一直征伐到巴、蜀，向北逼近齐国、晋国，他的号令在中原各国畅行无阻。

所以，用兵的人都希望地势险阻，能给自己提供便利；都希望兵器、铠甲锋利而坚固；都希望自己所选择、训练武士精锐强壮；都希望自己统率的士卒训练有素。这四个方面是正义军队的有利的辅助条件。要

He led his troops to attack Shi Liang in the south, Feng Guo in the west and Ling Zhi in the north. After the state of Xing was ruined by the state of Zhong Shan and the state of Wei's regime was toppled by the Di People, Duke Huan reestablished Xing in Yi Yi and Wei in Chu Qiu.

Duke Wen of the state of Jin led five chariots decorated with beautiful feathers and one thousand brave soldiers to fight in the vanguard and no other states' troops could stop them. He then ordered the removal of the parapet walls of the state of Zheng and rearranged the lands of the state of Wei. After that, he arranged a meeting of the other feudatories' sovereigns in Heng Yong to consolidate the authority of the Son of Heaven of the Zhou Dynasty.

He Lü, the sovereign of the state of Wu, selected five hundred warriors and three thousand outstanding soldiers and used them as vanguard to fight the troops of the state of Chu. They defeated the enemy troops in every one of the five fierce battles, and occupied the capital of Ying. They then conquered a vast territory: Bi Lu in the east, Ba and Shu in the south and Jin and Qi in the north. As a result, his orders were carried out by all the states in the central part of China.

Hence, as for leaders who are going to engage in military action, they will wish to deploy their troops in favourable locations to facilitate their military activities; they will wish to have sharp weapons and firm corselets; they will wish to have formidable, robust and well-disciplined warriors; and they will wish to have well-trained soldiers. These factors will be very helpful to the righteous troops. To take the right

用兵有几个至关重要的因素：必须要正义，必须要智谋，必须要勇敢。我军正义，敌人就孤立无援；敌人孤立无援，君臣上下就会缺乏斗志，人民也会瓦解离散；孤立无援，父兄之间就会互相怨恨，贤人就会非议，还会发生内乱。有智谋就能预知时势的发展变化，能预知时势的发展变化，就会知道虚实盛衰的变迁，知道先后、远近、收放的策略。勇敢就能决断，能决断行动就能像雷电、飘风、暴雨一样迅速，像山崩、爆破、星陨一样势不可当；像鸢鸟搏击禽兽，被抓获的禽兽会当场毙命，被击中的树木会立即破碎。这是正义、智谋、勇敢所达到的效果。

人民不会一直勇敢，也不会一直怯懦。士气饱满就会感到充实，充

action, it is always necessary to react quickly to the ever-changing situation of war. These matters are indispensable. However, they should not be counted on exclusively. That is the most important tactic for defeating an enemy in war.

4. On Determining Victory

There are three crucial factors in military action: righteousness, wisdom and prowess. If our troops are righteous, the enemy state will be isolated. When the enemy state is isolated, the morale of both the sovereign and his high-ranking officials will be low, and the regime will also lose the support of the people. When the enemy state is isolated, fathers and sons will be hostile towards each other, sensible people will attack the policies of the regime and the whole state will suffer internal disorder. If our troops are wise, we will be able to foresee the development of the situation. Thus, we can anticipate changes in warfare and adjust our tactics correspondingly. If our troops are brave, we can react to the situation very quickly. Thus, we can march as swiftly as the outbreak of thunderstorms, be as formidable as landslides, explosions, or meteorites falling from the sky, and be as fierce as hawks attacking prey—the enemy will lose his life at once, and even wood will splinter. These are the results of righteousness, wisdom and prowess.

As for the common people, they are not brave all the time, nor are they always timid. Whether they are brave or timid depends on the morale. They are strong if the morale is

实了就会勇敢；没有士气就会感到空虚，空虚了就会怯懦。怯懦与勇敢、空虚与充实的由来都极为微妙，不可不知晓。勇敢就能奋力作战，怯懦就会败北。在战斗中获胜的，是凭勇气作战；在战斗中败北的，是心怀怯懦作战。怯懦与勇敢变化无常，往来倏忽，没有人知道其中的法则，只有圣人知道它的缘由。所以，商朝与周朝得以兴盛，而桀、纣却灭亡了。用兵的巧拙之所以大相径庭，是因为有人增益人民的士气，有人削弱人民的士气，有人善于调遣民众作战，有不善于调遣民众作战。军队纵然庞大，士兵纵然众多，但都对取胜没有任何帮助。军队庞大，士兵众多，但却不能战斗，人多还不如人少。人数众多带来的福分大，带来的祸患也同样大。这好比在深渊捕鱼，捕到的鱼大，但是危险性也大。善于用兵的人，境内的人民都会参战，方圆几百里之内的奴仆以及

high, and as a consequence, they will be emboldened. On the other hand, they are weak if the morale is low, and as a result, they will become craven. The reason for becoming courageous or nervous, strong or weak is very subtle, so it must be understood carefully. If they are valorous, they will not hesitate to confront the enemy. Contrarily, if they are cowardly, they will retreat. Victory can be gained if the soldiers fight valorously. Otherwise, if they are too timid, they will be defeated. Nevertheless, timidity and valour can exchange unexpectedly, and no one but sages can understand the profundity and subtlety of the fleeting nature of morale. The Shang and Zhou Dynasties enjoyed great prosperity. But these two regimes were toppled when Jie and Zhou were in power respectively. Some people can deploy troops with great skill but others can only do that awkwardly; some are good at enhancing the morale of their troops but others can only whittle it away; some can mobilize the masses to fight but others cannot. If one is not good at manoeuvring one's troops, a strong army with an uncountable number of soldiers will be of no help for him to win any war. Even though an army is huge and the number of its soldiers is uncountable, if they are not capable of fighting, an abundance of soldiers of this kind is no better than a few. Numerous soldiers can bring greater good fortune, but they can also cause greater problems. That is somewhat like fishing in an abyss: one can catch bigger fish there, but he is also taking a higher risk. If a person is good at manoeuvring troops, people from all over the states will come to fight for him, and even servants and

用兵，贵在善于因势利导。因势利导，是利用敌人的险阻将它转化为我军坚固的要塞，利用敌人的谋划来成就自己想做的事情。能够审慎地因势利导并且夺取胜利，就不会失势了。夺取胜利而不失势就叫“神”，达到“神”的境界就不可战胜了。用兵，贵在不可战胜。不可战胜的是我们自己，可以战胜的是敌人。圣人必定能做到不可战胜，而不让胜利操在敌人手里，因此，掌握着不可战胜的策略来对付可以战胜的敌人，这样一来，用兵就会万无一失。军事上的胜利都来自敌方的失误。要战胜有失误的敌军，一定要做到隐蔽而不露任何迹象，一定要蓄积力量并且集中精力作战。隐蔽就能战胜公开的敌人，不露任何迹象就能战胜暴露的敌人，蓄积力量就能战胜兵力分散的敌人，集中精力作战就能战胜心不在焉的敌人。各种依靠齿、角、爪、牙来抓取、顶撞、撕咬猎

those without experience or formal training will travel long distances to join him if the situation demands it. And this situation is accounted for by the fact that he has an unsurpassed grasp of military tactics, and is also talented in winning over and encouraging the common people.

When taking military action, it is crucial to make the best of the current situation. This means to be capable of using the vantage points of the enemy state as if they were the natural forts of our own, and to be capable of turning the enemy's tactics against themselves for our own military gain. Whoever can make the best use of the current situation will never lose any war. Thus, he will be as invincible as deities, and no army can overwhelm him. In military actions, the most important and honoured factor is invincibility. Those who are invincible are our own troops, and those who are conquerable are our enemies. Sages are invincible and they will never let their enemies win a military action. They know how to use unrivalled tactics to engage the enemy, and sages as such will be unconquerable. Victories are gained because of the mistakes or misconducts of the enemy troops. In order to defeat the enemy troops, we should always act secretly and inscrutably, summon up all our strength and concentrate on the fight. If we act secretly, we can defeat enemies acting openly. If our tactics are secret, we can defeat enemies whose tactics are overt. If we summon up all our strength, we can defeat enemies deployed loosely. If we concentrate on fighting, we can defeat enemies fighting inattentively. It is like fierce animals or birds attacking their prey with claws,

昔者秦缪公乘马而车为败，右服失而野人取之。缪公自往求之，见野人方将食之于岐山之阳。缪公叹曰：“食骏马之肉而不还饮酒，余恐其伤女也！”于是遍饮而去。处一年，为韩原之战，晋人已环缪公之车

从前，秦穆公乘马车出行的时候，车子坏了，右侧驾辕的马跑走后，被一群农民抓住了。穆公亲自去寻找那匹马，看见那些农民正在岐山南面分食马肉，穆公叹息道：“吃骏马的肉而不赶快喝酒，我害怕马肉会伤了你们的身体！”于是穆公让他们一一喝了自己的酒才离开。一年

5. On Taking Good Care of Intellectuals

Human beings wear clothes in order to protect themselves from the coldness. They also consume foodstuffs to protect themselves from starvation. Coldness and starvation are the two most crucial and severest problems of human beings. To help and support those who are suffering from coldness or starvation is in accordance with the principle of righteousness. However, those who are truly impoverished have a much more serious problem than those suffering from starvation or coldness. Therefore, sage sovereigns must sympathize with them and take their problems into serious consideration. They will become celebrated and win over sensible people if they can do so.

Once, the carriage of Duke Mu of the state of Qin broke down while he was travelling. The horse used on the right of the carriage escaped and was caught by some farmers. Duke Mu went to look for his horse in person, and found that the farmers, on the southern side of Qi Mountain, had already cooked the horse and were about to eat it. Duke Mu groaned and said, "I am afraid that you are going to damage your health if you eat the meat of a swift horse without drinking some wine in the meantime." He then distributed his wine to them all and left. One year later, in Han Yuan, the troops of the state of Qin and the state of Jin were engaged in a fierce

后，秦国与晋国在韩原展开激战。晋国士兵已经将秦穆公的战车包围起来，晋国的梁由靡已经抓住了穆公战车左边的马，晋惠公的车右名叫路石者举起殳击中了穆公的铠甲，有六片甲片被击中。这时，曾在岐山南面分食马肉的三百多农夫赶过来，在穆公车下与晋军展开殊死搏斗，于是大败晋军，反而俘获了晋惠公并把他带回了秦国。这就是《诗》中所说的：“统治君子要公正无私，让他们来施行仁德；统治卑微的人要宽厚，让他们竭尽全力。”君主怎能不务求广施德惠、爱抚人民呢？君主广施德惠、爱抚人民，就会得到人民的爱戴；人民爱戴君主，就会乐意为他效死。

赵简子有两匹白骡子，它们深得简子的喜爱。阳城胥渠住在广门里，一天夜里，他来敲简子的门并且申述道：“主君的微臣胥渠生病了，医生对他说：‘吃了白骡子的肝，病就会好；如果弄不到，就必死无疑。’”

battle. Duke Mu's chariot was surrounded by the Jin troops, and Liang Youmi from Jin had fettered the horse on the left side. Lu Shi, the warrior who was on the same chariot with Duke Hui of Jin with the responsibility of protecting the duke during the battle, had already hit Duke Mu's corselet six times. At that moment, more than three hundred farmers—those who had previously eaten the swift horse on the southern side of Qi Mountain—showed up and risked their lives to fight alongside the chariot of Duke Mu. As a result, The Jin troops were badly defeated, and Duke Hui was held captive and brought back to the state of Qin. It is said in *Shijing*, "The correct method for governing gentlemen is to behave disinterestedly so that they can spread their virtues; the correct method for governing petty men is to be tolerant with them so that they can serve you tooth and nail." The story of Duke Mu should be a good example for explaining this poem. From this point of view, how could a sovereign not issue benevolent policies for the sake of the people? If benevolent policies are followed and the people are well cared for, they will support him heart and soul and will also devote their lives to him.

Zhao Jianzi had two white mules which he liked very much. A person named Chengyang Xuqu lived in a lane called Guang Men. One night, Chengyang Xuqu went to knock at Jianzi's door and said, "Your Majesty, I am Xuqu, one of your sub-officials, and I am badly sick. The doctor said, 'If you eat the liver of a white mule, you will recover from this disease; if not, you will definitely die of it.'" The gatekeeper

凡敌人之来也，以求利也。今来而得死，且以走为利。敌皆以走为利，则刃无与接。故敌得生于我，则我得死于敌；敌得死于我，则我得生于敌。夫得生于敌，与敌得生于我，岂可不察哉？此兵之精者也。存亡死生，决于知此而已矣。

守门人进去禀告赵简子。董安于正好在简子身边侍奉，他恼怒地说：“嘿！胥渠怎么回事！竟然打起主君的白驪子的主意了。请立即把他处死。”简子说：“为了一个牲畜而杀人，那不是不仁道吗？而为了救人杀掉牲畜，难道不是仁道吗？”于是呼唤厨子杀掉了白驪，把肝取出来，交给阳城胥渠。没过多久，赵简子举兵攻打翟人，广门里左里派出七百人，右里派出七百人，他们都争相登上城头去砍杀敌方披甲武士的首级。由此看来，君主怎能不重视士人呢？

但凡敌人来侵犯，都是为了求得利益；假如来犯者都是死路一条，那他们就会把逃跑视为有利。如果敌人都把逃跑视为有利，那就根本不用交锋了。因此，如果敌人从我们这里得以活命，那我们就要死在敌人手里；如果敌人死在我们手里，那我们就从敌人那里得以活命。或者我们从敌人那里得以活命，或者敌人从我们这里得以活命，这个道理怎么可以不明察？这是用兵的精妙之处。生死存亡都取决于是否能明察这个道理。

went to report it to Jianzi. At that time, Dong An was helping Jianzi with his daily life and happened to be there as well. Dong An was very angry when he heard that. He shouted, "How dare Xuqu ask for our sovereign's mule! Please have him executed at once." But Jianzi said, "Isn't it cruel to kill a human being to save the life of an animal? Isn't it kind to kill a mule to save the life of a human being?" He then ordered his chef to kill the mule, take out the liver and give it to Chengyang Xuqu. Shortly after that, the troops of the state of Zhao were attacking the Di People. Along both sides of Guang Men, one thousand four hundred warriors were deployed, with seven hundred on the left side and seven hundred on the right. They vied with each other to climb the enemies' circumvallation and kill their armed soldiers. From this point of view, how could a sovereign not pay any attention to intellectuals?

Invaders attack others for their own advantage. If the invaders face nothing but death there, the biggest advantage for them will be to escape immediately. Thus, they will retreat before the battle begins. So, if our enemies survive at our hands, we will lose our lives; if our enemies lose their lives at our hands, we will survive. Could this truth be any clearer? This is the subtlest factor in every military action. Whether one will survive or perish—to win or to lose—all depends on it.

Records on the Third Month of the Autumn Season

1. The Third Month of the Autumn Season

During the third month of the autumn season, the sun is moving to the same place as Fang (a group of four stars including π, ρ, δ, β of Scorpion). At twilight Xu (a group of two stars including β of Aquarius and α of Equuleus) is in the south of the sky and at dawn Liu (a group of eight stars belonging to Hydra) is also in the south. The Heavenly Branches of this time are Geng and Xin. The god in charge of this period is Shao Hao and his assistant is Ru Shou. The representative creatures of this time are animals with fur. The note is Shang. The corresponding pitch is Wu Yi (# A). The number is nine. The corresponding flavour of this time is pungency, and the smell of it is somewhat fishy. At this time, sacrifice should be held at the door or the gate, and the main offering should be animal liver. The emigrant wild geese return. Sparrows fly into the sea and change into clams. Chrysanthemums develop yellow flowers. Jackals kill many animals and openly display carcasses. This is the purported "sacrifice with animals". The Son of Heaven stays in the room located at the northern end of the west-facing hall named "Zong Zhang". He travels in a white chariot pulled by white horses when he goes out. The banner on the chariot is also white. The Son of Heaven wears a white robe and white jade as well. He normally eats hemp seeds and pork. Vessels

All officials whether of high or low position should focus on storing grain and other things to suit the closure of both Heaven and Earth, and ensure that no vitality escapes. The biggest ceremony held in worship of God is held during this month. After different offerings are ready, the officials in charge of ceremonies will report to the Son of Heaven. The Son of Heaven arranges a meeting with sovereigns of all feudatories. Then, he calls on officials of the counties located near the capital to issue a new calendar for the forthcoming year, and regulations on the feudatories' tax-rates. 2. On Conforming to the Will of the People

When sovereigns of ancient times were in power, they always conformed to the will of their people, so they accomplished great achievements and gained high reputation. Conversely, none of those who had lost the support of their people became successful or famous. If a sovereign knows the right method to win over his people, everyone under his supervision will be happy with him whether he rules a powerful state with ten thousand chariots or a small fief with only one hundred families. People can be won over if they are happy with their sovereign. What will make the people happy? Being concerned with this question is of primary importance since it is crucial in winning the support of the common people.

After Tang defeated the Xia Dynasty, unified the world and put it in good order, there was a severe drought. It lasted for such a long time that there had been no harvest for five years in a row. Tang went to Sang Lin to pray to God in person, and said, "I am the one who is guilty. Please do not punish my people. If my people are all guilty, please allow

文王住在岐山侍奉纣王时，蒙受冤屈、侮辱，他依然雅正恭顺，早晚按时朝拜，进献的贡物适宜，祭祀非常虔诚。纣很高兴，封文王为西伯侯，赐给他方圆千里的土地。文王拜了两次后叩头辞谢道：“我只请求让人民免受炮烙之刑。”文王并不是由于厌恶方圆千里的土地，才请求让人民免受炮烙之刑的，而一定是想以此博得民心。赢得民心胜过得到方圆千里的土地。所以说文王是非常睿智的。

He then cut off his hair, tied up his fingers with pilliwinks and used his own body as an offering to pray to God for happiness of his people. A heavy, proper rain followed and people were all happy with him. Tang really knew how to communicate with God, deities and how to adapt to the ways of the world.

While King Wen was serving Zhou in Qi, he would always conduct himself properly even though he had been humiliated many times by him. He went to work early in the morning and came back home late in the afternoon. All the offerings he prepared for ceremonies were suitable, and he was very pious while attending these ceremonies. Zhou was very happy with him, so he conferred on him the title of "the Western Count" and rewarded him with one thousand square kilometres of land. King Wen bowed to him twice and rejected the offer. He said, "Please recall the stake for the sake of the people instead." It was not that King Wen disliked a feudatory as large as one thousand square kilometres. Rather, his intention was to win over the people, so he prayed for the abolition of the stake to release them from this kind of brutal punishment. Winning over the people was much more important than obtaining one thousand square kilometres of land. King Wen, therefore, really was sagacious.

The king of the state of Yue was ashamed of the humiliation imposed upon him in Kuai Ji by the king of the

For three years he had not slept well, eaten appetizing food, practised libidinous affairs or listened to euphonious tunes. With dry lips and lungs, he worked very hard during these years to get along with his officials, take care of his people and cultivate his mind so that he could really win them over. He did not dare eat any good food alone if there was not enough to share with others. And in order to enjoy his wine with his people, he would pour it in the Yangtze River (thus, people could drink it when they drank water from the river). He grew crops in person to support himself, and his wife weaved in person too to provide clothing for the family. There was no special food on the table. They would not wear two layers, nor would they dress up in two colours. He often travelled with foodstuffs beside him on his carriage. When he came upon orphans or widows, or the old, the poor or the sick, he would stop to feed them in person. Afterwards, he gathered his officials and told them, "I want to have a contest with the state of Wu to seek a fair end for the feud between us. I want the two states to engage in a fierce battle. You people can perish together with the high-ranking officials of their state, and I am going to fight the king of Wu to death, man to man. That is my sincerest wish. If it cannot be fulfilled, we cannot manage to topple the regime of Wu alone, nor can our alliances do that for our sake. The troops of Yue and Wu were engaged in a fierce battle at Wu Hu as expected, and those of Wu suffered a catastrophe. The palace of Wu surrendered, and was broken into. Fu Chai was held captive and the prime minister was killed. Two years later, Yue ruined Wu and established one of the most powerful states. That was achieved by conforming to the will of the people.

Zhuangzi of the state of Qi planned to attack the state of Yue and asked Hezi for advice. Hezi said, "Our former sovereign made a will before he died and said, 'Do not attack the state of Yue. Yue is as formidable as a savage tiger.'" Zhuangzi said, "It is a dead tiger now even though it is still a tiger." Hezi told Xiaozi of this conversation with Zhuangzi. Xiaozi said, "It is still alive even though it is dead (its morals are still in existence among its people)." So, before any major action is taken, it is always necessary to investigate whether it is in accordance with the will of the people or not.

He then prepared the best room in his house for Ji Maobian, sent his eldest son to serve him, and had good food sent to him punctually every day. Jingguo served me that much in heart and soul? I am a fledgling and have not realized that. Would you please invite Lord Jingguo to return to my court again?" Ji Maobian said, "Of course, I will do that for you." Lord Jingguo arrived in the robe presented to him by King Wei, and wore the hat and sword given to him by the former king of Qi as well. King Xuan went to the outskirts of the capital to welcome him in person. He cried when he saw Lord Jingguo approaching from a distance. He then invited Lord Jingguo to be prime minister of his regime. Lord Jingguo refused many times, but was forced to accept the position later. Ten days after he took office, he asked to retire due to illness. The king initially did not agree, but reluctantly did so three days later. At that time, Lord Jingguo really was a person who knew how to understand others. Being able to know others, he would not change his mind because of other people's opposition. And that also explained why Ji Maobian risked his own life to defend him when he was in need.

4. On Self-examination

There is a reason why everything in the world is as it is. If one does not know the reason, even though sometimes one can act correctly, it does not make any difference compared with acting wrongly because one will definitely be frustrated by external things. Sage sovereigns of ancient times, famous intellectuals and erudite masters were outstanding due to their comprehension of the reason for the status quo. Waters flow

物所困。先王、名士、通达之师之所以超过俗人，就是因为他们知道事物之所以这样的原因。水从山中流出奔向大海，水并非厌恶山而向往海，而是地势使它这样的。庄稼在田野中生长然后在粮仓中储藏，并不是庄稼本身有这种欲望，而是人们都这么做。所以，子路捉到野鸡后又将它放了。

子列子曾经射中了目标，就向关尹子请教有关射箭的知识。关尹子问：“你知道自己为什么能射中吗？”子列子回答：“不知道。”关尹子说：“现在还不能跟你谈论大道。”子列子回去练习射箭，三年后又去请教。关尹子问：“你知道自己为什么射中了吗？”子列子说：“知道了。”关尹子说：“好了，你要守住它而不要丢失。”不只射箭如此，国家的存亡，人的贤与不肖，也都有各自的原因。圣人不去考察存亡、贤不肖本身，而是考察产生这些情况的原因。

from mountains and pour down into the sea. However, it is not that waters look forward to the sea and hate mountains. That is caused by the geographical conditions of the ground. Similarly, crops are grown on the field, and then grain will be kept in granaries. That is not an inherent desire of crops—it is done according to the will of human beings. So, Zilu set the pheasant free after he caught it, because he could not establish a reason for keeping it.

Once, Viscount Liezi launched an arrow and hit the target. He was excited and told Guan Yinzi. Guan Yinzi asked him, "Do you know why you could hit the target?" Liezi said, "No, I don't know why." Guan Yinzi said, "You are still not good at archery." Liezi went back to practise archery. Three years later, he went to see Guan Yinzi again. Guan Yinzi asked him, "Do you know why you could hit the target?" Viscount Liezi said, "Yes, I know why." Guan Yinzi said, "Fine. Then make sure that you can retain this talent permanently." Not only archery, but other more important things such as whether a state will survive or be ruined, whether a person is sensible or unworthy all have their own reasons. So, sages do not pay much attention to details such as whether a regime can survive or be toppled, whether a person is sensible or unworthy because they are concerned only with the reason for the status quo.

齐湣王流亡到了卫国，一次白天散步的时候，他对公玉丹说：“我已流亡国外了，却不知道这究竟是因为什么。我之所以流亡，到底是什么原因？难道我命该如此吗？”公玉丹回答说：“我以为大王您已经知道了，您竟然还不知道？您之所以流亡国外，是因为您太贤明了。天下的君主都不肖，因而憎恶大王的贤明，于是他们互相联合兵力进攻大王。这就是大王流亡的原因。”湣王极为感慨，他叹息说：“难道贤明的君主注

He did not know the correct reason at all, and was misled by Gong Wangdan's disloyalty.

5. On Communicating with Inspirations

Normally, people do not think dodders have roots. But this is not true. Dodders do have roots. However, their roots are not underneath the surface of the soil. Poris cocos are their roots. tyrannical sovereigns who will do anything to damage their people will find that the people will desert them in a hurry.

Suppose that one state is going to attack another state. Several days before the military action is taken, when weapons are being sharpened and the officers and the men are being rewarded with good clothes and appetizing food, people of the state about to be attacked are definitely not feeling well. It is not that they have heard something about the invasion. They can scent the danger internally before it really comes. Suppose that one is staying in the state of Qin, and a person dear to him is dying in the state of Qi. Even though he cannot actually see the suffering, he will feel uneasy, as he will sense it spiritually.

Tens of thousands of people are dependent upon the virtues of their sovereign, and the moon is the dominator of everything living in the deep. At the time when the moon is round and bright, clams are big, fresh and tender. On the contrary, during the period when the moon is dark, the flesh of clams will wane. Besides, the plants and creatures living in deepwater begin to shrink as well. Even as the moon is moving and changing in the sky, plants and creatures living in the deep are responding to it. Sages are committed to enhance their virtues. As a result, people all over the world will mimic them and behave benevolently.

养由基射兕的时候，箭头射进了石头中，只有箭上的羽毛还露在外面，这是因为他全部精神到集中到兕上了（以至于把石头也当作兕）。伯乐学相马的时候，眼睛看到的除了马再也没有其他东西，这是由于他全部精神都集中到马上了。宋国的庖丁喜欢分解牛的肢体，眼睛看到的除了牛再也没有其他东西，整整三年他眼前没有活牛；他的刀用了十九年后，刀刃仍然锋利得如同刚刚磨过一样，因为他分解牛时一直顺着牛的肌理，也是由于他全部精神到集中到牛上了。钟子期夜间听到有人击磬，发出的声音极为悲切，就派人把击磬的人叫过来，问道：“你击磬时发出的声音为什么如此悲哀呢？”那人回答说：“我的父亲不幸杀了人，被处死了；我的母亲虽然得以活命，却被处罚替官府造酒；我自己虽然得以活命，却被处罚替官府击磬。我已经三年没有见到母亲了。先前在市场见到我的母亲，我想为她赎身却没有钱，而且连我自己也是公家的财产。所以，我很悲哀。”钟子期叹息说：“可悲啊，可悲啊！心不是胳膊，胳膊不是槌、也不是石头，悲哀藏在心里，木头跟石头（槌和磬）

Chef Ding of the state of Song was so interested in dissecting cows that he had been concerned with nothing but cow carcasses for three years. He had used one knife for nineteen years without sharpening it even once, but it was still as honed as if it had just been whetted, and he knew how to cut correctly out of a perfect understanding of the anatomy of cows. Once Zhong Ziqi heard someone beating the chime stone and the tune sounded very sad. He sent his servant to invite the man to see him and asked, "Why did the tune you played on the chime stone sound so sad?" The man replied, "Well, my father killed a person in an accident and he was sentenced to death. Even though my mother survived, she has been forced to make wine for the government ever since then. I have survived too, but was forced to beat the chime stone for the government. I had not seen my mother for three years. But recently I saw her at the market. I want to redeem her but do not have enough money to pay the ransom. And I have lost my personal freedom as well, so I feel very sad." Zhong Ziqi said, "Oh! It is so sad! So sad! The heart is not the arm, and the arm is neither the mallet nor the chime stone. Nevertheless, when one is sad in the heart, even wood (referring to the mallet of the chime stone, which is made of wood) and stone (referring to the chime stone) will respond to it. Hence, the honesty of gentlemen can be known by others and can move them deeply even though it is not expressed directly and forcefully." In the state of Zhou, there was a man named Shen Xi. 岂必强说乎哉？”周有申喜者，亡其母，闻乞人歌于门下而悲之，动于颜色，谓门者内乞人之歌者，自觉而问焉，曰：“何故而乞？”与之语，盖其母也。故父母之于子也，子之于父母也，一体而两分，同气而异息。若草莽之有华实也，若树木之有根心也，虽异处而相通，隐志相及，痛疾相救，忧思相感，生则相欢，死则相哀，此之谓骨肉之亲。神出于忠，而应乎心，两精相得，岂待言哉？

heard a beggar sing at the door, and the song sounded so sad. He was so deeply moved by it that he asked the gatekeeper to bring the beggar in and asked her, "Why are you begging for a living?" He talked with the beggar for a while and found that she was his mother. Therefore, the relationship between parents and children is just like the relationship between grasses and their flowers, trees and their roots. They are the two components of one whole. The vitality of them is the same, even though they have separate lives. So, they can communicate with inspirations even though they might not live at the same place. They have the same concerns, worry about each other's problems and can also scent each other's sadness. They will help each other when their beloved ones are ill, they are happy if their beloved ones are leading a happy life, and they are sad if their beloved ones lose their lives. This is what is referred to as being closely linked as flesh and blood. And this instinct is accounted for by the wholehearted love for each other. They can communicate with each other by inspirations, so is it really necessary to express one's feelings directly?

Records on the First Month of the Winter Season

1. The First Month of the Winter Season

During the first month of the winter season, the sun is moving to the same place as Wei (a group of seven stars belonging to Scorpion). At twilight Wei (a group of three stars including α of Aquarius and θ and ϵ of Pegasus) is in the south of the sky and at dawn the Seven Stars (a group of stars including α of Hydra) is also in the south. The Heavenly Branches of this time are Ren and Gui (Ren and Gui represent the Element of Water). The god in charge of this period is Zhuan Xu, and his assistant is Xuan Ming. The representative creatures of this time are crustaceans. The note is Yu (Yu is "6" in the numbered musical notation). The corresponding pitch is Ying Zhong ($\sharp B$). The number is six. The corresponding flavour of this time is salty, and the smell of it is somewhat like that of dead wood. At this time, sacrifice is held indoors, and the main offering should be animal kidney. Water and the ground start to freeze up. Pheasants go into the water and change into clams. Rainbows do not appear at this time of the year. The Son of Heaven stays in the room located at the western end of the north-facing hall named "Xuan Tang" (it refers to the orientation of the Element of Water). He travels in a black carriage pulled by black horses when he goes out. The banner on the carriage is also black. The Son of Heaven wears a black robe and

The Beginning of Winter comes during this month. Three days before the Beginning of Winter, the chief court historian reports to the Son of Heaven, "The Beginning of Winter comes on that fixed day and the Main Element from then on should be Water." The Son of Heaven then starts to fast. On the day of the Beginning of Winter, the Son of Heaven leads dukes, high-ranking court officials and sovereigns of the feudatories to welcome winter on the northern outskirts of the capital. After he returns, he rewards the offspring of those who have devoted their lives to the country, and comforts the orphans and widows.

During this month, the court official in charge of augury is ordered to examine the omens, divisions exhibited by turtle shells and yarrow stems to foretell the future and decide whether it is auspicious or not. At this time, those who have flattered senior officials or the Son of Heaven himself with the purpose of misinterpreting the law for their own advantage will be punished without mercy, and no single case of this kind should be intentionally covered up.

The Son of Heaven starts to wear furs during this month. He issues an order to court officials as follows: "In the mean time, the vitality of Heaven is ascending, and that of Earth is descending. These two kinds of vitality will not communicate with each other any more. They will diminish

Craftsmen should work hard during this month. All the utensils used for ceremonies must be made exactly according to the corresponding rules. No luxurious things are to be made to agitate the extravagant hopes of the Son of Heaven. Stability should be the first standard in judging these utensils. Every worker's name should be inscribed on the utensils. Thus, it is easy to check whether they are honest or not. Anyone who has not done his job correctly should be punished.

During this month, the Son of Heaven holds a magnificent banquet for court officials. He then prays to Heaven, Earth and other deities in charge of the four seasons for a good harvest for the forthcoming year. Many livestock are killed for various ceremonies. After that, they are offered to the national ancestral temple and used as sacrifices for rites

这个月，命令掌管山林湖泽的官吏征收水泉池泽的赋税，但不得侵削百姓的利益，以免天子在百姓中结怨。如有触犯者，一律治罪而不得宽赦。

如果孟冬发布应在春天实行的政令，大地封冻得就不牢固，地气就会发泄，百姓就会大量流亡他乡。如果发布应在夏天实行的政令，国内经常会有暴风，到了冬天也不寒冷，蛰伏的昆虫、动物就会重新出来。如果发布应在秋天实行的政令，霜雪就不能按时降落，还会不断爆发小规模战争，国土就会被侵削。

The Son of Heaven orders generals and other army officers to discuss tactics together. Warriors are trained in archery, driving and fighting.

During this month, officials in charge of mountain forests and waters are ordered to collect the taxes on ponds, lakes and other waters. Ensure that the interests of people are not damaged to prevent hostility towards the Son of Heaven. Whoever dares breach this regulation will be punished.

If edicts of the spring season are issued during the first month of winter, the ground will not totally freeze up, the vitality of Earth will leak out, and people will flee to other areas in thousand. If edicts of the summer season are issued, there will be severe storms, it will not become cold during the winter, and dormant creatures will still be active. If edicts of the autumn season are issued, snow and dew will not come on time, small-scale military actions will break out from time to time, and some of the territory will be ceded.

养生之谓也；知死也者，不以害死，安死之谓也。此二者，圣人之所独决也。

凡生于天地之间，其必有死。所不免也。孝子之重其亲也，慈亲之爱其子也，痛于肌骨，性也。所重所爱，死而弃之沟壑，人之情不忍为也，故有葬死之义。葬也者，藏也，慈亲孝子之所慎也。慎之者，以生人之心虑。以生人之心为死者虑也，莫如无动，莫如无发。无发无动，莫如无有可利，则此之谓重闭。

古之人有藏于广野深山而安者矣，非珠玉国宝之谓也，葬不可不藏也。葬浅则狐狸拍之，深则及于水泉。故凡葬必于高陵之上，以避狐狸之患、水泉之湿。此则善矣，而忘奸邪盗贼寇乱之难，岂不惑哉？譬之

【今译】

审慎地把握死亡，使死者不会受到伤害，就叫安死。这二者，只有圣人能够知晓。

凡是生活在天地之间的一切生命，最终都必然会死亡，这是在所难免的。孝子尊重自己的父母，慈祥的父母疼爱自己的子女，真情切入肌肤、骨髓，这是人的天性。所尊重、疼爱的人死后，如果把他们的尸体抛入沟壑，按照人之常情，这是人们不忍心做的，所以就产生了葬送死者的道义。葬就意味着藏，这是慈祥的父母以及孝子应当慎重处理的。慎重地处理，是指从生者的心情出发为死者考虑。从生者的心情出发为死者考虑，没有比使死者不被移动更重要的，也没有比使他们的坟墓不被挖掘开来更重要的。为确保死者不被移动、他们的坟墓不被挖掘开来，没有比让盗墓者无利可图更安全的，这就叫“重闭”。

古代有人被葬在旷野深山里，但是尸体、坟墓都安然无恙的，这不是说要随葬珍珠、玉石、国宝，而是不得不把死者埋葬起来。埋葬得浅了，就会被狐狸掘开；埋葬得深了，就会接触到地下水。所以，一定要将死者埋葬在高耸的土山上，以便避开狐狸的危害以及地下水的浸渍。这样做是不错，但是假如忘记了奸邪之徒、盗贼、乱匪带来的祸害，岂不

prevented, and this is known as the preservation of health. Taking scrupulous care of the dead means that any damage to the dead can be prevented, and this is known as the safeguarding of the dead. Only sages can understand that.

There must be an end to all life of the world. Therefore, death is inevitable. Dutiful sons love their parents, and kindly parents love their children too. It is natural that they love each other heart and soul. According to the nature of human beings, they cannot put up with the simple casting of their beloved ones' corpses into ravines to bury the dead. Burial means to store the dead secretly. Therefore, both kindly parents and dutiful children should take it seriously. From the point of view of the living, taking burial seriously means ensuring that the corpses of their beloved ones will not be touched, and their tombs will not be excavated after they are buried. To maintain the safety of the corpses and tombs, the best way is to bury as few precious things as possible with the dead, so that tomb robbers will be unable to take advantage.

Ancient people used to bury the dead among mountains and valleys. The tombs were safe this way since there was no precious stone, gold or pearls interred with the dead. However, the corpses must be covered correctly. If they are buried too shallow, foxes will uncover them and eat the flesh. If they are buried too deep, they could possibly be damaged by underground water. So, the dead must be buried in the hills to prevent problems such as these. From that point of view, it could have been a good idea. However, we should not overlook other problems caused by bandits, robbers or

other wicked people. That is somewhat like a blind person trying to circumvent some huge poles—even though the poles might be circumvented, he bumps into some sharp trunks instead. Problems caused by foxes, underground water, bandits, robbers or other wicked people can be much more serious than those sharp trunks. If kindly parents and dutiful children can manage to avoid these problems for their beloved dead, they can act in accordance with the proper meaning of burial. The inner and outer coffins are to be made of wood of high quality to prevent damage by ants, mole crickets, snakes or other harmful insects or animals. We face a very troubled time now. Funeral ceremonies held by contemporary sovereigns are becoming evermore extravagant. They do so in order to show off their wealth, and they do not take the dead into consideration at all. Nowadays it is considered honourable to handle funeral ceremonies luxuriously while dishonourable to handle them economically. Thus, the interests of the dead are totally overlooked because people are concerned with nothing but the evaluations of others, and that is against the wishes of kindly parents and dutiful children. Dutiful sons' respect for their fathers will continue even though their parents are dead. Similarly, kindly parents' love for their children will last even though their children are dead. From this point of view, how can the living only consider their own wishes when funeral ceremonies for their respected and beloved dead are held? How could the dead rest in peace if this is the case?

Some people would risk their lives and go through fire

For tomb-robbers, all these risks and humiliations can be avoided. Moreover, they can obtain huge advantages, lead comfortable lives and benefit their offspring. Under such circumstances, if even sage sovereigns cannot manage to stop them, needless to say what will happen to the fatuous sovereigns of the contemporary troubled times. The stronger a state is and the wealthier a family is, the more luxurious the funeral ceremonies will be. Infinite precious things such as pearls (pearls used to be put in the mouths of the dead in ancient China), jade, bells, cauldrons, pots, basins, carts, horses, clothes, quilts, spears, swords and other antiques are buried along with the dead. Everything used to preserve good health is prepared for the dead as well. As for the most luxurious tombs, there are many inner and outer coffins covering one another; moreover, graves are stuffed and covered with layers of stone or charcoal. When wicked people get this information, they will spread it everywhere. As a result, tomb-robbers will not be stopped even though sovereigns have taken strict measures to forbid their actions. In addition, the longer the dead have been buried, the less their family members will think of them, and as a result, people sent to take care of their tombs will become less dutiful. Nevertheless, those precious items buried along with the dead are still the same. Thus, these tombs will become more and more unsafe. Nowadays, it is very common to carry

世人修筑的坟墓，山一般高大，坟墓周围种的树，森林一般众多，墓地修建的墓阙、庭院、宫室、台阶，都如同都邑一样。这用来给世人观赏或夸耀自己的财富，是可以的；但是用于安葬死者却不行。对死者而言，一万年也不过是短短的一瞬。人的寿命，长的不过一百岁，中等的不过六十岁。从百岁或六十岁的寿命的角度出发去替无穷无尽的时间做打算，势必不合乎实际情况。把死者放在无穷无尽的时间中考虑，才能掌握丧葬的本质。

假如有一人丧葬死者时在墓碑上刻上：“这个墓穴里陪葬的珠

In addition, there are also tens of thousands of people pulling the tugs on both sides of the coffin to lead the hearse. Thus, it is not possible to direct such a great procession without military organization. This kind of funeral ceremony is magnificent and resplendent enough if it is aimed at showing off the wealth and power of the hosts. However, it is not suitable for the dead. If it were really convenient for the dead, kindly parents and dutiful sons would not hesitate to dissipate all the family fortunes, or all the state treasure to arrange funeral ceremonies.

3. On Safeguarding the Dead

Nowadays, it is very common to build huge mausoleums. They are usually as high as mountains, and the woods surrounding them are as large as forests. Moreover, they are built as a city with central buildings, halls, kiosks, and stairs—even with palaces. This is acceptable if they are only used to show off the affluence of the hosts. However, it is not suitable for the dead. For the dead, ten thousand years is nothing but a flash. Normally, the longest lifespan of human beings is no more than one hundred years, and the average lifespan is about sixty years. From this point of view, how could human beings with a lifespan of one hundred years or even sixty years prepare things for the dead? Only when the infinity of time is taken into serious consideration can the

essence of burial be well grasped.

Suppose that someone inscribed an inscription on a gravestone as follows: "Uncountable treasures such as pearls, jade, precious antiques and other invaluable things are buried along with the dead. Do rob the tomb. Whoever does that will obtain huge amounts of treasure. Moreover, all of your offspring can travel by carriage and enjoy excellent food and meat." If this is the case, he would be derided and considered to be the stupidest of people. The contemporary vogue for holding magnificent funeral ceremonies is somewhat the same. Throughout human history, there is not one state that has not eventually been ruined. Likewise, there is not yet one tomb that has not been robbed. As far as I know, states such as Qi, Chu and Yan had all been ruined. The regimes of Song and Zhong Shan had been toppled. Zhao, Wei and Han had all been overthrown. Moreover, numerous states had been ruined before and since then as well. Hence, none of the huge tombs have yet remained untouched. Nevertheless, people of our time are vying with each other to build even larger tombs. Isn't it lamentable to do so?

As for those who are disobedient to their sovereign, and fail to treat their parents with filial piety or their elder brothers with respect, the local people should send them away with a cooking pot. These people are usually too lazy to do farm work or hack firewood to make a living. Nor would they accept tasks assigned to them by the local government. However, they look forward to all kinds of extravagance. They cannot fulfil this wish by themselves even though they

古代帝王所讨厌的，是使死者受到侮辱。坟墓被盗贼掘开，死者肯定要受到凌辱，如果陪葬物品俭约，坟墓就不会被盗掘。所以，古代的帝王安葬死者，一定要俭，一定要合，一定要同。什么叫合？什么叫同？葬在山林就与山林合为一体，葬在山坡或低洼潮湿的地方就与山坡或

have cudgeled their brains for it. But they will get together and settle in mountains, by rivers or in forests to take opportunity to plunder passers-by. They will also look for huge tombs with the dead and their many possessions buried inside. Then they will move to convenient abodes located near these tombs so that they can dig at them secretly day and night. They will not stop until they obtain the precious things they desire, and share them with each other. The problem faced by dutiful sons, loyal officials, kindly parents and close friends is that their beloved ones will be humiliated by these base bandits, devilish robbers and foreign invaders of these troubled times, so attention must be paid. Yao was buried at Gu Lin and numerous trees were planted around the tomb. Shun was buried near the market of Ji, but the workshops and stores of the market were kept intact. Yu was buried in Kuai Ji, but the local people were not burdened by the burial. Hence, sovereigns of ancient times handled funeral ceremonies very economically. But instead of acting out of frugality, they did so out of love and care for the dead.

What sovereigns of ancient times hated most was the humiliation imposed on their beloved dead, and they would definitely be humiliated if their tombs were excavated and robbed. The tombs' safety could only be safeguarded if funerals were handled as simply as possible. So, funeral ceremonies held by sovereigns of ancient times were frugal, suitable and fit. Suitable and fit meant that if they were buried in the forest, the customs of the forest area were respected and complied with. And the customs of the

lowlands were respected and complied with if they were buried there. That was what was known as "feeling deeply attached to the people". Many people love others. However, few of them know how to love others correctly. So, the Eastern Mausoleum was robbed even before the state of Song was ruined, and the tomb of Duke Zhuang was robbed even before the state of Qi was ruined as well. Incidents like this happened even though these states were still in existence, needless to say what would happen to those luxurious tombs after these states were ruined. Therefore, dutiful sons, loyal officials, kindly parents and close friends of the beloved dead should all take these factors into consideration. Otherwise, harm will be caused to them despite their love. So, it is said in *Shijing*, "Not daring to fight a tiger bare-handedly and to cross a river without taking the boat, everyone knows base people harm others, but they don't know they can harm their beloved one too." It shows that some people are incapable of analogizing relationships among things. Thus, they cannot tell right from wrong. As a result, they will take right for wrong and take wrong for right. And they will begin to fight even before an objective conclusion on the actual situation has been drawn. I am not against fighting or military action, but I do not think it is right for people to begin fighting even before the actual situation is understood. So, do not begin any fight until the final conclusion on the actual situation is drawn. Isn't it muddle-minded for contemporary people to launch fights in a hurry even before the actual situation is understood?

While the Jisuns of the state of Lu were holding a funeral ceremony, Confucius went to offer his condolences. He stepped past the gate and stood among other guests on the left side of the yard. At the moment when the host was about to put precious jade into the coffin, Confucius walked across the yard, stepped up to him and said, "If you are going to put precious jade into the coffin, it would make no difference from that you were to cast the corpse into the wild." As a guest, it was against the rules of propriety for Confucius to cross the yard and stand on the stairs directly. However, Confucius was unimpeachable because he was correcting the misconduct of others.

After I die, he will definitely bestow some land on you. Make sure that you do not accept any fertile land located in good areas. Along the border between the state of Chu and the state of Yue, there is a place called Qin Zhi Qiu. The soil there is sterile and the name of this land is also hateful. 5. On Various Functions

Things of the world are different from one another, and different people will use them in different ways. Therefore, some states are in order but others are in disorder; some can survive but others will be ruined; some people can live but others will lose their lives. Hence, the security of a state cannot always be guaranteed even though it might have a vast territory, a formidable military force and a huge amount of wealth. Similarly, fame cannot always be guaranteed even though a person might have a high, honourable and powerful position. The only factor that really matters is how to make good use of these favourable conditions. Jie and Zhou used their talents to facilitate the process of perdition. Tang and Wu used their talents to unify the world.

Once Tang saw someone set up nets on all four sides and pray, "Everything, whether it falls from Heaven, originates from the ground or comes from all around, will fall into my nets." Tang said, "Oh, my God! Everything will be

When the people of those states located to the south of the Han River heard it, they told each other, "Tang is such a virtuous person that even birds and animals benefit from his virtues." As a result, forty countries submitted to his authority voluntarily. As for those who have set up nets on all four sides, they might not catch any birds. His net was used not only for catching birds—Tang got rid of the nets on three sides and only kept one, so he could catch forty countries.

When one of his pupils returned from his hometown, Confucius put his stick on his shoulder and asked him, "Was your grandfather in good shape?" He then held the stick in his hand and asked, "Were your parents in good shape?" After that, he put down the stick and asked, "Was your big brother in good shape?" Then he turned back, walked slowly and asked, "Were your wife and children in good shape?" So what will happen when high positions and generous salaries are used in clarifying the distinctions among people?

Records on the Second Month of the Winter Season

1. The Second Month of the Winter Season

During the second month of the winter season, the sun is moving to the same place as Dou (a group of six stars belonging to Sagittarius). At twilight Dong Bi (a group of two stars including γ of Pegasus and α of Andromeda) is in the south of the sky and at dawn Zhen (a group of four stars, including γ , δ , ϵ and β of Corvus) is also in the south. The Heavenly Branches of this time are Ren and Gui. The god in charge of this period is Zhuan Xu and his assistant is Xuan Ming. The representative creatures of this time are crustaceans. The note is Yu. The corresponding pitch is Huang Zhong (#C). The number is six. The corresponding flavour of this time is salty. And the smell of it is somewhat like that of dead wood. At this time, sacrifice is held indoors. The main offering should be animal kidney. The ice gets thicker and thicker. The ground freezes up and begins to crack on the surface. The He Dan (a type of bird) stops singing and tigers begin to mate. The Son of Heaven stays in the room located in the middle of the north-facing hall named "Xuan Tang". He travels in a black carriage pulled by black horses when he goes out. The banner on the carriage is also black. The Son of Heaven wears a black robe and black jade as well. He normally eats millet and pork. Vessels used for rites have big bellies and small brims.

命有司曰：“土事无作，无发盖藏，无起大众，以固而闭。”发盖藏，起大众，地气且泄，是谓发天地之房。诸蛰则死，民多疾疫，又随以丧，命之曰畅月。

是月也，命阍尹，申宫令，审门闾，谨房室，必重闭。省妇事，毋得淫，虽有贵戚近习，无有不禁。乃命大酋，秫稻必齐，粢蘖必时，湛醴必洁，水泉必香，陶器必良，火齐必得，兼用六物，大酋监之，无有差忒。天

天子命令司徒道：“不要兴举土工，不要打开收藏起来的東西，不要大规模征集民众，以顺应天地的闭藏。”如果打开收藏的东西，或者大规模征集民众，地气就会发泄，这叫开启天地的闭藏。这样一来，蛰伏的昆虫、动物就会死掉，百姓中就会流行疫病，并且随之死亡。本月被命名为“畅月”（不生之月）。

这个月，命令阍人首领申明宫中的禁令，严加注意宫室的门与各个房室，确保层层紧闭。减轻妇女的工作，不得有淫乱举动，即使皇室的宗亲或者宠幸的嬖人也都要严格遵从。命令掌管制酒的官吏监制酿酒，高粱、稻米务必备齐，酒麴、酒蘖的制作务必及时，浸泡、蒸煮的工序务必清洁，所用的水务必甘美，使用的陶器务必上乘，酿制的火候必须

The Son of Heaven issues an order to the minister in charge of education and cultural affairs as follows: "Stop all construction. Do not uncover things stored in cellars or vessels. Do not assemble people together to engage in large-scale tasks. Thus the closure of both Heaven and Earth can be facilitated." If the stored things are uncovered or people congregate to engage in large-scale constructions, the vitality of Earth will leak out. This is known as "re-opening the closure of Heaven and Earth". If this is the case, all the dormant animals and insects will die, and the people are likely to suffer from epidemic diseases and die of them as well. Therefore, this month is addressed as the month of non-growth.

During this month, the chief eunuch is ordered to clarify the injunctions of the palace. Gatekeepers are ordered to be particularly vigilant and make sure that all the doors and gates are opened and closed exactly according to the palace regulations. Women's tasks are reduced and they are told not to become addicted to libidinous affairs. Even those who are close to and deeply loved by the Son of Heaven should comply with these injunctions. Da You, the chief official in charge of brewing wine for the court, is ordered to supervise the manufacture of wine to ensure that both broomcorn and rice are well prepared, yeast powder and malt are of high quality, marinating and cooking are done with clean vessels, only fresh spring water and the best potteries are used, and the duration and degree of heating is suitable. The whole working procedure must be done under strict supervision of the chief

子乃命有司，祈祀四海大川名原渊泽井泉。

是月也，农有不收藏积聚者，牛马畜兽有放佚者，取之不诘。山林藪泽，有能取疏食田猎禽兽者，野虞教导之；其有侵夺者，罪之不赦。

是月也，日短至。阴阳争，诸生荡。君子斋戒，处必弇，身欲宁，去声色，禁嗜欲，安形性，事欲静，以待阴阳之所定。芸始生，荔挺出，蚯蚓结，麋角解，水泉动。日短至，则伐林木，取竹箭。

是月也，可以罢官之无事者，去器之无用者。涂阙庭门间，筑圉圉，此所以助天地之闭藏也。

适宜。这些工序都要在掌管制酒的官吏监督下完成，不得有丝毫差错。天子命令掌管祭祀的官吏祭祀四海、大河、水源、深渊、大泽及井泉的主宰之神。

这个月，如果农民有尚未收割储藏的谷物，或者放牧的牛马有走失的，而被他人获取，也不必对后者加以指摘；山林水泽，有可供采摘菜蔬或捕猎禽兽的，主管山林水泽的官吏要教导人们去做；有侵夺他人的，一定要治罪，决不宽赦。

这个月，冬至到来。阴阳相争，各种有生之物都动荡起来。君子进行斋戒，居处务必要深邃，身心务必要宁静，要摒除声色，禁绝嗜欲，保养身体、安养性情，沉静地对待各种事情，以等待阴阳消长的结果。芸草开始萌生，马兰发芽，蚯蚓蠕动，麋鹿的角脱落下来，水泉开始涌动。冬至时节，砍伐林木，割取竹子制作箭支。

这个月，可以罢免无所事事的官吏，丢掉没用的器物。涂塞门户，修筑牢狱；用这些举动来促进天地的闭藏。

official of wine production, and no mistake is forgivable. The Son of Heaven then orders the officials in charge of ceremonies to give sacrifice to the deities of the oceans, rivers, headsprings, chasms, lakes and wells.

During this month, if some people reap the crops left in the field or capture the lost livestock, they will not be condemned for doing so. If mountain lakes and forests can provide any kind of food or flesh, officials in charge of these areas should show the people how to find it. If someone dares to plunder others, he will be punished without mercy.

The Winter Solstice comes during this month. Yin and Yang vie with each other and everything is agitated because of this competition. Gentlemen will fast at this time. The places they have chosen to fast must be secluded, and simple lives should be led during the fast. During the fast, entertainments should be relinquished, sexual intercourse should be abstained from and the body should be taken good care of, an even temperament should be kept, and everything should be handled calmly while awaiting the result of the struggle between these two forms of vital energy. Herbs start to grow. Alliums come out of the ground. Earthworms wriggle. Deer shed their horns. Waters begin to flow. On the day of the Winter Solstice, bamboos and trees should be used to make arrows.

During this month, officials without duties can be dismissed from office, and redundant utensils can be discarded. Pack doors and windows with earth (an old way to keep cold air out of the room in winter) and repair prisons.

至忠逆于耳、倒于心，非贤主其孰能听之？故贤主之所说，不肖主之所诛也。人主无不恶暴劫者，而日致之，恶之何益？今有树于此，而欲其美也，人时灌之，则恶之，而日伐其根，则必无活树矣。夫恶闻忠言，乃自伐之精者也。

忠言逆耳忤心，除了贤明的君主，谁还能听取它？因此，贤明的君主所喜欢的人，正是不肖的君主所要诛杀的。君主没有不痛恨暴虐劫掠之事的，然而自己却在天天招引它，痛恨又有什么用？假如这里有一棵树，想让它枝繁叶茂，就应该按时浇灌，而你却讨厌它，每天砍伐树根，这样下去，树肯定不能活。厌恶听取忠言，就是最为严重的自我摧残。

These measures are taken to facilitate the closure of Heaven and Earth.

If edicts of the summer season are issued during the second month of winter, there will be severe drought, fog, and occasional thunder. If edicts of the autumn season are issued, it will rain frequently and as a result, crops and melons will not ripen. Moreover, other states will launch large-scale aggression against our territory. If edicts of the spring season are issued, there will be plague caused by pests, headsprings will dry up, and the people are likely to suffer from epidemic diseases.

2. On Perfect Loyalty

Earnest advice does not usually sound pleasing to the ear or the heart. Who can accept it but sage sovereigns? Hence, people cherished by sage sovereigns are those who will be hated or even sentenced to death by unworthy sovereigns. All sovereigns hate brutality and plunder. Nonetheless, they do everything that will lead to these inhuman activities. Will that really be of any help even though they hate these brutal conducts? Suppose there was a tree. If you wished it to thrive, you would water it from time to time. However, if you disliked it and damaged its roots intentionally every day, it would definitely not survive. Sovereigns rejecting earnest advice could be regarded as the worst examples of the policy of self-destruction.

He was going to kill Zipei, but his officials reasoned with him, "Zipei is a sensible person. Besides, he is so straightforward that he does not fear offending you directly. He must have done that for a reason. Please think it over and investigate it further." Zipei died of severe disease within three months. Troops of Chu attacked those of the state of Jin at Liang Tang and heavily defeated them. After they returned, all the meritorious officers and soldiers were rewarded. Shen Zipei's younger brother went up to the official in charge of merits to ask for an award. He said, "The others made contributions during the military action. However, my elder brother contributed beneath the carriage of Your Majesty." King Zhuang asked, "What do you mean?" He replied, "My brother offended Your Majesty and committed this capital crime. However, he did that out of absolute loyalty; he died as a scapegoat so that you could enjoy longevity at the cost of his life. He read some old documents and found this record: 'Whoever kills a rhinoceros will die within three months.' Therefore, he was terrified by your action and reacted immediately to intercept it. And he died for it as expected." King Zhuang then asked someone to research the documents kept in Ping Fu (it might refer to the national library) and that record was indeed found. He then presented Zipei's younger brother with a very generous award. Shen Zipei's loyalty was perfect. He would not be encouraged when others knew him well, nor would he

齐王患了头痛病，派人到宋国迎接文挚。文挚到了，察看齐王的病后对太子说：“大王的病肯定能治愈。但是，一旦大王痊愈了，一定会杀死我。”太子问道：“这是为什么？”文挚回答说：“如果不激怒大王，病就治不好，但是如果激怒了大王，那我必死无疑。”太子叩头下拜，极力请求说：“如果治好大王的病，我和母亲一定拼死在父王面前为您争辩，父王一定会哀怜我和母亲（而原谅先生您的），希望您不要担忧。”文挚说：“好吧。我愿拼死为大王治病。”文挚跟太子约定好为齐王看病的日期，三次都不如期前往。齐王原本就大怒，文挚来了，却不脱鞋子就上了齐王的床，踩着齐王的衣服，询问他的病情，齐王非常恼怒，不跟他搭话。文挚于是又出言不逊来继续激怒齐王。齐王大声呵斥着站了起来，病就好了。齐王盛怒不止，要把文挚活活煮死。太子和王后赶忙为

The king of the state of Qi had a bad headache and he sent a messenger to the state of Song to pick up Wen Zhi there. After Wen Zhi arrived, he examined the king's ailment and told the crown prince, "His Majesty's illness can be cured. However, I am going to be sentenced to death after I cure his disease." The crown prince asked, "Why?" Wen Zhi said, "This disease cannot be cured unless His Majesty is irritated very badly. And I will definitely be killed if he is angry with me." The crown prince knelt down and implored him, "If you can cure His Majesty, my mother and I will pray for you in front of him. And I am sure that he will listen to us and absolve you. Please do not worry about it." Wen Zhi agreed. He said, "All right. Please let me devote my life to His Majesty." He then made an appointment with the crown prince to examine the king of Qi. However, in order to infuriate the king, he intentionally failed to show up three times in a row. The king, as expected, was very angry. When Wen Zhi finally showed up, he climbed onto the king's bed without taking off the shoes and stepped on his clothes as well. Wen Zhi asked about the king's illness, but the king was quite outraged and did not answer him. In order to infuriate him further, Wen Zhi began to leave, the king shouted at him loudly and stood up immediately. Thus he was cured. The king was very angry with him and considered cooking him alive. The prince and the queen prayed for him vehemently but the king would not change his mind. Wen Zhi

文挚争辩，却没有成功，齐王果然把文挚放进鼎里活活蒸煮。煮了三天三夜，文挚的容颜都没有变色。文挚说：“真要杀我，为什么不把盖子盖上，来隔断阴阳之气？”齐王让人把鼎盖上，文挚才死了。由此看来，在太平盛世忠君是容易的，而在乱世忠君却很难。文挚并非不知道治愈齐王的病后自己就会丧命，他是为了成全太子的大义才去做招致杀身之祸的事。

Wen Zhi said, "If you really want to kill me, why don't you cover the cauldron to shut off the communication of Yin and Yang?" The king had the cauldron covered and Wen Zhi died. In a word, it is easy to serve the sovereign loyally at the time when the state is in order. On the other hand, it is difficult to do so during troubled times. It was not that Wen Zhi could not foresee that he would be sentenced to death after curing the king. However, he did it at his own will; to fulfil the crown prince's wish to perform filial piety by curing the king of Qi.

3. On Loyalty and Probity

For intellectuals, the most important thing is to safeguard their reputations and avoid humiliation at any rate. According to their values, avoiding humiliation is much more important than power or wealth. When their reputations are hurt, they will not feel happy, even though they are provided with various benefits. Although they might be conferred a feudatory and become the owner of ten thousand chariots, that is not enough to tempt them to change their will. They will not have any interest in life after they are humiliated. These people would not take advantage of their authority even though they have great power, would not wish to seize power even though they might hold important positions, nor would they retreat when they are appointed to lead troops against

吴王想杀掉王子庆忌，但是没有谁能杀得了他，吴王为此很忧虑。要离说：“我能杀死他。”吴王说：“你怎么能行呢？我曾经乘六匹马驾的车追赶他，一直追赶到了长江边上，也没赶上他；用箭射他，他左手和右手都接了满把的箭，却射不中他。而你拔起宝剑来也不能将它举过肩膀，上了车也无法蹬踏在车轼上，你怎么能行？”要离说：“士只担忧自己不够勇敢，哪里会担心事情做不成？假如大王能够相助，我一定能行。”吴王说：“好吧。”第二天，吴王假装治要离的罪，抓住他的妻子和孩子，把她（他）们活活烧死，并且扬撒了骨灰。要离逃跑到卫国去见王子庆忌。王子庆忌高兴地说：“吴王的暴虐无道，您是亲眼目睹了，也是诸侯

enemies. Loyal officials are somewhat the same. They would not hesitate to give up their own lives for the sake of their state and sovereign if it is necessary to do so. A state has hope if it possesses these kinds of intellectuals or officials. However, it is very difficult to find these kinds of people. Moreover, these people are not normally understood or used by the state sovereign, even though they exist.

The king of the state of Wu wished to kill Prince Qing Ji but could not manage to do so, and was worried about it. Yao Li said, "I can do it for you." The king wondered and asked, "How could you do that? I once chased him along the bank of the Yangtze River with a carriage pulled by six horses but still could not catch him. I tried to strike him with many arrows but still could not hit him. And people like you can neither raise a sword above the shoulder nor climb onto a carriage alone without the help of others. So how could you do that?" Yao Li said, "The only thing intellectuals worry about is that they are not brave enough. Why do they worry about not being capable of doing something? If you will help me, I can definitely kill him for you." The king of Wu said, "Fine. It's a deal." The next day, Yao Li pretended to be guilty. His wife and children were caught and executed (to make Prince Qing Ji believe that he was really accused by the king). Their corpses were set on fire and then their ashes were cast away. Yao Li survived and went back to Wu. The king was satisfied with him and offered to share the state with him. Yao Li said, "No. I must die. Please allow me to fulfil this wish." The king stopped him, but Yao Li said, "In order to realize our plan, I asked you to kill my wife and children, set their corpses on fire and then cast away the ashes. Prince Qing Ji caught me by the hair and ducked me in the water many times during the fight. The fact that I have survived is accounted for by the kindness of Prince Qing Ji. with his sword and the king could not stop him. People like Yao Li cannot abandon their values even though they are lured with significant rewards. They will stick to the principle of righteousness and will not act contrary to their values even though they are offered great recompense. They really can be regarded as "honest and clean". Even though they might be powerful and wealthy, they will never forget the humiliations they experienced, since they are honest and clean.

Hong Yan, an official of Duke Yi of the state of Wei, was sent out on a diplomatic mission. When the troops of the Di People were attacking Wei, the people of Wei said, "Our sovereign would appoint cranes to positions and share his power and wealth with eunuchs. Why don't you ask the cranes and eunuchs to fight for you? How could we engage in a battle?" Then they all escaped. The Di People broke into the capital, chased Duke Yi to Ying Ze and killed him there. After that, they ate his flesh. Only his liver was left untouched on the ground. When Hong Yan returned to his state, he gave his report to the liver and cried "my god" to express his extreme sadness when finished. He told the liver, "I beg to serve as the body of Your Majesty." Then he killed himself, took out his bowels and put the liver of Duke Wei into his belly. When Duke Huan of the state of Qi heard that story, he said, "The state of Wei died out because of the corruption and tyranny of their sovereign. However, it should survive since it had such a loyal official as Hong Yan." He then reestablished Wei in Chu Qiu. Hong Yan was so

善辩但说的话不合于道理，诚实但不合于事理，勇敢但不合于正义，守法但不合于时务，这如同精神迷乱的人乘着千里马飞奔，如同神志癫狂的人握着宝剑乱砍一样，导致天下大乱的，一定是上述四种行为。善辩的可贵之处在于阐明道理，诚实的可贵之处在于遵循事理，勇敢的可贵之处在于推行正义，守法的可贵之处在于合乎时务。

跖的徒弟问跖：“强盗也有道义吗？”跖说：“何只是有道义？能准确

Not only had he contributed everything to the sovereign, but under his influence, the ancestral temple of Wei was rebuilt, so sacrifices could be made to their ancestors continuously. He can be regarded as having accomplished great things for the state.

4. On Acting Reasonably

If a person is good at talking but always delivers unreasonable expressions, if one is honest but always expresses opinions opposite to common sense, if a warrior is brave but always acts against the principle of righteousness, if one complies with the law but always handles current affairs wrongly . . . these are rather like a mad person riding a swift horse and galloping rapidly (he will be further and further off the right track), or a lunatic killing blindly with the sharpest "Gan Jiang" (the best sword made in the state of Wu). Nothing could be worse than these four cases in incurring the severest turmoil in the world. The merit of eloquence lies in its function of illustrating reason, the merit of honesty lies in following common sense, the merit of bravery lies in the advocacy of justice, and the merit of complying with the law lies in the handling of all cases according to the affairs of the day.

楚国有个叫直躬的人，他的父亲偷羊，他向官府告发了。官府抓了他的父亲，将要处死。直躬请求代替父亲受刑。将要被斩首的时候，他告诉官吏说：“父亲偷了羊就去告发，这么做不是很诚实吗？代替父亲

No one can become a great thief if he does not act according to these five principles." Once, Bei Shuo was attacking the Six Kings and the Five Lord-protectors. He considered Yao guilty of being unkind to his children (he devolved the authority over the world to Shun instead of his own children); that Shun did not treat his parents with filial piety; that Yu almost engaged in licentiousness; that Tang and King Wu were guilty of banishing or murdering their rulers; and that the Five Lord-protectors were all planning to rebel against the regime of the Zhou Dynasty. Nonetheless, they were all held in high repute by the world's people. Moreover, people all try to cover up their sins. And Bei Shuo thinks nothing could be more muddle-headed than that. Therefore, he vows to be buried along with a metal pestle when he dies so that he can cut off the heads of these above-mentioned sovereigns when he meets them in hell. The eloquence of Bei Shuo is no better than not having said anything at all.

In the state of Chu, there was a man named Zhi Gong. His father had stolen a goat, but he reported his father to the government. His father was arrested and was sentenced to death. However, Zhi Gong offered to act as a scapegoat for his father. When he was about to be executed, he told the

齐国有两个热衷于勇武的人，一个住城东，一个住城西。他们在路上邂逅，互相都说：“一起喝几杯吧？”几杯酒下肚后，一人说：“要不要弄点肉来吃？”另一人说：“吃你的肉？还是吃我的肉？何必另外去弄肉？只准备一点豆豉酱就行了。”于是两人拔出刀割下身上的肉吃起来，一直到死。这样的勇武还不如不勇武。

商纣有三个同母兄弟，老大叫微子启，老二叫中衍，老三叫受德。受德就是纣，他是兄弟中年龄最小的。纣的母亲在生微子启和中衍的时候还是妾，后来被扶正为妻时生下了纣。纣的父母想把微子启立为

If people as honest and disinterested as me are executed, would there be anyone left in the state?" When the king of Chu heard this, he set him free. When Confucius heard that story, he said, "How unbelievable and ridiculous the honesty of Zhi Gong is! He gained fame for himself twice by using his father." So, being honest like Zhi Gong is no better than not having been honest at all.

Of the two bravest people in the state of Qi, one lived in the eastern part of the capital and the other lived in the western part. One day they met in passing, and began to talk, "How about drinking some wine together?" After they had drunk several cups of wine, one suggested, "How about getting some meat to go with the wine?" The other said, "Whose flesh do you think we can eat? Yours? Or mine? Why do we need to go anywhere else to look for meat? We only need to buy some lobster sauce." They then pulled out their knives and kept on cutting off their own flesh until they both died. Being brave in that way is no better than not having been brave at all.

人们智慧上有差异，是由于有的人有远见，有的人目光短浅。当代跟古代的关系，如同古代跟后世的关系一样；当代跟后世的关系，也如同当代跟古代的关系一样。所以，清楚地了解今天，就可以推知古代，知道了古代就可以推知后世。古今前后都是一样的。所以圣人既能够知晓一千年以前的情况，也能够知晓一千年以后的情况。

However, the chief court historian reminded them of the old regulation: "Sons born by the concubine cannot be established as crown prince if there are sons born by the legitimate wife in existence." As a result, Zhou became the Son of Heaven later. Complying with the law that way is no better than not having complied with it at all.

5. On Foresight

The levels of intelligence of people are different. While some of them are provident, others are near-sighted. The relationship between the contemporary era and the past epochs is exactly the same as the relationship between the old epochs and the later ages. Similarly, the relationship between the contemporary era and the later ages is also the same as the relationship between the contemporary era and the old epochs. Hence, if the present is well mastered, the past can be deduced; if the past is well mastered, the future can be deduced. It has always been so throughout the history of human beings. So, sages can know things which happened one thousand years ago and which will happen one thousand years hence.

So he appointed him to be one of the five high-ranking officials of his regime. King Wen also said, "Shen Houbo is very good at reading my mind. Whenever I have a wish, he will fulfill it for me in advance. It is so easy to get along with him, and I do not feel well if he is not here. Nonetheless, if I do not estrange him, I am afraid that sensible people of the forthcoming generations will condemn me." He then sent him away. Shen Houbo went to the state of Zheng and the king of Zheng was very satisfied with him because of his flattery, mind-reading capability and talents in fulfilling his wishes in advance. Thus, after three years, Shen Houbo took over control of the Zheng regime, but the Zheng people killed him five months after that. So, sensible people of the future forced King Wen to do correct things beforehand.

Duke Ping of the state of Jin had a huge bell made, then he asked the court musicians to listen to it to examine its quality. Everyone except for Master Kuang thought the tone of the bell was excellent. Master Kuang said, "No, the tone is not good. Please remake the bell." Duke Ping said, "All other musicians think that it is harmonious." Master Kuang said, "Musicians of the later ages who really understand music will realize that it is not harmonious, and I feel ashamed for you because of that." As expected, when it came to the time of Master Juan, he realized that the tone of the bell was not harmonious. In this case, Master Kuang wanted

吴起治理西河以外的地方，王错在魏武侯面前诋毁他，武侯派人把吴起召了回来。吴起行到岸门的时候，停下车，回头遥望西河，泪水一行行流下来。他的车夫对他说：“我暗自观察大人的心志，认为大人舍

Lü Wang, or Duke Tai, was to be the sovereign of the state of Qi and Duke Zhou Dan was to be the sovereign of the state of Lu. These two sovereigns were very friendly with each other. Once, they were exchanging ideas on the topic of "how can a state be well governed". Lü Wang said, "I am going to respect the people who are sensible, meritorious and virtuous." Duke Zhou Dan said, "I am going to advocate that the people treat their parents with filial piety and lay stress on benevolence." Duke Tai said, "If this is the case, the state of Lu will be weakened from now on." Duke Zhou Dan said, "Even though my state will be weakened, I am sure that you Lües cannot manage to maintain power over the state of Qi forever." After that, the state of Qi turned stronger and stronger and became one of the most powerful states. However, Tian Chengzi usurped the throne of Qi after the Lües had controlled it for twenty-four generations. The state of Lu became weaker and weaker and finally it was on the edge of perdition. However, the Zhous' authority over Lu had lasted for thirty-four generations.

While Wu Qi was taking charge of the territory to the west of Xi He, Wang Cuo spoke ill of him in front of Marquis Wu of the state of Wei. Marquis Wu sent a messenger to Xi He to call Wu Qi back. Wu Qi stopped at An Men, got off the carriage, looked toward the direction of Xi He and cried. His driver asked him, "I think I know you well enough. You could abandon the whole world as if it were nothing but a pair of worn shoes. Now you are crying when you leave Xi He.

下若释躐，今去西河而泣，何也？”吴起振泣而应之曰：“子不识。君知我而使我毕能西河，可以王。今君听谗人之议，而不知我，西河之为秦取不久矣，魏从此削矣。”吴起果去魏入楚。有间，西河毕入秦，秦日益大，此吴起之所先见而泣也。

魏公叔痤疾。惠王往问之，曰：“公叔之疾，嗟！疾甚矣！将奈社稷何？”公叔对曰：“臣之御庶子鞅，愿王以国听之也。为不能听，勿使出境。”王不应，出而谓左右曰：“岂不悲哉？以公叔之贤，而今谓寡人必以国听鞅，悖也夫！”公叔死，公孙鞅西游秦，秦孝公听之，秦果用强，魏果用弱，非公叔痤之悖也，魏王则悖也。夫悖者之患，固以不悖为悖。

弃天下应该如同扔掉鞋子一样。如今离开西河，您却在哭泣，这是为什么？”吴起擦掉眼泪回答他说：“您不知道。如果君主了解并信任我，使我充分发挥自己的能力，那我就可以凭借西河帮助君主成就王业。如今君主听信了小人的谗言，而不信任我，西河不久就会被秦国夺取了，魏国也会从此削弱。”吴起最后离开魏国去了楚国。不久，西河的全部土地都被秦国吞并了，秦国日益强大起来。吴起正是因为预见到这一情形才为之流泪的。

魏国宰相公叔痤病了，惠王前去探望他，说：“唉！公叔病得很重啊！国家该怎么办呢？”公叔回答说：“希望大王能把国政交给我的家臣御庶子公孙鞅处理。如果不任用他，就不要让他离开魏国到别的国家。”惠王没有答应，出来对左右的侍从说：“这难道不是太可悲了吗？凭公叔的贤明，现在却让我无论如何也把国家交给公孙鞅治理。荒唐！”公叔死后，公孙鞅到西方游说秦国，秦孝公听从了他的建议，秦国果然强盛起来，魏国果然削弱下去。这并不是公叔痤荒谬，而是惠王自己荒谬。行事荒谬的人的通病是一定把不荒谬的视为荒谬。

Could you please tell me the reason?" Wu Qi wiped away the tears and said, "You do not know the reason at all. If His Majesty trusted me and let me do my best for the state, I would topple the regime of the state of Qin and help His Majesty unify the world from the base of Xi He. However, His Majesty has listened to the slanders fabricated by those contemptible persons and does not trust me any more. I am sure that Qin will occupy Xi He soon and our state will be badly weakened from then on." Wu Qi left Wei for Chu and Qin occupied Xi He as expected, and the state of Qin got stronger and stronger. Wu Qi cried because he was provident enough to foresee this result.

Gongshu Cuo of the state of Wei was sick and King Hui of Wei went to see him. King Hui said, "Oh, you are so sick! What shall I do with the state?" Gongshu said, "My family's housekeeper, Gongsun Yang, is capable enough to govern the state, so please ask him to handle government affairs for you. If you do not use him, please do not let him go to other states." King Hui did not listen to him. After he left Gongshu Cuo's home, he told his attendants, "Gongshu used to be such a sensible and wise person. Now he insists on forcing me to use Gongsun Yang to govern the state. Isn't it tragic? That is absolute nonsense." After Gongshu Cuo died, Gongsun Yang went to the west and arrived in the state of Qin. Duke Xiao of Qin followed his advice. As a result, the state of Qin became stronger and stronger. Contrarily, the state of Wei became weaker and weaker. Gongshu Cuo was not absurd, but King Wei himself was absurd. It is common for the absurd people to regard the truth as absurdity.

Records on the Third Month of the Winter Season

1. The Third Month of the Winter Season

During the third month of the winter season, the sun is moving to the same place as Wu Nü (a group of stars belonging to Aquarius). At twilight Lou (a group of three stars, including β , γ and α of Aries) is in the south of the sky and at dawn Di (a group of four stars, including α , ι , γ and β of Libra) is also in the south. The Heavenly Branches of this time are Ren and Gui. The god in charge of this period is Zhuan Xu, and his assistant is Xuan Ming. The representative creatures of this time are crustaceans. The note is Yu. The corresponding pitch is Da Lü (# C). The number is six. The corresponding flavour of this time is salty, and its smell is somewhat like that of dead wood. At this time, sacrifice is held indoors, and the main offering should be animal kidney. Wild geese fly towards the north. Magpies begin to build nests. Pheasants start to mate and hens lay eggs. The Son of Heaven stays in the room located at the eastern end of the north-facing hall named "Xuan Tang". He travels in a black carriage pulled by black horses when he goes out. The banner on the carriage is also black. The Son of Heaven wears a black robe and black jade as well. He normally eats millet and pork. Vessels used for rites have big bellies and small brims.

If edicts of the autumn season are issued during the first month of winter, dew will come early, crustaceans will cause problems, and people who live in border areas are likely to take refuge in the capital. If edicts of the spring season are issued, the death rate of foetuses and newly-born babies will be very high, and lethal diseases will prevail all over the nation. This is the so-called Deterioration. If edicts of the summer season are issued, there will be severe problems caused by floods, it will not snow properly, and it will thaw ahead of time.

2. On Intellectuals' Moral Integrity

Intellectuals conduct themselves in such a way that they will propagate the virtues of justice and never circumvent any difficulties; they will face any troubles and overlook their own self-interests; and they will wholeheartedly defend the principle of righteousness, even at the cost of their own lives. As for people of this kind, a sovereign cannot befriend them, nor can a Son of Heaven make them subject to his authority. Nonetheless, this kind of people are indispensable in stabilizing the whole world in a broad sense, or stabilizing the state in a narrow sense. Hence, as for sovereigns who wish to accomplish great achievements and gain the highest reputation, they must endeavour to seek these kinds of intellectuals. Instead of handling government affairs themselves, sage sovereigns will spend time and energy

There was once a person named Beiguo Sao who lived in the state of Qi. He had been weaving nets, cutting grass and making straw sandals to earn a living. However, he could not manage to support his mother by doing these kinds of menial work. He then went to Yanzi's place and said, "Please give me some foodstuffs to support my old mother." One of Yanzi's guests told Yanzi, "This is one of Qi's sensible individuals. He is too proud to subject to the authority of the Son of Heaven and has not befriended any of the feudatories' sovereigns. However, he would not use advantage to benefit himself if it were not justifiable, and would not circumvent any troubles even though his own life might be threatened. Now he is asking you for some foodstuffs to support his mother because he admires your integrity. Please do help him." Yanzi then ordered his people to present Beiguo Sao with grain from his granary and gold from his depot. Beiguo Sao took the foodstuffs but refused to accept the gold. Shortly after that, the sovereign of Qi was suspicious and jealous of Yanzi, so Yanzi escaped. When he passed the place of Beiguo Sao, he went to say good-bye to him. Beiguo Sao took a shower and then went out to welcome Yanzi, and asked him, "Where are you going, sir?" Yanzi said, "His Majesty does not trust me any more, so I am going to take refuge in another state." Beiguo Sao said, "Then please take good care of yourself wherever you go." Yanzi got on his carriage and groaned, "Am I not doomed to escape and take

Beiguo Sao called on his friend and told him, "I admired Yanzi's integrity so much that I went to his place to beg some foodstuffs to support my mother. I have heard that 'if someone has supported your parents, you should give your life for him when he is in trouble.' Now that Yanzi has been doubted by His Majesty, I am going to die for him to wipe out the disgrace he experienced." He then dressed himself up and asked his friend to follow him with his sword and a bamboo box. After they arrived at the court, he told the palace messenger, "Yanzi is a sensible person, and is admired by people all over the world. If he leaves for another state, the state of Qi will definitely be invaded by other states. I do not want to face this kind of tragic situation, and would rather commit suicide before that happens. I am going to honour Yanzi's integrity with my life." He then told his friend, "Please put my head in this box and entrust this officer to deliver it to His Majesty." He then walked a few steps back and killed himself with his sword. The friend entrusted the box with the head of Beiguo Sao to the officer, then turned to the onlookers and said, "Mr. Beiguo has died for the sake of our state. And now I am going to die for his sake." He walked a few steps back and killed himself too. When the sovereign of Qi heard that story, it terrified him, so he took a swift horse to chase Yanzi himself and caught up with him on the outskirts of the capital. The sovereign invited him to come back and work for the regime again. Yanzi returned to the capital. When he

凭借富贵容易受人拥戴，而处于贫贱就很难笼络别人。从前晋文公在天下各国之间流亡的时候，困窘、贫贱到了极点，然而介子推一直没有离开他，这是因为晋文公具有吸引介子推的东西。晋文公返回晋国后，成为拥有一万辆战车的大国的国君，介子推却离开了他，这是由于当时的晋文公已没有能够吸引介子推的东西了。困难的事能够做到，容易的却做不到，这是文公不能成就王业的原因。晋文公返回晋国后，介子推不肯接受封赏，他自己写了一首诗：“飞龙翱翔，遍行天下。五蛇追随，甘为辅佐。龙返故乡，回到处所。四蛇追随，享受恩泽。一蛇羞愧，枯死荒野。悬书国门，自伏山下。”文公听到这件事说：“嘿！这

3. On Persisting in One's Way

It is easy for the wealthy and powerful to win over others by virtue of their wealth and power. But it is difficult for the poor to draw others to themselves. Previously, Duke Wen of the state of Jin was in exile and had taken refuge throughout the world. At that time, he was the poorest and the most menial of individuals. However, Jie Zitui followed and accompanied him everywhere. Duke Wen really possessed something to keep Jie Zitui. After he returned to Jin and took control over the regime, he became the sovereign of a state with ten thousand chariots, but Jie Zitui left him as he did not have that something to keep him any more. As for Duke Wen, he could attract others when he was in adverse circumstances, but failed to draw them to himself in favourable circumstances. That accounted for the fact that he could not manage to unify the world. After Duke Wen took control over the regime of Jin, Jie Zitui refused all the awards, and wrote a poem which says, "A dragon was once flying around the world and there were five snakes accompanying and supporting him. One day the dragon went back and took his rightful place, and four of the five snakes followed him and benefited from it. However, the other

He wrote a letter and put it on top of the gate of the capital, and went to live as a recluse at the foot of a mountain." When Duke Wen heard this poem, he said, "It must be Jie Zitui." He then left the palace to stay elsewhere. In order to show his self-condemnation, he wore sable and issued an order to the intellectuals and ordinary people of the state as follows: "Whoever can find Jie Zitui for me will be conferred the highest rank along with one million *mu* of land." Someone met Jie Zitui in the mountains. He carried a cooking vessel on his back, with a straw hat with a large rim stuck to it used as an umbrella. The man asked, "Would you please tell me where Jie Zitui is?" Jie Zitui replied, "If Jie Zitui does not want to serve at the court but only wishes to live as a recluse, how could I know where he is?" He then turned round and walked away. He did not accept any position during the rest of his lifetime. How much are people different from one another? Nowadays there are so many people trying their best to seek power and benefits. Pondering it over day and night, scheming with dry lips and parched tongues, they go out at dawn and do not return home until twilight in their quest for promotions, but their wishes still cannot be fulfilled. However, when power and fame were conferred on Jie Zitui, he was concerned with nothing but escaping from them rapidly. Jie Zitui's integrity is infinitely more sublime compared with that of the everyday world.

He asked, "What are you doing here?" Qiu said, "My name is Qiu and I am from Hu Fu." Yuan Jingmu was very surprised. He shouted, "Oh! Aren't you a robber? Why did you feed me? I am too proud to eat anything from you since I am an honourable person." He then bent down, put his hands on the ground to try to throw up, but failed. He coughed very badly and died immediately. When the troops of Zheng occupied the land of Xu of Han, Zhuang Ji plundered the capital of Chu and the troops of Qin attacked Chang Ping of Zhao. The generals and aristocrats of these states—Han, Chu and Zhao—were very arrogant, but their soldiers and people were robust. However, they were engaged in plundering and killing one another, and the coward and the weak knelt down to beg for their lives. Finally, the people had to eat each other for survival, and at that time, justice and righteousness were totally forgotten. However, people like Yuan Jingmu would rather die than eat something that he thought might have been obtained unlawfully by the robber of Hu Fu. Compared with Yuan Jingmu, aren't the officers and soldiers of these three states greatly inferior?

商汤、周武王最初只是拥有一千辆战车的诸侯，然而士人都归附他们。夏桀、殷纣是天子，然而士人都离开了他们。孔子、墨子是庶人，然而即便拥有一万辆战车、一千辆战车的君主都不能像他们那样赢得士人。由此看来，尊贵富有、领土广大都不足以招徕士人，君主一定要了解士人才行。

estimable it is to give one's own life for the sake of others! Nevertheless, these sublime people are normally not understood by the mediocre people. How could they know them and get on well with them if this is the case? As for sage sovereigns, they must understand the intellectuals well, so the intellectuals can contribute their wisdom and strength to serve them, remonstrate with them directly and take responsibility for safeguarding the throne and the state when the state is in danger. Yu Rang and Gongsun Hong were this kind of people. At their times, Marquis Zhi and Lord Mengchang really knew them well. As for contemporary sovereigns, they will be satisfied if they get one hundred square kilometers of land, and the people all over the state will celebrate them. At first, both Tang of the Shang Dynasty and King Wu of the Zhou Dynasty were sovereigns of feudatories with only one thousand chariots. However, intellectuals submitted to their authority. 过范氏、中行氏，诸侯把他们都灭掉了，但你却不曾替他们报仇；而你后来侍奉的智氏灭亡后，你却一定要替他报仇，这是为什么？”豫让说：“让我告诉你其中的原因吧。范氏、中行氏，在我受冻的时候，他们不给我衣服穿，在我挨饿的时候，他们不给我饭吃，时常给我与其他上千的门客同样的衣食，这是像养活众人一样养活我。他们像养活众人那样养活我，我也像众人一样回报他们。至于智氏就不是这样，我出门的时候，他给我提供车坐；我在家的时候，他给我提供充足的衣食，大庭广众之中，一定给我特殊的礼遇，这是像奉养国士那样地奉养我。他像对待国士那样对待我，我也像国士那样回报他。”豫让是国士，尚且在意别人对待自己的态度，更何况一般人？

孟尝君主张合纵，公孙弘对孟尝君说：“您不如先派人到西方观察一下秦王。假如秦王是个能够成就帝王大业的君主，您恐怕连作他的臣子都不成，哪里还有时间跟秦国作对呢？假如秦王是个不肖的昏君，

sovereigns who really understand them.

A friend of Yu Rang once told him, "How inexplicable your behaviour is! You served the Fans and the Zhongxings. These people were overthrown by other states, but you would not take revenge for them. Nevertheless, you served the Zhis later on, and you would definitely take revenge for them. Why have you behaved so differently?" Yu Rang said, "I will tell you the reason. As for the Fans and the Zhongxings, they would not give me anything to wear when I was cold. Nor would they give me anything to eat when I was hungry. Moreover, they often gave me the same kind of food and clothes as they gave to mediocre guests. If they treated me as a mediocre person, I would pay them back as a mediocre person would. However, the Zhis were not the same. Every time I went out, they would offer me their carriage. When I stayed at home, they would give me enough clothes and food. In addition, they treated me with respect in front of others. Thus they regarded me as a sensible intellectual, so I would pay them back as a sensible intellectual would as well." A person of sagacity like Yu Rang would return like for like, needless to say how mediocre people would behave themselves.

Lord Mengchang advocated amalgamating the six states—Qi, Chu, Yan, Han, Zhao and Wei—to build a unified battlefield to counterattack the state of Qin. Gongsun Hong told him, "Why don't you send someone to the west to monitor the king of Qin first? If he really is capable of unifying the world, I am afraid that you would want to work

从以难之未晚也。”孟尝君曰：“善。愿因请公往矣。”公孙弘敬诺，以车十乘之秦。秦昭王闻之，而欲丑之以辞，以观公孙弘。公孙弘见昭王，昭王曰：“薛之地小大几何？”公孙弘对曰：“百里。”昭王笑曰：“寡人之国，地数千里，犹未敢以有难也。今孟尝君之地方百里，而因欲以难寡人犹可乎？”公孙弘对曰：“孟尝君好士，大王不好士。”昭王曰：“孟尝君之好士何如？”公孙弘对曰：“义不臣乎天子，不友乎诸侯，得意则不惭为人君，不得意则不肯为人臣，如此者三人。能治可为管、商之师，说义听行，其能致主霸王，如此者五人。万乘之严主，辱其使者，退而自刎也，

到那时您再合纵跟他作对也不晚。”孟尝君说：“好。那就请您到秦国走一趟吧。”公孙弘答应了，于是带着十辆车前往秦国。秦昭王听说此事，想用言辞羞辱他，以借机观察他。公孙弘拜见昭王，昭王问：“薛的面积有多大？”公孙弘回答说：“方圆百里。”昭王笑道：“我的国土纵横几千里，还不敢凭借它跟别人作对。如今孟尝君想凭借区区百里见方的土地跟我作对，能行吗？”公孙弘回答说：“孟尝君重视士人，而大王您不重视。”昭王说：“孟尝君重视士人又能怎么样？”公孙弘回答说：“信守节义，不向天子称臣，不跟诸侯结交，得志的时候，做君主也不感到惭愧；不得志的时候，也不肯作别人的臣子，这样的士人，孟尝君有三位。善于治国，能力足以作管仲、商鞅的老师，他们的主张如果被听从，就能使君主成就王霸大业，这样的士人，孟尝君有五位。充任使者，如果遭到

with his regime. How could you counterattack him if this is the case? If he is an unworthy sovereign, it won't be too late to carry out your plan of counterattacking him." Lord Mengchang said, "Good idea! Please go there and observe him for me." Gongsun Hong accepted this task. He then went to Qin with ten carriages. When King Zhao of Qin found out, he decided to humiliate him to see what kind of person he was. When Gongsun Hong arrived at the court of King Zhao, the king asked him, "How large is the territory of Xue?" Gongsun Hong said, "One hundred square kilometres." King Zhao laughed, and then he said, "My territory is several thousand square kilometres of land. Large as my state is, I do not dare to set myself against others. Nonetheless, Lord Mengchang is going to act against me with only one hundred square kilometres of land. Do you really think that it is possible?" Gongsun Hong said, "Yes. Because Lord Mengchang values intellectuals and you don't." King Zhao asked, "What difference does it make even though Lord Mengchang values intellectuals?" Gongsun Hong said, "Well, intellectuals who stick to their values would not be subject to the authority of the Son of Heaven or make friends with sovereigns of other states, would not feel sorry to replace the Son of Heaven if they could achieve their ambitions or condescend to serve others when they failed in accomplishing their goals—of this kind of people, Lord Mengchang has three. As for intellectuals who are capable of governing the state and qualified to act as mentors for people like Guan Zhong and Shang Yang, if their advice were

必以其血汙其衣，有如臣者七人。”昭王笑而谢焉曰：“客胡为若此？寡人善孟尝君，欲客之必谨谕寡人之意也。”公孙弘敬诺。公孙弘可谓不侵矣。昭王，大王也。孟尝君，千乘也。立千乘之义而不可凌，可谓士矣。

拥有一万辆战车的大国的君主侮辱，就退后自刎，必定用自己的血污染对方的衣服，像我这样的，孟尝君有七位。”昭王笑着道歉说：“您何必这样呢？我对孟尝君很友好，希望您一定要向他转达我的意思。”公孙弘答应了。公孙弘可以称得上凛然不可侵犯了。昭王是大国的国君，而孟尝君只不过拥有一千辆战车。公孙弘能使孟尝君的尊严免受昭王的凌辱，可以称得上士了。

维秦八年，岁在涒滩，秋，甲子朔，朔之日，良人请问“十二纪”，文信侯曰：“尝得学黄帝之所以诲颡顓矣，爰有大圜在上，大矩在下，汝能法之，为民父母。盖闻古之清世，是法天地。凡“十二纪”者，所以纪治乱

秦始皇八年，太岁位于申宿，这年秋季，初一是甲子日的那天，君子询问“十二纪”的情况。文信侯说：“曾经学到黄帝教诲颡顓的话，是说皇天在上，大地在下，你能够效法它们，就可以做人民的父母。听说古代的清平之世，都是效法天地的。“十二纪”，是用来记载国家的治乱存

followed, sovereigns they serve could establish outstanding powers or even unify the world—of this kind of people, Lord Mengchang has five. And he also has seven people like me. As for us, when we were humiliated by sovereigns of states with ten thousand chariots on diplomatic missions, we would walk a step back to commit suicide and contaminate the clothing of these sovereigns with our blood.” King Zhao laughed and apologized to him. He said, “Why were you saying that? I am very friendly towards Lord Mengchang and think highly of him. Please be sure to pass on my good intentions to him.” Gongsun Hong promised to do so. Gongsun Hong really was inviolable. King Zhao was the sovereign of a great state, but Lord Mengchang only had a fief with one thousand chariots. Nevertheless, Gongsun Hong prevented Lord Mengchang’s dignity from being compromised by King Zhao. He can be regarded as a great intellectual.

The Postscript of the Twelve Records

Eight years after Qin Shi Huang came into power, Jupiter moved to the same place as Shen (a group of stars). During the autumn season, when the first day of the month is Jia Zi, a gentleman asks Marquis Wenxin for information on the Twelve Records. Marquis Wenxin says, “I have heard about the teaching of the Yellow King. It is said that when he was teaching Zhuan Xu, he expressed his thought as follows: Heaven is above and Earth is below. If you know how to

存亡也，所以知寿夭吉凶也。上揆之天，下验之地，中审之人，若此则是非可不可无所遁矣。天曰顺，顺维生；地曰固，固维宁；人曰信，信维听。三者咸当，无为而行。行也者，行其理也。行数，循其理，平其私。夫私视使目盲，私听使耳聋，私虑使心狂。三者皆私设精则智无由公。智不公，则福日衰，灾日隆，以日倪而西望知之。”

亡并了解人事的寿夭吉凶的。揆度上天的旨意，用地上的事物进行检验，并且用人事进行审察，这样，是与非、可与不可都不会有失误。要顺应天意，顺应天意，生命才能维系；大地要牢固，大地牢固，万物才能安宁；人要诚信，人诚信，才能被听从。天地人三者都各得其所，就可以无为而行。行，就是遵行天道。遵行天道，顺应地理，就可以排除私心。带着私心去看，眼睛什么都看不见；带着私心去听，耳朵什么都听不见；带着私心去思虑，心就会狂乱。眼睛、耳朵和心都受私欲驱使而施用智巧，心智就不能做到公正。心智不公正，好运就会一天天衰减，灾祸就会一天天兴隆。这个道理，在太阳偏斜时向西眺望就可以看出来。”

follow their principles, you can become parent of the people. I have heard that sovereigns of all the millennia of ancient times had followed the principles of both Heaven and Earth. These twelve records are aimed at recording the significant events in history, such as order, disorder, survival or perdition of the states, and explaining the reason for occurrences in human life, such as longevity, mortality, fortunes or mishaps. We are doing that by observing the will of Heaven above, examining occurrences on Earth and inspecting human affairs in between, so all mistakes in judgement, true or false, right or wrong, will be avoided this way. The will of Heaven must be obeyed, thus can one survive. Earth must be substantial, thus can everything that lives on it be safeguarded. And human beings must be honest, thus can they be trusted. If Heaven, Earth and human beings can all perform their functions correctly, every goal can be realized even though no concrete action is taken. Doing things means to comply with the principles of Heaven. Comply with the principles of Heaven and acclimatize to the disciplines of Earth, thus can all selfish wishes be removed. Watching under the influence of selfish wishes, you cannot see anything at all; listening under the influence of selfish wishes, you cannot hear anything at all; pondering over things under the influence of selfish wishes, your heart will become frantic. If the eye, the ear and the heart are all affected by the selfish wishes' tricks, you cannot remain disinterested. If you cannot remain disinterested, good fortune will decrease day by day, and misfortune will increase

赵襄子游于囿中，至于梁，马却不肯进，青荇为参乘，襄子曰：“进视梁下，类有人。”青荇进视梁下，豫让却寝，佯为死人，叱青荇曰：“去！长者吾且有事。”青荇曰：“少而与子友，子且为大事，而我言之，是失相与友之道。子将贼吾君，而我不言之，是失为人臣之道。如我者惟死为可。”乃退而自杀。青荇非乐死也，重失人臣之节，恶废交友之道也。青荇、豫让可谓之友也。

赵襄子在园囿中游玩，走到桥边的时候，马停止不前。这时青荇做参乘，襄子说：“去看看桥底下，好像有个人在那里。”青荇走过去看桥下，豫让仰面躺在那里，装作死人，他呵斥青荇说：“走开！老子有重要的事。”青荇说：“我从小跟你很要好，你现在要做大事，如果我说出去，就会有违交友之道。你想杀死我的君主，如果我不说出去，就会有违为臣之道。我这样处在这样的境地，只有一死了之才成。”于是后退自杀身亡。青荇不是喜欢死，而是在乎作为臣子的节操，并且厌恶背叛自己的朋友。青荇、豫让可以算是真正的朋友了。

correspondingly. That is a matter of fact and you can understand it by observing the sun setting westward before it gets dark."

Once, Zhao Xiangzi was riding in the garden, but his horse stopped in front of a bridge. At that time, Qing Qiao was driving his carriage. Xiangzi told him, "Go and take a look at the bridge. It seems that someone is under it." Qing Qiao went to the bridge and saw Yu Rang stretched on his back pretending to be dead. Yu Rang scolded him, "Depart immediately. I have something important to do here." Qing Qiao said, "I have been your close friend ever since I was a boy. Now you are going to do something important here (it refers to the fact that he is about to murder Zhao Xiangzi). If I betray you and tell Xiangzi the truth, it is against my values of friendship. Since you are going to kill my sovereign, if I do not report to him, it is against my values of serving as a court official. I am in a dilemma now, and the only thing I can do is to commit suicide." He then walked a few steps back and killed himself. It was not that Qing Qiao did not want to live any more, but that he laid much stress on the integrity of being a loyal official and could not betray a close friend either. Qing Qiao and Yu Rang were friends indeed.
